#	ARTICLE	IF	CITATIONS
1	Feasibility of a psychoeducational group intervention to improve parental reflective functioning and bonding in pregnancy: a randomised trial. <i>Journal of Reproductive and Infant Psychology</i> , 2021, 39, 499-515.	0.9	0
2	Individual Differences in Executive Function: The Role of Parental Monitoring as a Moderator. <i>Journal of Attention Disorders</i> , 2021, 25, 364-376.	1.5	0
3	Risk perception of cigarette and e-cigarette use during pregnancy: A qualitative postpartum perspective. <i>Midwifery</i> , 2021, 94, 102917.	1.0	5
4	Effects of maternal mental health on prenatal movement profiles in twins and singletons. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021, 110, 2553-2558.	0.7	3
5	Foetal mouth movements: Effects of nicotine. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021, 110, 3014-3020.	0.7	1
6	Infant neurobehavioural consequences of prenatal cigarette exposure: A systematic review and meta-analysis. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2020, 109, 1112-1124.	0.7	17
7	Effects of maternal mental health on fetal visual preference for face-like compared to non-face like light stimulation. <i>Early Human Development</i> , 2020, 151, 105227.	0.8	11
8	The effects of prenatal cigarette and e-cigarette exposure on infant neurobehaviour: A comparison to a control group. <i>EClinicalMedicine</i> , 2020, 28, 100602.	3.2	20
9	Prenatal effects of maternal nutritional stress and mental health on the fetal movement profile. <i>Archives of Gynecology and Obstetrics</i> , 2020, 302, 65-75.	0.8	8
10	Comparing a foetus diagnosed with Prader-Willi syndrome with non-affected foetuses during light and sound stimulation using 4D ultrasound. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2019, 108, 375-376.	0.7	3
11	Medieval Children by Nicholas Orme. <i>Common Knowledge</i> , 2019, 25, 413-414.	0.0	0
12	The impact of parenting styles on children developmental outcome: The role of academic self-concept as a mediator. <i>International Journal of Psychology</i> , 2018, 53, 379-387.	1.7	23
13	Mimicking emotions: how 12-month-old infants use the facial expressions and eyes of a model. <i>Cognition and Emotion</i> , 2018, 32, 827-842.	1.2	20
14	Effects of maternal anxiety and depression on fetal neuro-development. <i>Journal of Affective Disorders</i> , 2018, 241, 469-474.	2.0	21
15	Effects of parental intervention on behavioural and psychological outcomes for Kurdish parents and their children. <i>Eastern Mediterranean Health Journal</i> , 2018, 24, 459-468.	0.3	4
16	Goal Directed Behaviours. , 2018, , 3-17.		4
17	The Human Fetus Preferentially Engages with Face-like Visual Stimuli. <i>Current Biology</i> , 2017, 27, 1825-1828.e3.	1.8	216
18	New Insights into Prenatal Stress: Immediate- and Long-Term Effects on the Fetus and Their Timing. , 2017, , 75-85.		1

#	ARTICLE	IF	CITATIONS
19	The Fetal Observable Movement System (FOMS). , 2016, , 153-176.		10
20	Emotional expressiveness of 5â€“6 month-old infants born very premature versus full-term at initial exposure to weaning foods. <i>Appetite</i> , 2016, 107, 494-500.	1.8	10
21	Do fetuses move their lips to the sound that they hear? An observational feasibility study on auditory stimulation in the womb. <i>Pilot and Feasibility Studies</i> , 2016, 2, 14.	0.5	7
22	The Effects of Parenting Styles on Behavioral Problems in Primary School Children: A Cross-Cultural Review. <i>Asian Social Science</i> , 2015, 11, .	0.1	14
23	A Q-methodology study of parental understandings of infant immunisation: Implications for health-care advice. <i>Journal of Health Psychology</i> , 2015, 20, 1451-1462.	1.3	8
24	The functional foetal brain: A systematic preview of methodological factors in reporting foetal visual and auditory capacity. <i>Developmental Cognitive Neuroscience</i> , 2015, 13, 43-52.	1.9	25
25	Parental reminder, recall and educational interventions to improve early childhood immunisation uptake: A systematic review and meta-analysis. <i>Vaccine</i> , 2015, 33, 2862-2880.	1.7	80
26	Ultrasound observations of subtle movements: a pilot study comparing fetuses of smoking and nonsmoking mothers. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2015, 104, 596-603.	0.7	24
27	Laterality of foetal self-touch in relation to maternal stress. <i>Laterality</i> , 2015, 20, 82-94.	0.5	30
28	The Potential Use of the Fetal Observable Movement System in Clinical Practice. <i>Donald School Journal of Ultrasound in Obstetrics and Gynecology</i> , 2015, 9, 426-433.	0.1	3
29	The development of anticipation in the fetus: A longitudinal account of human fetal mouth movements in reaction to and anticipation of touch. <i>Developmental Psychobiology</i> , 2014, 56, 955-963.	0.9	95
30	Development of prenatal lateralization: Evidence from fetal mouth movements. <i>Physiology and Behavior</i> , 2014, 131, 160-163.	1.0	13
31	What the Fetal Face can tell Us: A Discussion of the Evidence, Implications and Potential for Further Research. <i>Donald School Journal of Ultrasound in Obstetrics and Gynecology</i> , 2014, 8, 336-343.	0.1	4
32	Can Healthy Fetuses Show Facial Expressions of â€œPainâ€ or â€œDistressâ€?. <i>PLoS ONE</i> , 2013, 8, e65530.	1.1	85
33	Effects of maternal parity, depression and stress on two-month-old infant expression of pain. <i>Journal of Reproductive and Infant Psychology</i> , 2012, 30, 363-376.	0.9	1
34	Prenatal Mouth Movements: Can We Identify Co-Ordinated Fetal Mouth and LIP Actions Necessary for Feeding?. <i>International Journal of Pediatrics (United Kingdom)</i> , 2012, 2012, 1-5.	0.2	15
35	Development of Fetal Yawn Compared with Non-Yawn Mouth Openings from 24â€“36 Weeks Gestation. <i>PLoS ONE</i> , 2012, 7, e50569.	1.1	27
36	The development of complex fetal facial movements. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2012, 97, A20.3-A21.	1.4	0

#	ARTICLE	IF	CITATIONS
37	Do Facial Expressions Develop before Birth?. PLoS ONE, 2011, 6, e24081.	1.1	116
38	Inexpensive video cameras used by parents to record social communication in epidemiological investigations in early childhoodâ€”A feasibility study. , 2011, 34, 63-71.		6
39	The quality of fetal arm movements as indicators of fetal stress. Early Human Development, 2010, 86, 813-816.	0.8	9
40	Bi-directional effects of depressed mood in the postnatal period on motherâ€™ infant non-verbal engagement with picture books. , 2010, 33, 613-618.		5
41	Introduction: towards a fetal psychology. Infant and Child Development, 2010, 19, 1-5.	0.9	0
42	Maternal stress and depression and the lateralisation of infant cradling. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2009, 50, 263-269.	3.1	56
43	The Effect of Maternal Depressed Mood on Infant Emotional Reaction in a Surprise-Eliciting Situation. Infant Mental Health Journal, 2006, 27, 173-187.	0.7	7
44	Teasing play in infancy: Comparing mothers with and without self-reported depressed mood during play with their babies. European Journal of Developmental Psychology, 2005, 2, 271-283.	1.0	10
45	Maternal touch and maternal child-directed speech: effects of depressed mood in the postnatal period. Journal of Affective Disorders, 2004, 81, 29-39.	2.0	181
46	The pitch of maternal voice: a comparison of mothers suffering from depressed mood and non-depressed mothers reading books to their infants. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2003, 44, 255-261.	3.1	53
47	The melody of surprise: maternal surprise vocalizations during play with her infant. Infant and Child Development, 2002, 11, 271-278.	0.9	15
48	Gaze direction and maternal pitch in surprise-eliciting situations. , 2001, 24, 408-417.		8
49	The cradling bias in relation to pitch of maternal child-directed language. British Journal of Developmental Psychology, 2000, 18, 179-186.	0.9	28
50	Turn-taking in early vocal interaction: a comparison of premature and term infantsâ€™ vocal interaction with their mothers. Child: Care, Health and Development, 1999, 25, 447-456.	0.8	50
51	Maternal verbal interaction in different situations with infants born prematurely or at term. Infant and Child Development, 1999, 8, 39-48.	0.9	10
52	The pitch of â€œrealâ€ and â€œrhetoricalâ€ questions directed by a father to his daughter: A longitudinal case study. , 1998, 21, 793-798.		6
53	Context dependency in parental speech. British Journal of Developmental Psychology, 1998, 16, 365-373.	0.9	11
54	Maternal pitch height in ordinary and play situations. Journal of Child Language, 1996, 23, 269-278.	0.8	25

#	ARTICLE	IF	CITATIONS
55	The Socialisation of Pride in Young Children. International Journal of Behavioral Development, 1994, 17, 541-552.	1.3	8
56	Children's use of display rules in pride-eliciting situations. British Journal of Developmental Psychology, 1991, 9, 431-435.	0.9	20
57	Parental frameworks of pleasure and pride. , 1990, 13, 249-256.		9
58	Children in the Field: Anthropological Experiences.. Man; A Monthly Record of Anthropological Science, 1989, 24, 174.	0.3	7
59	Active patients: The integration of modern and traditional obstetric practices in Nepal. Social Science and Medicine, 1989, 29, 43-52.	1.8	11
60	The quality of a mother's milk and the health of her child: Beliefs and practices of the women of Mithila. Social Science and Medicine, 1988, 27, 461-469.	1.8	29
61	Neonatal imitation in the first hour of life: Observations in rural Nepal.. Developmental Psychology, 1988, 24, 464-469.	1.2	90
62	The role of massage in South Asia: Child health and development. Social Science and Medicine, 1987, 25, 231-239.	1.8	23
63	THE DEVELOPMENT OF CONCEPTS OF SIMULTANEITY IN CHILDREN'S UNDERSTANDING OF EMOTIONS. Journal of Child Psychology and Psychiatry and Allied Disciplines, 1985, 26, 811-824.	3.1	20
64	Cognitive maturity and the experience of fear and pain in hospital. Social Science and Medicine, 1983, 17, 1389-1395.	1.8	43
