

# Muin J Khoury

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/9579174/muin-j-khoury-publications-by-year.pdf>

**Version:** 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

110  
papers

6,540  
citations

39  
h-index

79  
g-index

127  
ext. papers

7,758  
ext. citations

#	Paper	IF	Citations
110	COVID-19 GPH: tracking the contribution of genomics and precision health to the COVID-19 pandemic response.. <i>BMC Infectious Diseases</i> , <b>2022</b> , 22, 402	4	0
109	A scoping review of social and behavioral science research to translate genomic discoveries into population health impact. <i>Translational Behavioral Medicine</i> , <b>2021</b> , 11, 901-911	3.2	4
108	Challenges and Opportunities for Communication about the Role of Genomics in Public Health. <i>Public Health Genomics</i> , <b>2021</b> , 24, 67-74	1.9	0
107	From genes to public health: are we ready for DNA-based population screening?. <i>Genetics in Medicine</i> , <b>2021</b> , 23, 996-998	8.1	2
106	Redundant meta-analyses are common in genetic epidemiology. <i>Journal of Clinical Epidemiology</i> , <b>2020</b> , 127, 40-48	5.7	2
105	Precision Health Analytics With Predictive Analytics and Implementation Research: JACC State-of-the-Art Review. <i>Journal of the American College of Cardiology</i> , <b>2020</b> , 76, 306-320	15.1	7
104	The intersection of genomics and big data with public health: Opportunities for precision public health. <i>PLoS Medicine</i> , <b>2020</b> , 17, e1003373	11.6	9
103	DNA-Based Population Screening: Potential Suitability and Important Knowledge Gaps. <i>JAMA - Journal of the American Medical Association</i> , <b>2020</b> , 323, 307-308	27.4	14
102	Precision Public Health as a Key Tool in the COVID-19 Response. <i>JAMA - Journal of the American Medical Association</i> , <b>2020</b> , 324, 933-934	27.4	28
101	Communication About Hereditary Cancers on Social Media: A Content Analysis of Tweets About Hereditary Breast and Ovarian Cancer and Lynch Syndrome. <i>Journal of Cancer Education</i> , <b>2020</b> , 35, 131-137	11.8	4
100	Precision Medicine vs Preventive Medicine. <i>JAMA - Journal of the American Medical Association</i> , <b>2019</b> , 321, 406	27.4	4
99	Emerging Concepts in Precision Medicine and Cardiovascular Diseases in Racial and Ethnic Minority Populations. <i>Circulation Research</i> , <b>2019</b> , 125, 7-13	15.7	17
98	Family History-Wide Association Study to Identify Clinical and Environmental Risk Factors for Common Chronic Diseases. <i>American Journal of Epidemiology</i> , <b>2019</b> , 188, 1563-1568	3.8	4
97	Harnessing the Power of Collaboration and Training Within Clinical Data Science to Generate Real-World Evidence in the Era of Precision Oncology. <i>Clinical Pharmacology and Therapeutics</i> , <b>2019</b> , 106, 60-66	6.1	1
96	Leveraging Implementation Science to Address Health Disparities in Genomic Medicine: Examples from the Field. <i>Ethnicity and Disease</i> , <b>2019</b> , 29, 187-192	1.8	19
95	Evaluating the role of public health in implementation of genomics-related recommendations: a case study of hereditary cancers using the CDC Science Impact Framework. <i>Genetics in Medicine</i> , <b>2019</b> , 21, 28-37	8.1	18
94	Tracking human genes along the translational continuum. <i>Npj Genomic Medicine</i> , <b>2019</b> , 4, 25	6.2	0

93	Using deep learning to identify translational research in genomic medicine beyond bench to bedside. <i>Database: the Journal of Biological Databases and Curation</i> , <b>2019</b> , 2019,	5	2
92	HLBS-PopOmics: an online knowledge base to accelerate dissemination and implementation of research advances in population genomics to reduce the burden of heart, lung, blood, and sleep disorders. <i>Genetics in Medicine</i> , <b>2019</b> , 21, 519-524	8.1	4
91	Cancer communication research in the era of genomics and precision medicine: a scoping review. <i>Genetics in Medicine</i> , <b>2019</b> , 21, 1691-1698	8.1	17
90	Predictive Analytics: Helping Guide the Implementation Research Agenda at the National Heart, Lung, and Blood Institute. <i>Global Heart</i> , <b>2019</b> , 14, 75-79	2.9	3
89	Communication of cancer-related genetic and genomic information: A landscape analysis of reviews. <i>Translational Behavioral Medicine</i> , <b>2018</b> , 8, 59-70	3.2	24
88	Evidence-based medicine and big genomic data. <i>Human Molecular Genetics</i> , <b>2018</b> , 27, R2-R7	5.6	19
87	The contribution of family history to the burden of diagnosed diabetes, undiagnosed diabetes, and prediabetes in the United States: analysis of the National Health and Nutrition Examination Survey, 2009-2014. <i>Genetics in Medicine</i> , <b>2018</b> , 20, 1159-1166	8.1	11
86	Prevalence and Predictors of Cholesterol Screening, Awareness, and Statin Treatment Among US Adults With Familial Hypercholesterolemia or Other Forms of Severe Dyslipidemia (1999-2014). <i>Circulation</i> , <b>2018</b> , 137, 2218-2230	16.7	57
85	Trends in utilization and costs of BRCA testing among women aged 18-64 years in the United States, 2003-2014. <i>Genetics in Medicine</i> , <b>2018</b> , 20, 428-434	8.1	33
84	A collaborative translational research framework for evaluating and implementing the appropriate use of human genome sequencing to improve health. <i>PLoS Medicine</i> , <b>2018</b> , 15, e1002631	11.6	25
83	From public health genomics to precision public health: a 20-year journey. <i>Genetics in Medicine</i> , <b>2018</b> , 20, 574-582	8.1	71
82	A proposed approach to accelerate evidence generation for genomic-based technologies in the context of a learning health system. <i>Genetics in Medicine</i> , <b>2018</b> , 20, 390-396	8.1	12
81	Current Social Media Conversations about Genetics and Genomics in Health: A Twitter-Based Analysis. <i>Public Health Genomics</i> , <b>2018</b> , 21, 93-99	1.9	5
80	Evaluating Precision Medicine's Ability to Improve Population Health-Reply. <i>JAMA - Journal of the American Medical Association</i> , <b>2017</b> , 317, 441	27.4	1
79	Utilization of genetic tests: analysis of gene-specific billing in Medicare claims data. <i>Genetics in Medicine</i> , <b>2017</b> , 19, 890-899	8.1	23
78	The current state of implementation science in genomic medicine: opportunities for improvement. <i>Genetics in Medicine</i> , <b>2017</b> , 19, 858-863	8.1	71
77	Making genomic medicine evidence-based and patient-centered: a structured review and landscape analysis of comparative effectiveness research. <i>Genetics in Medicine</i> , <b>2017</b> , 19, 1081-1091	8.1	42
76	No Shortcuts on the Long Road to Evidence-Based Genomic Medicine. <i>JAMA - Journal of the American Medical Association</i> , <b>2017</b> , 318, 27-28	27.4	23

75	Cascade Screening for Familial Hypercholesterolemia and the Use of Genetic Testing. <i>JAMA - Journal of the American Medical Association</i> , <b>2017</b> , 318, 381-382	27.4	100
74	BRCA Genetic Testing and Receipt of Preventive Interventions Among Women Aged 18-64 Years with Employer-Sponsored Health Insurance in Nonmetropolitan and Metropolitan Areas - United States, 2009-2014. <i>MMWR Surveillance Summaries</i> , <b>2017</b> , 66, 1-11	54.1	25
73	Will Precision Medicine Improve Population Health?. <i>JAMA - Journal of the American Medical Association</i> , <b>2016</b> , 316, 1357-1358	27.4	115
72	Epidemiology matters: peering inside the "black box" in economic evaluations of genetic testing. <i>Genetics in Medicine</i> , <b>2016</b> , 18, 963-5	8.1	
71	A knowledge base for tracking the impact of genomics on population health. <i>Genetics in Medicine</i> , <b>2016</b> , 18, 1312-1314	8.1	14
70	Implementation of the 21-gene recurrence score test in the United States in 2011. <i>Genetics in Medicine</i> , <b>2016</b> , 18, 982-90	8.1	6
69	Clinical utility of genetic and genomic services: context matters. <i>Genetics in Medicine</i> , <b>2016</b> , 18, 672-4	8.1	13
68	Precision Public Health for the Era of Precision Medicine. <i>American Journal of Preventive Medicine</i> , <b>2016</b> , 50, 398-401	6.1	265
67	The need for a next-generation public health response to rare diseases. <i>Genetics in Medicine</i> , <b>2016</b> , 19, 489-490	8.1	15
66	Convergence of Implementation Science, Precision Medicine, and the Learning Health Care System: A New Model for Biomedical Research. <i>JAMA - Journal of the American Medical Association</i> , <b>2016</b> , 315, 1941-2	27.4	177
65	The Cancer Epidemiology Descriptive Cohort Database: A Tool to Support Population-Based Interdisciplinary Research. <i>Cancer Epidemiology Biomarkers and Prevention</i> , <b>2016</b> , 25, 1392-1401	4	0
64	Evolution of the "drivers" of translational cancer epidemiology: analysis of funded grants and the literature. <i>American Journal of Epidemiology</i> , <b>2015</b> , 181, 451-8	3.8	8
63	The authors reply. <i>American Journal of Epidemiology</i> , <b>2015</b> , 181, 361	3.8	
62	Charting a future for epidemiologic training. <i>Annals of Epidemiology</i> , <b>2015</b> , 25, 458-65	6.4	219
61	Evidence synthesis and guideline development in genomic medicine: current status and future prospects. <i>Genetics in Medicine</i> , <b>2015</b> , 17, 63-7	8.1	16
60	Genomics in Public Health: Perspective from the Office of Public Health Genomics at the Centers for Disease Control and Prevention (CDC). <i>Healthcare (Switzerland)</i> , <b>2015</b> , 3, 830-7	3.4	20
59	A public health perspective on a national precision medicine cohort: balancing long-term knowledge generation with early health benefit. <i>JAMA - Journal of the American Medical Association</i> , <b>2015</b> , 313, 2117-8	27.4	69
58	Opportunities for translational epidemiology: the important role of observational studies to advance precision oncology. <i>Cancer Epidemiology Biomarkers and Prevention</i> , <b>2015</b> , 24, 484-9	4	10

57	An overview of recommendations and translational milestones for genomic tests in cancer. <i>Genetics in Medicine</i> , <b>2015</b> , 17, 431-40	8.1	8
56	Increasing value and reducing waste in research design, conduct, and analysis. <i>Lancet, The</i> , <b>2014</b> , 383, 166-75	4.0	87.0
55	Scientific reporting is suboptimal for aspects that characterize genetic risk prediction studies: a review of published articles based on the Genetic Risk Prediction Studies statement. <i>Journal of Clinical Epidemiology</i> , <b>2014</b> , 67, 487-99	5.7	7
54	Utility before business. <i>Genetics in Medicine</i> , <b>2014</b> , 16, 869-70	8.1	3
53	Translational research is a key to nongeneticist physicians' genomics education. <i>Genetics in Medicine</i> , <b>2014</b> , 16, 871-3	8.1	26
52	Horizon scanning for translational genomic research beyond bench to bedside. <i>Genetics in Medicine</i> , <b>2014</b> , 16, 535-8	8.1	27
51	Cancer screening and genetics: a tale of two paradigms. <i>Cancer Epidemiology Biomarkers and Prevention</i> , <b>2014</b> , 23, 909-16	4	6
50	The Cancer Genomics and Epidemiology Navigator: An NCI online tool to enhance cancer epidemiology research. <i>Cancer Epidemiology Biomarkers and Prevention</i> , <b>2014</b> , 23, 2610-1	4	1
49	Medicine. Big data meets public health. <i>Science</i> , <b>2014</b> , 346, 1054-5	33.3	227
48	Assessing value in biomedical research: the PQRST of appraisal and reward. <i>JAMA - Journal of the American Medical Association</i> , <b>2014</b> , 312, 483-4	27.4	64
47	A systematic review of cancer GWAS and candidate gene meta-analyses reveals limited overlap but similar effect sizes. <i>European Journal of Human Genetics</i> , <b>2014</b> , 22, 402-8	5.3	46
46	2012 highlights in translational 'omics. <i>Genome Medicine</i> , <b>2013</b> , 5, 10	14.4	7
45	Are randomized trials obsolete or more important than ever in the genomic era?. <i>Genome Medicine</i> , <b>2013</b> , 5, 32	14.4	20
44	Utilization of epidermal growth factor receptor (EGFR) testing in the United States: a case study of T3 translational research. <i>Genetics in Medicine</i> , <b>2013</b> , 15, 630-8	8.1	24
43	Transforming epidemiology for 21st century medicine and public health. <i>Cancer Epidemiology Biomarkers and Prevention</i> , <b>2013</b> , 22, 508-16	4	83
42	"Drivers" of translational cancer epidemiology in the 21st century: needs and opportunities. <i>Cancer Epidemiology Biomarkers and Prevention</i> , <b>2013</b> , 22, 181-8	4	39
41	How can polygenic inheritance be used in population screening for common diseases?. <i>Genetics in Medicine</i> , <b>2013</b> , 15, 437-43	8.1	40
40	Current status of the implementation of gene expression testing in breast cancer management in the United States.. <i>Journal of Clinical Oncology</i> , <b>2013</b> , 31, 6562-6562	2.2	

39	A population approach to precision medicine. <i>American Journal of Preventive Medicine</i> , <b>2012</b> , 42, 639-45	6.1	100
38	Knowledge integration at the center of genomic medicine. <i>Genetics in Medicine</i> , <b>2012</b> , 14, 643-7	8.1	25
37	Frontiers in cancer epidemiology: a challenge to the research community from the Epidemiology and Genomics Research Program at the National Cancer Institute. <i>Cancer Epidemiology Biomarkers and Prevention</i> , <b>2012</b> , 21, 999-1001	4	9
36	Multilevel research and the challenges of implementing genomic medicine. <i>Journal of the National Cancer Institute Monographs</i> , <b>2012</b> , 2012, 112-20	4.8	34
35	Beyond base pairs to bedside: a population perspective on how genomics can improve health. <i>American Journal of Public Health</i> , <b>2012</b> , 102, 34-7	5.1	40
34	Why Hasn't Genomic Testing Changed the Landscape in Clinical Oncology?. <i>American Society of Clinical Oncology Educational Book / ASCO American Society of Clinical Oncology Meeting</i> , <b>2012</b> , e52-5	7.1	8
33	Improving validation practices in "omics" research. <i>Science</i> , <b>2011</b> , 334, 1230-2	33.3	164
32	Current priorities for public health practice in addressing the role of human genomics in improving population health. <i>American Journal of Preventive Medicine</i> , <b>2011</b> , 40, 486-93	6.1	60
31	Genetic epidemiology with a capital E, ten years after. <i>Genetic Epidemiology</i> , <b>2011</b> , 35, 845-52	2.6	16
30	Public health genomics: the end of the beginning. <i>Genetics in Medicine</i> , <b>2011</b> , 13, 206-9	8.1	15
29	Population sciences, translational research, and the opportunities and challenges for genomics to reduce the burden of cancer in the 21st century. <i>Cancer Epidemiology Biomarkers and Prevention</i> , <b>2011</b> , 20, 2105-14	4	41
28	Is there a need for PGxceptionalism?. <i>Genetics in Medicine</i> , <b>2011</b> , 13, 866-7	8.1	11
27	The emergence of translational epidemiology: from scientific discovery to population health impact. <i>American Journal of Epidemiology</i> , <b>2010</b> , 172, 517-24	3.8	177
26	Khoury et al. Respond to "The Epicenter of Translational Science" Crossing All the T's. <i>American Journal of Epidemiology</i> , <b>2010</b> , 172, 528-529	3.8	4
25	Family history and personal genomics as tools for improving health in an era of evidence-based medicine. <i>American Journal of Preventive Medicine</i> , <b>2010</b> , 39, 184-8	6.1	33
24	Evidence Dilemma: The Authors Respond <b>2009</b> , 28, 926-927		
23	The genomic applications in practice and prevention network. <i>Genetics in Medicine</i> , <b>2009</b> , 11, 488-94	8.1	51
22	Comparative effectiveness research and genomic medicine: an evolving partnership for 21st century medicine. <i>Genetics in Medicine</i> , <b>2009</b> , 11, 707-11	8.1	45

21	The Scientific Foundation for personal genomics: recommendations from a National Institutes of Health-Centers for Disease Control and Prevention multidisciplinary workshop. <i>Genetics in Medicine</i> , <b>2009</b> , 11, 559-67	8.1	186
20	Invited commentary: from genome-wide association studies to gene-environment-wide interaction studies--challenges and opportunities. <i>American Journal of Epidemiology</i> , <b>2009</b> , 169, 227-30; discussion 234-5	3.8	115
19	A navigator for human genome epidemiology. <i>Nature Genetics</i> , <b>2008</b> , 40, 124-5	36.3	324
18	GAPscreener: an automatic tool for screening human genetic association literature in PubMed using the support vector machine technique. <i>BMC Bioinformatics</i> , <b>2008</b> , 9, 205	3.6	35
17	Public health genomics approach to type 2 diabetes. <i>Diabetes</i> , <b>2008</b> , 57, 2911-4	0.9	20
16	The evidence dilemma in genomic medicine. <i>Health Affairs</i> , <b>2008</b> , 27, 1600-11	7	90
15	The continuum of translation research in genomic medicine: how can we accelerate the appropriate integration of human genome discoveries into health care and disease prevention?. <i>Genetics in Medicine</i> , <b>2007</b> , 9, 665-74	8.1	526
14	Why should genomic medicine become more evidence-based?. <i>Genomic Medicine</i> , <b>2007</b> , 1, 91-3		8
13	On the synthesis and interpretation of consistent but weak gene-disease associations in the era of genome-wide association studies. <i>International Journal of Epidemiology</i> , <b>2007</b> , 36, 439-45	7.8	94
12	Will genomics widen or help heal the schism between medicine and public health?. <i>American Journal of Preventive Medicine</i> , <b>2007</b> , 33, 310-7	6.1	54
11	From public health emergency to public health service: the implications of evolving criteria for newborn screening panels. <i>Pediatrics</i> , <b>2006</b> , 117, 923-9	7.4	102
10	The integration of genomics into paediatric and perinatal epidemiology: guidelines for submitting human genome epidemiology (HuGE) reviews. <i>Paediatric and Perinatal Epidemiology</i> , <b>2005</b> , 19, 178-80	2.7	
9	Do we need genomic research for the prevention of common diseases with environmental causes?. <i>American Journal of Epidemiology</i> , <b>2005</b> , 161, 799-805	3.8	118
8	The emergence of epidemiology in the genomics age. <i>International Journal of Epidemiology</i> , <b>2004</b> , 33, 936-44	7.8	64
7	Commentary: epidemiology and the continuum from genetic research to genetic testing. <i>American Journal of Epidemiology</i> , <b>2002</b> , 156, 297-9	3.8	10
6	Guidelines for submitting human genome epidemiology (HuGE) reviews to Teratology. <i>Teratology</i> , <b>2001</b> , 63, 62-64		1
5	Comparative epidemiology of selected midline congenital abnormalities. <i>Genetic Epidemiology</i> , <b>1994</b> , 11, 141-54	2.6	27
4	Descriptive epidemiology of small intestinal atresia, Atlanta, Georgia. <i>Teratology</i> , <b>1993</b> , 48, 441-50		56

3	Predicting intrauterine growth retardation in sibships while considering maternal and infant covariates. <i>Genetic Epidemiology</i> , <b>1989</b> , 6, 525-35	2.6	5
2	A New Resource for Genomics and Precision Health Information and Publications on the Investigation and Control of COVID-19 and other Coronaviruses		1
1	A Proposed Approach for Implementing Genomics-Based Screening Programs for Healthy Adults. <i>NAM Perspectives</i> ,	2.8	19
