citing authors

#	ARTICLE	IF	CITATIONS
1	Excess glucose induce trophoblast inflammation and limit cell migration through <sc>HMGB</sc>1 activation of Tollâ€Like receptor 4. American Journal of Reproductive Immunology, 2018, 80, e13044.	1.2	31
2	Low molecular weight heparin and aspirin exacerbate human endometrial endothelial cell responses to antiphospholipid antibodies. American Journal of Reproductive Immunology, 2018, 79, e12785.	1.2	17
3	Maternal Influenza A Virus Infection Restricts Fetal and Placental Growth and Adversely Affects the Fetal Thymic Transcriptome. Viruses, 2020, 12, 1003.	1.5	14
4	Herpesvirus-infected Hofbauer cells activate endothelial cells through an IL-1 <sup>Î</sup> -dependent mechanism. Placenta, 2020, 91, 59-65.	0.7	13
5	Antiphospholipid Antibodies Increase Endometrial Stromal Cell Decidualization, Senescence, and Inflammation via Tollâ€Like Receptor 4, Reactive Oxygen Species, and p38 <sc>MAPK</sc> Signaling. Arthritis and Rheumatology, 2022, 74, 1001-1012.	2.9	11
6	Modulation of trophoblast function by concurrent hyperglycemia and antiphospholipid antibodies is in part <sc>TLR</sc>4â€dependent. American Journal of Reproductive Immunology, 2018, 80, e13045.	1.2	7
7	Human fetal membrane IL-1 <sup>Î</sup> production in response to bacterial components is mediated by uric-acid induced NLRP3 inflammasome activation. Journal of Reproductive Immunology, 2022, 149, 103457.	0.8	7
8	Magnesium sulfate differentially modulates fetal membrane inflammation in a timeâ€dependent manner. American Journal of Reproductive Immunology, 2018, 80, e12861.	1.2	6
9	Viral infection dampens human fetal membrane type I interferon responses triggered by bacterial LPS. Journal of Reproductive Immunology, 2020, 140, 103126.	0.8	6
10	Polymicrobial stimulation of human fetal membranes induce neutrophil activation and neutrophil extracellular trap release. Journal of Reproductive Immunology, 2021, 145, 103306.	0.8	4
11	Antiphospholipid antibodyâ€induced trophoblast responses are differentially modulated by viral dsRNA and viral ssRNA. American Journal of Reproductive Immunology, 2022, 87, e13516.	1.2	1
