

An-bang Wen

List of Publications by Citations

Source: <https://exaly.com/author-pdf/9575489/an-bang-wen-publications-by-citations.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
8	Influencing factors of sediment deposition and their spatial variability in riparian zone of the Three Gorges Reservoir, China. <i>Journal of Mountain Science</i> , 2016 , 13, 1387-1396	2.1	13
7	Spatial distribution, sources and ecological risk assessment of heavy metals in Shenjia River watershed of the Three Gorges Reservoir Area. <i>Journal of Mountain Science</i> , 2017 , 14, 325-335	2.1	10
6	Changes in land use and agricultural production structure before and after the implementation of grain for green program in Western China Taking two typical counties as examples. <i>Journal of Mountain Science</i> , 2014 , 11, 526-534	2.1	10
5	Using ¹³⁷ Cs tracing methods to estimate soil redistribution rates and to construct a sediment budget for a small agricultural catchment in the three gorges reservoir region, China. <i>Journal of Mountain Science</i> , 2013 , 10, 428-436	2.1	7
4	Tempo-spatial variations of sediment-associated nutrients and contaminants in the Ruxi tributary of the Three Gorges Reservoir, China. <i>Journal of Mountain Science</i> , 2018 , 15, 319-326	2.1	5
3	Assessment of sediment yield in a small karst catchment by using ¹³⁷ Cs tracer technique. <i>International Journal of Sediment Research</i> , 2012 , 27, 547-554	3	5
2	Multifractal characteristics and spatial variability of soil particle-size distribution in different land use patterns in a small catchment of the Three Gorges Reservoir Region, China. <i>Journal of Mountain Science</i> , 2021 , 18, 111-125	2.1	3
1	The regional difference in engineering-control and tillage factors of Chinese Soil Loss Equation. <i>Journal of Mountain Science</i> , 2021 , 18, 658-670	2.1	1
