

Steven A. Abrams

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/9561945/steven-a-abrams-publications-by-year.pdf>

Version: 2024-04-19

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
141	Growth outcomes of small for gestational age preterm infants before and after implementation of an exclusive human milk-based diet. <i>Journal of Perinatology</i> , 2021 , 41, 1859-1864	3.1	0
140	Vitamin D and bone minerals in neonates. <i>Early Human Development</i> , 2021 , 162, 105461	2.2	0
139	Human milk fortifiers: corrigenda. <i>American Journal of Clinical Nutrition</i> , 2020 , 111, 1301-1302	7	
138	Long-Term Growth and Body Composition Consequences of Using Fortified Donor Milk or Preterm Formula for Very-Low-Birth-Weight Infants. <i>Journal of Nutrition</i> , 2020 , 150, 188-189	4.1	
137	Comment on "Human Milk-Derived Fortifiers Compared with Bovine Milk-Derived Fortifiers in Preterm Infants: A Systematic Review and Meta-Analysis". <i>Advances in Nutrition</i> , 2020 , 11, 1712-1713	10	1
136	Protecting Vulnerable Infants by Ensuring Safe Infant Formula Use. <i>Journal of Pediatrics</i> , 2019 , 211, 201-206	3.06	8
135	Infant milk-feeding practices and food allergies, allergic rhinitis, atopic dermatitis, and asthma throughout the life span: a systematic review. <i>American Journal of Clinical Nutrition</i> , 2019 , 109, 772S-799S	7	47
134	Infant milk-feeding practices and childhood leukemia: a systematic review. <i>American Journal of Clinical Nutrition</i> , 2019 , 109, 757S-771S	7	8
133	Infant milk-feeding practices and diabetes outcomes in offspring: a systematic review. <i>American Journal of Clinical Nutrition</i> , 2019 , 109, 817S-837S	7	14
132	Infant milk-feeding practices and cardiovascular disease outcomes in offspring: a systematic review. <i>American Journal of Clinical Nutrition</i> , 2019 , 109, 800S-816S	7	10
131	Infant milk-feeding practices and diagnosed celiac disease and inflammatory bowel disease in offspring: a systematic review. <i>American Journal of Clinical Nutrition</i> , 2019 , 109, 838S-851S	7	12
130	Using stable isotope tracers to study bone metabolism in children. <i>Journal of Physiology</i> , 2019 , 597, 1311-1319	15.3192	
129	What does it mean to target specific serum 25-hydroxyvitamin D concentrations in children and adolescents?. <i>American Journal of Clinical Nutrition</i> , 2016 , 104, 1193-1194	7	4
128	Beyond Necrotizing Enterocolitis Prevention: Improving Outcomes with an Exclusive Human Milk-Based Diet. <i>Breastfeeding Medicine</i> , 2016 , 11, 70-4	2.1	112
127	Delaying Iron Therapy until 28 Days after Antimalarial Treatment Is Associated with Greater Iron Incorporation and Equivalent Hematologic Recovery after 56 Days in Children: A Randomized Controlled Trial. <i>Journal of Nutrition</i> , 2016 , 146, 1769-74	4.1	13
126	Delayed Introduction of Parenteral Phosphorus Is Associated with Hypercalcemia in Extremely Preterm Infants. <i>Journal of Nutrition</i> , 2016 , 146, 1212-6	4.1	4
125	Is it time to put a moratorium on new infant formulas that are not adequately investigated?. <i>Journal of Pediatrics</i> , 2015 , 166, 756-60	3.6	8

124	A systematic review of controlled trials of lower-protein or energy-containing infant formulas for use by healthy full-term infants. <i>Advances in Nutrition</i> , 2015 , 6, 178-88	10	28
123	Free 25(OH)D and Calcium Absorption, PTH, and Markers of Bone Turnover. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2015 , 100, 4140-5	5.6	46
122	The Role of the Pediatrician in Primary Prevention of Obesity. <i>Pediatrics</i> , 2015 , 136, e275-92	7.4	233
121	Fortifier and cream improve fat delivery in continuous enteral infant feeding of breast milk. <i>Nutrients</i> , 2015 , 7, 1174-83	6.7	12
120	Serum phosphorus levels in premature infants receiving a donor human milk derived fortifier. <i>Nutrients</i> , 2015 , 7, 2562-73	6.7	3
119	A Novel Approach to Improving Fat Delivery in Neonatal Enteral Feeding. <i>Nutrients</i> , 2015 , 7, 5051-64	6.7	7
118	Snacks, sweetened beverages, added sugars, and schools. <i>Pediatrics</i> , 2015 , 135, 575-83	7.4	53
117	Vitamin D supplementation increases calcium absorption without a threshold effect. <i>American Journal of Clinical Nutrition</i> , 2014 , 99, 624-31	7	55
116	Increased calcium absorption from synthetic stable amorphous calcium carbonate: double-blind randomized crossover clinical trial in postmenopausal women. <i>Journal of Bone and Mineral Research</i> , 2014 , 29, 2203-9	6.3	9
115	Consumption of raw or unpasteurized milk and milk products by pregnant women and children. <i>Pediatrics</i> , 2014 , 133, 175-9	7.4	56
114	Randomized trial of human milk cream as a supplement to standard fortification of an exclusive human milk-based diet in infants 750-1250 g birth weight. <i>Journal of Pediatrics</i> , 2014 , 165, 915-20	3.6	47
113	Fish oil-based lipid emulsions in the treatment of parenteral nutrition-associated liver disease: an ongoing positive experience. <i>Advances in Nutrition</i> , 2014 , 5, 65-70	10	42
112	Calcium kinetics during bed rest with artificial gravity and exercise countermeasures. <i>Osteoporosis International</i> , 2014 , 25, 2237-44	5.3	7
111	Micronutrient requirements of high-risk infants. <i>Clinics in Perinatology</i> , 2014 , 41, 347-61	2.8	7
110	Fifty years of human space travel: implications for bone and calcium research. <i>Annual Review of Nutrition</i> , 2014 , 34, 377-400	9.9	63
109	Bone densitometry in infants and young children: the 2013 ISCD Pediatric Official Positions. <i>Journal of Clinical Densitometry</i> , 2014 , 17, 243-57	3.5	59
108	Magnesium metabolism in 4-year-old to 8-year-old children. <i>Journal of Bone and Mineral Research</i> , 2014 , 29, 118-22	6.3	21
107	Optimizing bone health in children and adolescents. <i>Pediatrics</i> , 2014 , 134, e1229-43	7.4	234

106	Greater mortality and morbidity in extremely preterm infants fed a diet containing cow milk protein products. <i>Breastfeeding Medicine</i> , 2014 , 9, 281-5	2.1	100
105	Bioavailability of enteric-coated microencapsulated calcium during pregnancy: a randomized crossover trial in Bangladesh. <i>American Journal of Clinical Nutrition</i> , 2014 , 100, 1587-95	7	8
104	Isotope concentrations from 24-h urine and 3-h serum samples can be used to measure intestinal magnesium absorption in postmenopausal women. <i>Journal of Nutrition</i> , 2014 , 144, 533-7	4.1	5
103	Reply: To PMID 23968744. <i>Journal of Pediatrics</i> , 2014 , 164, 947	3.6	
102	Infant iron status affects iron absorption in Peruvian breastfed infants at 2 and 5 mo of age. <i>American Journal of Clinical Nutrition</i> , 2013 , 98, 1475-84	7	14
101	Vitamin D: effects on childhood health and disease. <i>Nature Reviews Endocrinology</i> , 2013 , 9, 162-70	15.2	26
100	Impact of new-generation parenteral lipid emulsions in pediatric nutrition. <i>Advances in Nutrition</i> , 2013 , 4, 518-20	10	6
99	Supplementation with 1000 IU vitamin D/d leads to parathyroid hormone suppression, but not increased fractional calcium absorption, in 4-8-y-old children: a double-blind randomized controlled trial. <i>American Journal of Clinical Nutrition</i> , 2013 , 97, 217-23	7	34
98	Inclusion of guava enhances non-heme iron bioavailability but not fractional zinc absorption from a rice-based meal in adolescents. <i>Journal of Nutrition</i> , 2013 , 143, 852-8	4.1	25
97	Calcium and vitamin d requirements of enterally fed preterm infants. <i>Pediatrics</i> , 2013 , 131, e1676-83	7.4	175
96	Efficacy of a multi micronutrient-fortified drink in improving iron and micronutrient status among schoolchildren with low iron stores in India: a randomised, double-masked placebo-controlled trial. <i>European Journal of Clinical Nutrition</i> , 2013 , 67, 36-41	5.2	18
95	Vitamin D requirements of children: "all my life's a circle". <i>Nutrition Reviews</i> , 2012 , 70, 201-6	6.4	6
94	Hepcidin is the major predictor of erythrocyte iron incorporation in anemic African children. <i>Blood</i> , 2012 , 119, 1922-8	2.2	120
93	Organic foods: health and environmental advantages and disadvantages. <i>Pediatrics</i> , 2012 , 130, e1406-15	7.4	77
92	Low zinc status and absorption exist in infants with jejunostomies or ileostomies which persists after intestinal repair. <i>Nutrients</i> , 2012 , 4, 1273-81	6.7	7
91	IOM committee members respond to Endocrine Society vitamin D guideline. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2012 , 97, 1146-52	5.6	387
90	Genetic defect in CYP24A1, the vitamin D 24-hydroxylase gene, in a patient with severe infantile hypercalcemia. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2012 , 97, E268-74	5.6	90
89	Serum 1,25-dihydroxyvitamin D and calcium intake affect rates of bone calcium deposition during pregnancy and the early postpartum period. <i>American Journal of Clinical Nutrition</i> , 2012 , 96, 64-72	7	19

88	β-Lactalbumin and casein-glycomacropeptide do not affect iron absorption from formula in healthy term infants. <i>Journal of Nutrition</i> , 2012 , 142, 1226-31	4.1	14
87	The 2011 report on dietary reference intakes for calcium and vitamin D from the Institute of Medicine: what clinicians need to know. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2011 , 96, 53-8	5.6	2706
86	The 2011 Dietary Reference Intakes for Calcium and Vitamin D: what dietetics practitioners need to know. <i>Journal of the American Dietetic Association</i> , 2011 , 111, 524-7		213
85	Clarification of DRIs for calcium and vitamin D across age groups. <i>Journal of the American Dietetic Association</i> , 2011 , 111, 1467		6
84	What are the risks and benefits to increasing dietary bone minerals and vitamin D intake in infants and small children?. <i>Annual Review of Nutrition</i> , 2011 , 31, 285-97	9.9	10
83	Vitamin D supplementation during pregnancy. <i>Journal of Bone and Mineral Research</i> , 2011 , 26, 2338-40	6.3	18
82	Calcium absorption, kinetics, bone density, and bone structure in patients with hereditary vitamin D-resistant rickets. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2011 , 96, 3701-9	5.6	55
81	Dietary guidelines for calcium and vitamin D: a new era. <i>Pediatrics</i> , 2011 , 127, 566-8	7.4	47
80	Vitamin D requirements in adolescents: what is the target?. <i>American Journal of Clinical Nutrition</i> , 2011 , 93, 483-4	7	8
79	Evaluation of an inexpensive calcium absorption index in healthy older men and women. <i>Clinical Endocrinology</i> , 2010 , 72, 22-5	3.4	1
78	Relationship of calcium absorption with 25(OH)D and calcium intake in children with rickets. <i>Nutrition Reviews</i> , 2010 , 68, 682-8	6.4	25
77	Continuous feedings of fortified human milk lead to nutrient losses of fat, calcium and phosphorous. <i>Nutrients</i> , 2010 , 2, 230-40	6.7	34
76	Calcium absorption in infants and small children: methods of determination and recent findings. <i>Nutrients</i> , 2010 , 2, 474-80	6.7	27
75	Fractional absorption of active absorbable algal calcium (AAACa) and calcium carbonate measured by a dual stable-isotope method. <i>Nutrients</i> , 2010 , 2, 752-61	6.7	9
74	Setting Dietary Reference Intakes with the use of bioavailability data: calcium. <i>American Journal of Clinical Nutrition</i> , 2010 , 91, 1474S-1477S	7	11
73	High rates of mortality and morbidity occur in infants with parenteral nutrition-associated cholestasis. <i>Journal of Parenteral and Enteral Nutrition</i> , 2010 , 34, 32-7	4.2	88
72	An inflection point of serum 25-hydroxyvitamin D for maximal suppression of parathyroid hormone is not evident from multi-site pooled data in children and adolescents. <i>Journal of Nutrition</i> , 2010 , 140, 1983-8	4.1	42
71	Mineral homeostasis in young children consuming typical U.S. diets. <i>Pure and Applied Chemistry</i> , 2010 , 82, 437-445	2.1	

70	Perturbed zinc homeostasis in rural 3-5-y-old Malawian children is associated with abnormalities in intestinal permeability attributed to tropical enteropathy. <i>Pediatric Research</i> , 2010 , 67, 671-5	3.2	54
69	A simple single serum method to measure fractional calcium absorption using dual stable isotopes. <i>Experimental and Clinical Endocrinology and Diabetes</i> , 2010 , 118, 653-6	2.3	6
68	Diagnosis and prevention of iron deficiency and iron-deficiency anemia in infants and young children (0-3 years of age). <i>Pediatrics</i> , 2010 , 126, 1040-50	7.4	563
67	Effect of tannic acid on iron absorption in straw-colored fruit bats (<i>Eidolon helvum</i>). <i>Zoo Biology</i> , 2010 , 29, 335-43	1.6	19
66	Building skeletons during adolescence: what is the target?. <i>British Journal of Nutrition</i> , 2010 , 103, 467-8	3.6	
65	Changing the zinc:iron ratio in a cereal-based nutritional supplement has no effect on percent absorption of iron and zinc in Sri Lankan children. <i>British Journal of Nutrition</i> , 2010 , 103, 1015-22	3.6	7
64	Orange but not apple juice enhances ferrous fumarate absorption in small children. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2010 , 50, 545-50	2.8	11
63	Can lactoferrin prevent neonatal sepsis and necrotizing enterocolitis?. <i>Expert Review of Anti-Infective Therapy</i> , 2009 , 7, 515-25	5.5	7
62	Meals and dephytinization affect calcium and zinc absorption in Nigerian children with rickets. <i>Journal of Nutrition</i> , 2009 , 139, 926-32	4.1	23
61	Higher serum 25-hydroxyvitamin D levels in school-age children are inconsistently associated with increased calcium absorption. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2009 , 94, 2421-7	5.6	62
60	Potassium bicarbonate attenuates the urinary nitrogen excretion that accompanies an increase in dietary protein and may promote calcium absorption. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2009 , 94, 645-53	5.6	71
59	The effect of vitamin D2 and vitamin D3 on intestinal calcium absorption in Nigerian children with rickets. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2009 , 94, 3314-21	5.6	58
58	Iron supplementation does not affect copper and zinc absorption in breastfed infants. <i>American Journal of Clinical Nutrition</i> , 2009 , 89, 185-90	7	23
57	Docosahexaenoic acid (DHA) supplementation of orange juice increases plasma phospholipid DHA content of children. <i>Journal of the American Dietetic Association</i> , 2009 , 109, 708-12		12
56	The efficacy of micronutrient supplementation in reducing the prevalence of anaemia and deficiencies of zinc and iron among adolescents in Sri Lanka. <i>European Journal of Clinical Nutrition</i> , 2008 , 62, 856-65	5.2	35
55	Nutritional impact of elevated calcium transport activity in carrots. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2008 , 105, 1431-5	11.5	95
54	Postnatal vitamin A supplementation in developing countries: an intervention whose time has come?. <i>Pediatrics</i> , 2008 , 122, 180-1	7.4	9
53	Adaptation of calcium absorption during treatment of nutritional rickets in Nigerian children. <i>British Journal of Nutrition</i> , 2008 , 100, 387-92	3.6	19

52	Assessing mineral metabolism in children using stable isotopes. <i>Pediatric Blood and Cancer</i> , 2008 , 50, 438-41; discussion 451	3	13
51	Iron incorporation and post-malaria anaemia. <i>PLoS ONE</i> , 2008 , 3, e2133	3.7	41
50	Effect of prebiotic supplementation and calcium intake on body mass index. <i>Journal of Pediatrics</i> , 2007 , 151, 293-8	3.6	90
49	Effects of oligofructose-enriched inulin on intestinal absorption of calcium and magnesium and bone turnover markers in postmenopausal women. <i>British Journal of Nutrition</i> , 2007 , 97, 365-72	3.6	123
48	Zinc homeostasis in 1-4 year olds consuming diets typical of US children. <i>British Journal of Nutrition</i> , 2007 , 98, 358-63	3.6	11
47	An educational program enhances food label understanding of young adolescents. <i>Journal of the American Dietetic Association</i> , 2006 , 106, 913-6		30
46	Fractional calcium absorption is increased in girls with Rett syndrome. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 2006 , 42, 419-26	2.8	34
45	Effects of potassium alkali and calcium supplementation on bone turnover in postmenopausal women. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2005 , 90, 3528-33	5.6	55
44	Absorption of calcium from the carbonated dairy soft drink is greater than that from fat-free milk and calcium-fortified orange juice in women. <i>Nutrition Research</i> , 2005 , 25, 737-742	4	6
43	Bone markers, calcium metabolism, and calcium kinetics during extended-duration space flight on the mir space station. <i>Journal of Bone and Mineral Research</i> , 2005 , 20, 208-18	6.3	173
42	Vitamin D receptor Fok1 polymorphisms affect calcium absorption, kinetics, and bone mineralization rates during puberty. <i>Journal of Bone and Mineral Research</i> , 2005 , 20, 945-53	6.3	97
41	Relationships among vitamin D levels, parathyroid hormone, and calcium absorption in young adolescents. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2005 , 90, 5576-81	5.6	139
40	Height and height Z-score are related to calcium absorption in five- to fifteen-year-old girls. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2005 , 90, 5077-81	5.6	14
39	Zinc metabolism in adolescents with Crohn's disease. <i>Pediatric Research</i> , 2004 , 56, 235-9	3.2	25
38	Improved estimation of the calcium content of total digestive secretions. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2004 , 89, 1193-5	5.6	13
37	Calcium and bone mineral metabolism in children with chronic illnesses. <i>Annual Review of Nutrition</i> , 2004 , 24, 13-32	9.9	14
36	Bioavailability of elemental iron powder in white wheat bread. <i>European Journal of Clinical Nutrition</i> , 2004 , 58, 555-8	5.2	18
35	Safety and efficacy of human milk fortification for very-low-birthweight infants. <i>Nutrition Reviews</i> , 2004 , 62, 482-5	6.4	13

34	Pubertal girls only partially adapt to low dietary calcium intakes. <i>Journal of Bone and Mineral Research</i> , 2004 , 19, 759-63	6.3	53
33	Bioavailability of iron and zinc from a multiple micronutrient-fortified beverage. <i>Journal of Pediatrics</i> , 2004 , 145, 26-31	3.6	18
32	Inductively coupled plasma mass spectrometric analysis of calcium isotopes in human serum: a low-sample-volume acid-equilibration method. <i>Clinical Chemistry</i> , 2003 , 49, 2050-5	5.5	19
31	Enriched chicory inulin increases calcium absorption mainly in girls with lower calcium absorption. <i>Nutrition Research</i> , 2003 , 23, 901-909	4	102
30	Nutritional rickets: an old disease returns. <i>Nutrition Reviews</i> , 2002 , 60, 111-5	6.4	69
29	Total body calcium by neutron activation analysis: Reference data for children. <i>Journal of Radioanalytical and Nuclear Chemistry</i> , 2001 , 249, 461-464	1.5	3
28	Calcium fortification of breakfast cereal enhances calcium absorption in children without affecting iron absorption. <i>Journal of Pediatrics</i> , 2001 , 139, 522-6	3.6	37
27	Peak bone mass. <i>Osteoporosis International</i> , 2000 , 11, 985-1009	5.3	817
26	Compartmental analysis of magnesium kinetics in Mg-sufficient and Mg-deficient rats. <i>Metabolism: Clinical and Experimental</i> , 2000 , 49, 1326-9	12.7	7
25	Calcium Absorption, Bone Mass Accumulation, and Kinetics Increase during Early Pubertal Development in Girls. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2000 , 85, 1805-1809	5.6	50
24	Vitamin D receptor gene Fok1 polymorphism predicts calcium absorption and bone mineral density in children. <i>Journal of Bone and Mineral Research</i> , 1999 , 14, 740-6	6.3	149
23	Effect of growth hormone treatment on calcium kinetics in patients with osteogenesis imperfecta type III and IV. <i>Bone</i> , 1999 , 25, 501-5	4.7	21
22	The relationship between magnesium and calcium kinetics in 9- to 14-year-old children. <i>Journal of Bone and Mineral Research</i> , 1998 , 13, 149-53	6.3	12
21	Bone turnover response to changes in calcium intake is altered in girls and adult women in families with histories of osteoporosis. <i>Journal of Bone and Mineral Research</i> , 1998 , 13, 491-9	6.3	23
20	Body composition reference data for a young multiethnic female population. <i>Applied Radiation and Isotopes</i> , 1998 , 49, 587-8	1.7	11
19	Bone Turnover during Lactation--Can Calcium Supplementation Make a Difference?. <i>Journal of Clinical Endocrinology and Metabolism</i> , 1998 , 83, 1056-1058	5.6	9
18	Vitamin K Status and Bone Health: An Analysis of Methods for Determination of Undercarboxylated Osteocalcin. <i>Journal of Clinical Endocrinology and Metabolism</i> , 1998 , 83, 3258-3266	5.6	178
17	Addition of rice cereal to formula does not impair mineral bioavailability. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 1998 , 26, 175-8	2.8	20

16	Changes in calcium kinetics associated with menarche. <i>Journal of Clinical Endocrinology and Metabolism</i> , 1996 , 81, 2017-2020	5.6	35
15	Variables related to urinary calcium excretion in young girls. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , 1996 , 23, 8-12	2.8	26
14	Precise determination of the absorptive component of urinary calcium excretion using stable isotopes. <i>Pediatric Nephrology</i> , 1995 , 9, 295-7	3.2	9
13	Calcium tracer kinetics show decreased irreversible flow to bone in glucocorticoid treated patients. <i>Calcified Tissue International</i> , 1995 , 56, 533-5	3.9	12
12	Use of stable isotopic tracers in studies of whole body calcium metabolism. <i>Connective Tissue Research</i> , 1995 , 31, 291-3	3.3	3
11	Postnatal attainment of intrauterine macromineral accretion rates in low birth weight infants fed fortified human milk. <i>Journal of Pediatrics</i> , 1995 , 126, 441-7	3.6	80
10	Extraction of magnesium from biological fluids using 8-hydroxyquinoline and cation-exchange chromatography for isotopic enrichment analysis using thermal ionization mass spectrometry. <i>Analytical Biochemistry</i> , 1994 , 218, 92-7	3.1	6
9	Effects of development on techniques for calcium stable isotope studies in children. <i>Biological Mass Spectrometry</i> , 1994 , 23, 357-61		16
8	Application of magnetic sector thermal ionization mass spectrometry to studies of erythrocyte iron incorporation in small children. <i>Biological Mass Spectrometry</i> , 1994 , 23, 771-5		28
7	A non-Markovian model for calcium kinetics in the body. <i>Journal of Pharmacokinetics and Pharmacodynamics</i> , 1994 , 22, 367-79		17
6	Relationship between balance and dual tracer isotopic measurements of calcium absorption and excretion. <i>Journal of Clinical Endocrinology and Metabolism</i> , 1994 , 79, 965-969	5.6	17
5	Mineral balance and bone turnover in adolescents with anorexia nervosa. <i>Journal of Pediatrics</i> , 1993 , 123, 326-31	3.6	76
4	Pubertal changes in calcium kinetics in girls assessed using ⁴² Ca. <i>Pediatric Research</i> , 1993 , 34, 455-9	3.2	26
3	Bone mineralization in former very low birth weight infants fed either human milk or commercial formula. <i>Journal of Pediatrics</i> , 1988 , 112, 956-60	3.6	57
2	Bioavailability of calcium and phosphorus in human milk fortifiers and formula for very low birth weight infants. <i>Journal of Pediatrics</i> , 1988 , 113, 95-100	3.6	46
1	Mineral balance studies in very low birth weight infants fed human milk. <i>Journal of Pediatrics</i> , 1988 , 113, 230-8	3.6	25
