citing authors

#	ARTICLE	IF	CITATIONS
1	Pragmatic Perspective on Conservation Genetics and Demographic History of the Last Surviving Population of Kashmir Red Deer ( <i>Cervus elaphus hanglu</i> ) in India. PLoS ONE, 2015, 10, e0117069.	2.5	26
2	Illegal trade of Indian Pangolin ( <i>Manis crassicaudata</i> ): Genetic study from scales based on mitochondrial genes. Egyptian Journal of Forensic Sciences, 2016, 6, 524-533.	1.0	20
3	Wildlife DNA Forensic in Curbing Illegal Wildlife Trade: Species Identification from Seizures. International Journal of Forensic Science & Pathology, 0, , 38-42.	0.0	16
4	DNA Forensics in Combating Food Frauds:A Study from China in Identifying Canned Meat Labelled as Deer Origin. Current Science, 2017, 112, 2449.	0.8	14
5	Pioneer identification of fake tiger claws using morphometric and DNA-based analysis in wildlife forensics in India. Forensic Science International, 2016, 266, 226-233.	2.2	13
6	Forensically informative nucleotide sequencing (FINS) for the first time authentication of Indian Varanus species: implication in wildlife forensics and conservation. Mitochondrial DNA Part A: DNA Mapping, Sequencing, and Analysis, 2017, 28, 892-900.	0.7	12
7	Genetic diversity of the Tibetan antelope ( <i>Pantholops hodgsonii</i> ) population of Ladakh, India, its relationship with other populations and conservation implications. BMC Research Notes, 2016, 9, 477.	1.4	9
8	DNA barcoding as a tool for robust identification of cervids of India and its utility in wildlife forensics. Mitochondrial DNA Part B: Resources, 2018, 3, 250-255.	0.4	8
9	Species dilemma of musk deer ( <i>Moschus</i> spp) in India: molecular data on cytochrome c oxidase I suggests distinct genetic lineage in Uttarakhand compared to other <i>Moschus</i> species. Animal Biotechnology, 2019, 30, 193-201.	1.5	8
10	Wildlife forensics in battle against veneration frauds in Uttarakhand, India: identification of protected Indian monitor lizard in items available in the local market under the name of Hatha Jodi. Mitochondrial DNA Part B: Resources, 2018, 3, 925-932.	0.4	7
11	Phylogenetic relationship and molecular dating of Indian pangolin ( <i>Manis crassicaudata</i> ) with other extant pangolin species based on complete cytochrome b mitochondrial gene. Mitochondrial DNA Part A: DNA Mapping, Sequencing, and Analysis, 2018, 29, 1276-1283.	0.7	6
12	The preliminary molecular study of four skink species in Rajaji Tiger Reserve (RTR), Uttarakhand, using 12S rRNA mitochondrial locus. Mitochondrial DNA Part B: Resources, 2017, 2, 495-499.	0.4	3
13	Inferring the molecular affinity of Indian pangolin with extant Manidae species based on mitochondrial genes: a wildlife forensic perspective. Mitochondrial DNA Part B: Resources, 2018, 3, 640-644.	0.4	3
14	Investigating the genetic diversity and presence of forensically informative nucleotide sequences in Indian antelope ( <i>Antelope cervicapra</i> ) using multiple genes of the mitochondrial genome. Molecular Biology Reports, 2019, 46, 6187-6195.	2.3	3
15	National bird, Indian peafowl ( <i>Pavo cristatus</i> ): Using DNA technology for species identification from degraded sample from Uttarakhand, India. Forensic Science International Animals and Environments, 2021, 1, 100004.	0.8	2
16	Araniella cucurbitina: the first molecular evidence of a Palearctic species of genus Araniella inhabiting India. Mitochondrial DNA Part A: DNA Mapping, Sequencing, and Analysis, 2018, 29, 831-839.	0.7	1
17	Molecular study of globally threatened turtle species (families Trionychidae and Geoemydidae) of Uttarakhand and their relationship with other Indian populations: A wildlife forensic and conservation genetic approach. Forensic Science International: Reports, 2019, 1, 100039.	0.8	1
18	Peril for pangolins: An evaluation of the status of the last decade in India. Forensic Science International: Reports, 2020, 2, 100058.	0.8	1

#	ARTICLE	IF	CITATIONS
19	Genetic characterization of wild swamp deer populations: <i>ex situ</i> conservation and forensics implications. Mitochondrial DNA Part A: DNA Mapping, Sequencing, and Analysis, 2017, 28, 965-970.	0.7	0
20	Forensic investigation of a hunting incident of Indian porcupine ( <i>Hystrix indica</i> ) in Uttarakhand: A study to help rein in biodiversity loss. Forensic Science International Animals and Environments, 2021, 1, 100002.	0.8	0
