#	ARTICLE	IF	CITATIONS
1	Completeness and timeliness of vaccination and determinants for low and late uptake among young children in eastern China. <i>Human Vaccines and Immunotherapeutics</i> , 2014, 10, 1408-1415.	3.3	69
2	Determinants of Childhood Immunization Uptake among Socio-Economically Disadvantaged Migrants in East China. <i>International Journal of Environmental Research and Public Health</i> , 2013, 10, 2845-2856.	2.6	52
3	Seasonal Influenza Vaccine Acceptance among Pregnant Women in Zhejiang Province, China: Evidence Based on Health Belief Model. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 1551.	2.6	40
4	Timeliness Vaccination of Measles Containing Vaccine and Barriers to Vaccination among Migrant Children in East China. <i>PLoS ONE</i> , 2013, 8, e73264.	2.5	40
5	Using the Immunization Information System to Determine Vaccination Coverage Rates among Children Aged 1-7 Years: A Report from Zhejiang Province, China. <i>International Journal of Environmental Research and Public Health</i> , 2014, 11, 2713-2728.	2.6	37
6	Comparative assessment of immunization coverage of migrant children between national immunization program vaccines and non-national immunization program vaccines in East China. <i>Human Vaccines and Immunotherapeutics</i> , 2015, 11, 761-768.	3.3	32
7	Surveillance for Adverse Events following Immunization from 2008 to 2011 in Zhejiang Province, China. <i>Vaccine Journal</i> , 2013, 20, 211-217.	3.1	31
8	Evaluating Childhood Vaccination Coverage of NIP Vaccines: Coverage Survey versus Zhejiang Provincial Immunization Information System. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 758.	2.6	28
9	Prenatal vaccination education intervention improves both the mothers' knowledge and children's vaccination coverage: Evidence from randomized controlled trial from eastern China. <i>Human Vaccines and Immunotherapeutics</i> , 2017, 13, 1477-1484.	3.3	27
10	Timeliness of Childhood Primary Immunization and Risk Factors Related with Delays: Evidence from the 2014 Zhejiang Provincial Vaccination Coverage Survey. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 1086.	2.6	27
11	Immunization Coverage and Its Determinants Among Children Born in 2008-2009 by Questionnaire Survey in Zhejiang, China. <i>Asia-Pacific Journal of Public Health</i> , 2015, 27, NP1132-NP1143.	1.0	24
12	Does introducing an immunization package of services for migrant children improve the coverage, service quality and understanding? An evidence from an intervention study among 1548 migrant children in eastern China. <i>BMC Public Health</i> , 2015, 15, 664.	2.9	22
13	Measles vaccination coverage, determinants of delayed vaccination and reasons for non-vaccination among children aged 24-35 months in Zhejiang province, China. <i>BMC Public Health</i> , 2018, 18, 1298.	2.9	20
14	An Evaluation of Voluntary Varicella Vaccination Coverage in Zhejiang Province, East China. <i>International Journal of Environmental Research and Public Health</i> , 2016, 13, 560.	2.6	17
15	Hepatitis B Vaccination among 1999-2017 Birth Cohorts in Zhejiang Province: The Determinants Associated with Infant Coverage. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 2915.	2.6	17
16	Determinants of inequality in the up-to-date fully immunization coverage among children aged 24-35 months: Evidence from Zhejiang province, East China. <i>Human Vaccines and Immunotherapeutics</i> , 2017, 13, 1902-1907.	3.3	14
17	Reliability and validity of a survey to identify vaccine hesitancy among parents in Changxing county, Zhejiang province. <i>Human Vaccines and Immunotherapeutics</i> , 2019, 15, 1092-1099.	3.3	14
18	Evaluation of two health education interventions to improve the varicella vaccination: a randomized controlled trial from a province in the east China. <i>BMC Public Health</i> , 2018, 18, 144.	2.9	13

#	ARTICLE	IF	CITATIONS
19	Measuring childhood vaccination acceptance of mother in Zhejiang province, East China. <i>Human Vaccines and Immunotherapeutics</i> , 2019, 15, 287-294.	3.3	13
20	Validity of Maternal Recall to Assess Vaccination Coverage: Evidence from Six Districts in Zhejiang Province, China. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 957.	2.6	12
21	Public Health Workers and Vaccination Coverage in Eastern China: A Health Economic Analysis. <i>International Journal of Environmental Research and Public Health</i> , 2014, 11, 5555-5566.	2.6	10
22	Does An Education Seminar Intervention Improve the Parentsâ€™ Knowledge on Vaccination? Evidence from Yiwu, East China. <i>International Journal of Environmental Research and Public Health</i> , 2015, 12, 3469-3479.	2.6	10
23	Can vaccination coverage be improved through reducing the missed opportunities for immunization? Results from the evaluation in Zhejiang province, east China. <i>Human Vaccines and Immunotherapeutics</i> , 2021, 17, 1483-1489.	3.3	10
24	Inequities in Childhood Vaccination Coverage in Zhejiang, Province: Evidence from a Decomposition Analysis on Two-Round Surveys. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 2000.	2.6	9
25	Knowledge, Attitude and Practice of Pregnant Women towards Varicella and Their Childrenâ€™s Varicella Vaccination: Evidence from Three Districts in Zhejiang Province, China. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 1110.	2.6	8
26	Evaluation of potentially achievable vaccination coverage of the second dose of measles containing vaccine with simultaneous administration and risk factors for missed opportunities among children in Zhejiang province, east China. <i>Human Vaccines and Immunotherapeutics</i> , 2018, 14, 875-880.	3.3	8
27	An Overview of Coverage of BCG Vaccination and Its Determinants Based on Data from the Coverage Survey in Zhejiang Province. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 1155.	2.6	8
28	Routine vaccination coverage of children aged 1-7 years in Zhejiang province, China. <i>Human Vaccines and Immunotherapeutics</i> , 2018, 14, 2876-2883.	3.3	8
29	Two-dose seasonal influenza vaccine coverage and timeliness among children aged 6 months through 3 years: An evidence from the 2010-11 to the 2014-15 seasons in Zhejiang province, east China. <i>Human Vaccines and Immunotherapeutics</i> , 2017, 13, 75-80.	3.3	7
30	Analyzing the Urban-Rural Vaccination Coverage Disparity through a Fair Decomposition in Zhejiang Province, China. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 4575.	2.6	6
31	The trends of socioeconomic inequities in full vaccination coverage among children aged 12-23 months from 2000 to 2017: evidence for mitigating disparities in vaccination service in Zhejiang province. <i>Human Vaccines and Immunotherapeutics</i> , 2021, 17, 810-817.	3.3	6
32	Age-appropriate vaccination coverage and its determinants for the polio containing vaccine 1-3 and measles-containing vaccine doses in Zhejiang province, China: A community-based cross-sectional study. <i>Human Vaccines and Immunotherapeutics</i> , 2020, 16, 2257-2264.	3.3	4
33	Surveillance on the adverse events following immunization with the pentavalent vaccine in Zhejiang, China. <i>Human Vaccines and Immunotherapeutics</i> , 2022, , 1-7.	3.3	4
34	The association between the density of vaccination workers and immunization coverage in Zhejiang province, East China. <i>Human Vaccines and Immunotherapeutics</i> , 2021, 17, 2319-2325.	3.3	3
35	Analysis of adverse events following immunization in Zhejiang, China, 2019: a retrospective cross-sectional study based on the passive surveillance system. <i>Human Vaccines and Immunotherapeutics</i> , 2021, 17, 3823-3830.	3.3	3
36	A Comparison with Adverse Events Following Immunization Associated with Sabin-Strains and Salk-Strains Inactivated Polio Vaccines in Zhejiang Province, China. <i>Vaccines</i> , 2022, 10, 319.	4.4	3

#	ARTICLE	IF	CITATIONS
37	Auditing the Immunization Data Quality from Routine Reports in Shangyu District, East China. International Journal of Environmental Research and Public Health, 2016, 13, 1158.	2.6	2
38	Analysis of the effects of individual- and community- level predictors on migrant children's primary immunization in Yiwu city, east China. Human Vaccines and Immunotherapeutics, 2018, 14, 2239-2247.	3.3	2
39	Analysis of the adverse events following immunization with inactivated quadrivalent influenza vaccine from 2018 to 2020 in Zhejiang province, with a comparison to trivalent influenza vaccine. Human Vaccines and Immunotherapeutics, 2021, 17, 4617-4622.	3.3	2
40	Post-licensure safety monitoring of quadrivalent human papillomavirus vaccine using the national adverse event following immunization surveillance system from Zhejiang province, 2018-2020. Human Vaccines and Immunotherapeutics, 2024, 17, 5447-5453.	3.3	2
41	Initiation and completion rates of inactivated hepatitis A vaccination among children born between 2005 and 2014 in Zhejiang province, east China. Human Vaccines and Immunotherapeutics, 2018, 14, 1013-1017.	3.3	1
42	Evaluating the vaccination coverage: validity of household household vaccination booklet and caregiver's recall. Human Vaccines and Immunotherapeutics, 2021, 17, 3034-3041.	3.3	1
43	Surveillance of adverse events following immunization of 13-valent pneumococcal conjugate vaccine among infants, in Zhejiang province, China. Human Vaccines and Immunotherapeutics, 2022, 18, 1-7.	3.3	1
