Neil F Gordon

List of Publications by Year in Descending Order

60 papers	3,991 citations	22 h-index	63 g-index
68 ext. papers	4,527 ext. citations	4.3 avg, IF	4.35 L-index

#	Paper	IF	Citations
60	Digital Health Interventions for Cardiac Rehabilitation: Systematic Literature Review. *Journal of Medical Internet Research*, **2021**, 23, e18773	7.6	13
59	Rationale and design of a smartphone-enabled, home-based exercise program in patients with symptomatic peripheral arterial disease: The smart step randomized trial. *Clinical Cardiology*, **2020**, 43, 537-545	3.3	2
58	Using Digital Health Technology to Promote Cardiovascular Disease Risk Reduction in Secondary Prevention **2019**, 741-750		1
57	A Clinician's Guide for Trending Cardiovascular Nutrition Controversies: Part II. *Journal of the American College of Cardiology*, **2018**, 72, 553-568	15.1	68
56	Using Metabolic Equivalents in Clinical Practice. *American Journal of Cardiology*, **2018**, 121, 382-387	3	22
55	Clinical Effectiveness of Lifestyle Health Coaching: Case Study of an Evidence-Based Program. *American Journal of Lifestyle Medicine*, **2017**, 11, 153-166	1.9	12
54	Multicenter Study of Temporal Trends in the Achievement of Atherosclerotic Cardiovascular Disease Risk Factor Goals During Cardiac Rehabilitation. *Journal of Cardiopulmonary Rehabilitation and Prevention*, **2017**, 37, 11-21	3.6	3
53	Physical activity in the prevention of coronary heart disease: implications for the clinician. *Heart*, **2016**, 102, 904-9	5.1	49
52	Cardiac rehabilitation and risk reduction: time to "rebrand and reinvigorate". *Journal of the American College of Cardiology*, **2015**, 65, 389-395	15.1	122
51	Effect of exercise-based cardiac rehabilitation on multiple atherosclerotic risk factors in patients taking antidepressant medication. *American Journal of Cardiology*, **2013**, 111, 346-51	3	4
50	Clinical effectiveness of lifestyle management programs: importance of the class effect paradox. *Current Treatment Options in Cardiovascular Medicine*, **2013**, 15, 675-80	2.1	2
49	Referral, enrollment, and delivery of cardiac rehabilitation/secondary prevention programs at clinical centers and beyond: a presidential advisory from the American Heart Association. *Circulation*, **2011**, 124, 2951-60	16.7	364
48	Effect of Lifestyle Health Coaching on Multiple Cardiovascular Disease Risk Factors: Comparison with Cardiac Rehabilitation. *Medicine and Science in Sports and Exercise*, **2010**, 42, 653-654	1.2	1
47	Effect of Lifestyle Health Coaching on the Prevalence of Metabolic Syndrome and its Component Risk Factors. *Medicine and Science in Sports and Exercise*, **2010**, 42, 652	1.2	1
46	A PREVIEW OF ACSM'S GUIDELINES FOR EXERCISE TESTING AND PRESCRIPTION, EIGHTH EDITION. *ACSM's Health and Fitness Journal*, **2009**, 13, 23-26	0.9	8
45	Influence of socioeconomic status on lifestyle behavior modifications among survivors of acute myocardial infarction. *American Journal of Cardiology*, **2008**, 102, 1583-8	3	40
44	Effect of comprehensive therapeutic lifestyle changes on prehypertension. *American Journal of Cardiology*, **2008**, 102, 1677-80	3	22

43	Exercise and acute cardiovascular events placing the risks into perspective: a scientific statement from the American Heart Association Council on Nutrition, Physical Activity, and Metabolism and the Council on Clinical Cardiology. *Circulation*, **2007**, 115, 2358-68	16.7	640
42	Medical director responsibilities for outpatient cardiac rehabilitation/secondary prevention programs. A statement for healthcare professionals from the American Association for Cardiovascular and Pulmonary Rehabilitation and the American Heart Association. *Journal of Cardiopulmonary Rehabilitation and Prevention*, **2005**, 25, 315-20		5
41	Effect of rosuvastatin on C-reactive protein and renal function in patients with chronic kidney disease. *American Journal of Cardiology*, **2005**, 96, 1290-2	3	55
40	Medical director responsibilities for outpatient cardiac rehabilitation/secondary prevention programs: a scientific statement from the American Heart Association/American Association for Cardiovascular and Pulmonary Rehabilitation. *Circulation*, **2005**, 112, 3354-60	16.7	32
39	Physical activity and exercise recommendations for stroke survivors: an American Heart Association scientific statement from the Council on Clinical Cardiology, Subcommittee on Exercise, Cardiac Rehabilitation, and Prevention; the Council on Cardiovascular Nursing; the Council on Nutrition, Physical Activity, and Metabolism; and the Stroke Council. *Circulation*, **2004**, 109, 2031-41	16.7	284
38	Physical activity and exercise recommendations for stroke survivors: an American Heart Association scientific statement from the Council on Clinical Cardiology, Subcommittee on Exercise, Cardiac Rehabilitation, and Prevention; the Council on Cardiovascular Nursing; the Council on Nutrition, Physical Activity, and Metabolism; and the Stroke Council. *Stroke*, **2004**, 35, 1230-40	6.7	239
37	Effectiveness of therapeutic lifestyle changes in patients with hypertension, hyperlipidemia, and/or hyperglycemia. *American Journal of Cardiology*, **2004**, 94, 1558-61	3	35
36	New methods of delivering secondary preventive services: the promise of the Internet. *Journal of Cardiopulmonary Rehabilitation and Prevention*, **2003**, 23, 349-51		4
35	Exercise and physical activity in the prevention and treatment of atherosclerotic cardiovascular disease: a statement from the Council on Clinical Cardiology (Subcommittee on Exercise, Rehabilitation, and Prevention) and the Council on Nutrition, Physical Activity, and Metabolism (Subcommittee on Physical Activity). *Circulation*, **2003**, 107, 3109-16	16.7	1372
34	Effectiveness of three models for comprehensive cardiovascular disease risk reduction. *American Journal of Cardiology*, **2002**, 89, 1263-8	3	66
33	Innovative approaches to comprehensive cardiovascular disease risk reduction in clinical and community-based settings. *Current Atherosclerosis Reports*, **2001**, 3, 498-506	6	26
32	Combined Training Improves CHF Functional Capacity and Strength. *Physician and Sportsmedicine*, **2001**, 29, 18-18	2.4	
31	Relations of sit-up and sit-and-reach tests to low back pain in adults. *Journal of Orthopaedic and Sports Physical Therapy*, **1998**, 27, 22-6	4.2	31
30	Comprehensive cardiovascular disease risk reduction in the clinical setting. *Coronary Artery Disease*, **1998**, 9, 731-5	1.4	4
29	Dental and gingival pain as side effects of niacin therapy. *Chest*, **1998**, 114, 1472-4	5.3	4
28	Cardiovascular evaluation of the athlete. Issues regarding performance, screening and sudden cardiac death. *Sports Medicine*, **1997**, 24, 97-119	10.6	25
27	Comparison of single versus multiple lifestyle interventions: are the antihypertensive effects of exercise training and diet-induced weight loss additive?. *American Journal of Cardiology*, **1997**, 79, 763-7	3	70
26	Effects of atenolol versus enalapril on cardiovascular fitness and serum lipids in physically active hypertensive men. *American Journal of Cardiology*, **1997**, 79, 1065-9	3	11

25	Comprehensive cardiovascular disease risk reduction in a cardiac rehabilitation setting. *American Journal of Cardiology*, **1997**, 80, 69H-73H	3	29
24	Exercise intensity prescription in cardiovascular disease. Theoretical basis for anaerobic threshold determination. *Journal of Cardiopulmonary Rehabilitation and Prevention*, **1995**, 15, 193-6		20
23	Cardiovascular safety of maximal strength testing in healthy adults. *American Journal of Cardiology*, **1995**, 76, 851-3	3	60
22	Core Competencies for Cardiac Rehabilitation Professionals. *Journal of Cardiopulmonary Rehabilitation and Prevention*, **1994**, 14, 87-92		11
21	Exercise Testing and Sudden Cardiac Death. *Journal of Cardiopulmonary Rehabilitation and Prevention*, **1993**, 13, 381-386		10
20	Life Style Exercise. *Journal of Cardiopulmonary Rehabilitation and Prevention*, **1993**, 13, 161-163		17
19	Musculoskeletal strength and serum lipid levels in men and women. *Medicine and Science in Sports and Exercise*, **1992**, 24, 1080???1087	1.2	27
18	Effect of macronutrient composition of an energy-restrictive diet on maximal physical performance. *Medicine and Science in Sports and Exercise*, **1992**, 24, 814???818	1.2	3
17	Reassessment of the guidelines for exercise testing. What alterations to current recommendations are required?. *Sports Medicine*, **1992**, 13, 293-302	10.6	4
16	Effect of beta-blockers on exercise physiology. *Medicine and Science in Sports and Exercise*, **1991**, 23, 668???676	1.2	21
15	Exercise Testing Update. *Physician and Sportsmedicine*, **1991**, 19, 111-20	2.4	1
14	Exercise and Mild Essential Hypertension. *Primary Care - Clinics in Office Practice*, **1991**, 18, 683-694	2.2	9
13	An empirical evaluation of the ACSM Guidelines for Exercise Testing. *Medicine and Science in Sports and Exercise*, **1990**, 22, 533???539	1.2	9
12	Exercise and mild essential hypertension. Recommendations for adults. *Sports Medicine*, **1990**, 10, 390-404	10.6	36
11	Effect of Intrinsic Sympathomimetic Activity on Serum Lipids During Exercise Training in Hypertensive Patients Receiving Chronic Blocker Therapy. *Journal of Cardiopulmonary Rehabilitation and Prevention*, **1989**, 9, 110-114		3
10	Effect of Rest Interval Duration on Cardiorespiratory Responses to Hydraulic Resistance Circuit Training. *Journal of Cardiopulmonary Rehabilitation and Prevention*, **1989**, 9, 325-330		5
9	Effect of opioid antagonism on esophageal temperature during exercise. *Medicine and Science in Sports and Exercise*, **1988**, 20, 381-4	1.2	4
8	Comparison Of Captopril And Conventional Step I Antihypertensive Therapy. *Journal of Cardiopulmonary Rehabilitation and Prevention*, **1988**, 8, 108-115		4

7	Effect of dual ??-blockade and calcium antagonism on endurance performance. *Medicine and Science in Sports and Exercise*, **1987**, 19, 1???6	1.2	4
6	The role of endogenous opioids in thermoregulation during sub-maximal exercise. *Medicine and Science in Sports and Exercise*, **1987**, 19, 575???578	1.2	3
5	Comparison of diltiazem and atenolol in young, physically active men with essential hypertension. *American Journal of Cardiology*, **1987**, 60, 1092-5	3	12
4	Effect of selective and nonselective beta-adrenoceptor blockade on thermoregulation during prolonged exercise in heat. *American Journal of Cardiology*, **1985**, 55, 74D-78D	3	12
3	Improved exercise ventilatory responses after training in coronary heart disease during long-term beta-adrenergic blockade. *American Journal of Cardiology*, **1983**, 51, 755-8	3	11
2	Comparative Effectiveness of Lifestyle Intervention on Fasting Plasma Glucose in Normal Weight Versus Overweight and Obese Adults With Prediabetes. *American Journal of Lifestyle Medicine*,155982762110190	1.9	
1	Cardio-Respiratory Fitness and Cardiovascular Disease Risk Factors Among South African Medical Students. *American Journal of Lifestyle Medicine*,155982762210898	1.9
