

Rainu Kaushal

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/9640700/rainu-kaushal-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
125	Using Mobile Integrated Health and telehealth to support transitions of care among patients with heart failure (MIGHTy-Heart): protocol for a pragmatic randomised controlled trial.. <i>BMJ Open</i> , 2022 , 12, e054956	3	3
124	Impact of the Early Phase of the COVID-19 Pandemic on US Healthcare Workers: Results from the HERO Registry. <i>Journal of General Internal Medicine</i> , 2021 , 36, 1319-1326	4	17
123	Neighborhood-level Social Determinants of Health Improve Prediction of Preventable Hospitalization and Emergency Department Visits Beyond Claims History. <i>Population Health Management</i> , 2021 , 24, 701-709	1.8	
122	Comparative Effectiveness of Aspirin Dosing in Cardiovascular Disease. <i>New England Journal of Medicine</i> , 2021 , 384, 1981-1990	59.2	37
121	A predictive model of clinical deterioration among hospitalized COVID-19 patients by harnessing hospital course trajectories. <i>Journal of Biomedical Informatics</i> , 2021 , 118, 103794	10.2	3
120	Socioeconomic variation in characteristics, outcomes, and healthcare utilization of COVID-19 patients in New York City. <i>PLoS ONE</i> , 2021 , 16, e0255171	3.7	7
119	Clinical subphenotypes in COVID-19: derivation, validation, prediction, temporal patterns, and interaction with social determinants of health. <i>Npj Digital Medicine</i> , 2021 , 4, 110	15.7	5
118	"How did you get to this number?" Stakeholder needs for implementing predictive analytics: a pre-implementation qualitative study. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2020 , 27, 709-716	8.6	12
117	Potentially Preventable Spending Among High-Cost Medicare Patients: Implications for Healthcare Delivery. <i>Journal of General Internal Medicine</i> , 2020 , 35, 2845-2852	4	4
116	Developing an actionable patient taxonomy to understand and characterize high-cost Medicare patients. <i>Healthcare</i> , 2020 , 8, 100406	1.8	8
115	Drivers of preventable high health care utilization: a qualitative study of patient, physician and health system leader perspectives. <i>Journal of Health Services Research and Policy</i> , 2020 , 25, 220-228	2.4	2
114	Should Health Care Demand Interpretable Artificial Intelligence or Accept "Black Box" Medicine?. <i>Annals of Internal Medicine</i> , 2020 , 172, 59-60	8	66
113	Identifying Patients with Persistent Preventable Utilization Offers an Opportunity to Reduce Unnecessary Spending. <i>Journal of General Internal Medicine</i> , 2020 , 35, 3534-3541	4	1
112	Association Between Residential Neighborhood Social Conditions and Health Care Utilization and Costs. <i>Medical Care</i> , 2020 , 58, 586-593	3.1	14
111	COVID-19 Viral and Serology Testing in New York City Health Care Workers. <i>American Journal of Clinical Pathology</i> , 2020 , 154, 592-595	1.9	7
110	Routine Laboratory Blood Tests Predict SARS-CoV-2 Infection Using Machine Learning. <i>Clinical Chemistry</i> , 2020 , 66, 1396-1404	5.5	44
109	Reopening US Schools in the Era of COVID-19: Practical Guidance From Other Nations. <i>JAMA Health Forum</i> , 2020 , 1, e200789	2	3

108	A Method for Integrating Healthcare Provider Organization and Research Sponsor Systems and Workflows to Support Large-Scale Studies. <i>AMIA Summits on Translational Science Proceedings</i> , 2019 , 2019, 648-655	1.1	1
107	Implementation of Informatics to Support the NIH Research Program in a Healthcare Provider Organization. <i>AMIA Summits on Translational Science Proceedings</i> , 2019 , 2019, 602-609	1.1	2
106	Use of Advance Directives among Older U.S. Adults by Dementia Status: 2012-2016. <i>Journal of Palliative Medicine</i> , 2019 , 22, 1493-1494	2.2	0
105	A Tale of 2 Constituencies: Exploring Patient and Clinician Perspectives in the Age of Big Data. <i>Medical Care</i> , 2018 , 56 Suppl 10 Suppl 1, S64-S69	3.1	9
104	Patients' Use of Multiple Hospitals in a Major US City: Implications for Population Management. <i>Population Health Management</i> , 2017 , 20, 99-102	1.8	8
103	Physician Participation in Meaningful Use and Quality of Care for Medicare Fee-for-Service Enrollees. <i>Journal of the American Geriatrics Society</i> , 2017 , 65, 608-613	5.6	5
102	Hospitalization event notifications and reductions in readmissions of Medicare fee-for-service beneficiaries in the Bronx, New York. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2017 , 24, e150-e156	8.6	20
101	Medicaid Stage 1 Meaningful Use EHR Incentive Payments Are Associated With Higher Quality but Not Improvements in Quality. <i>American Journal of Medical Quality</i> , 2017 , 32, 485-493	1.1	4
100	Effect of health information exchange on recognition of medication discrepancies is interrupted when data charges are introduced: results of a cluster-randomized controlled trial. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2017 , 24, 1095-1101	8.6	17
99	Effects of workload, work complexity, and repeated alerts on alert fatigue in a clinical decision support system. <i>BMC Medical Informatics and Decision Making</i> , 2017 , 17, 36	3.6	186
98	Physician Satisfaction in Practices That Transformed Into Patient-Centered Medical Homes: A Statewide Study in New York. <i>American Journal of Medical Quality</i> , 2016 , 31, 331-6	1.1	4
97	The Meaningful Use of Electronic Health Records and Health Care Utilization. <i>American Journal of Medical Quality</i> , 2016 , 31, 301-7	1.1	18
96	Effects of an e-Prescribing interface redesign on rates of generic drug prescribing: exploiting default options. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2016 , 23, 891-8	8.6	30
95	Effects of health information technology on patient outcomes: a systematic review. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2016 , 23, 1016-36	8.6	63
94	Socioeconomic disparities in adoption of personal health records over time. <i>American Journal of Managed Care</i> , 2016 , 22, 539-40	2.1	33
93	The Patient-Centered Medical Home and Associations With Health Care Quality and Utilization: A 5-Year Cohort Study. <i>Annals of Internal Medicine</i> , 2016 , 164, 395-405	8	21
92	Associations between healthcare quality and use of electronic health record functions in ambulatory care. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2015 , 22, 864-71	8.6	40
91	Predicting frequent ED use by people with epilepsy with health information exchange data. <i>Neurology</i> , 2015 , 85, 1031-8	6.5	23

90	A needs assessment of health information technology for improving care coordination in three leading patient-centered medical homes. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2015 , 22, 815-20	8.6	22
89	Electronic health records and health care quality over time in a federally qualified health center. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2015 , 22, 453-8	8.6	14
88	The potential for community-based health information exchange systems to reduce hospital readmissions. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2015 , 22, 435-42	8.6	57
87	Use of Health Information Exchange and Repeat Imaging Costs. <i>Journal of the American College of Radiology</i> , 2015 , 12, 1364-70	3.5	28
86	The meaningful use of electronic health records and health care quality. <i>American Journal of Medical Quality</i> , 2015 , 30, 512-9	1.1	12
85	Rapid growth in use of personal health records in New York, 2012-2013. <i>Journal of General Internal Medicine</i> , 2014 , 29, 850-4	4	27
84	Changing the research landscape: the New York City Clinical Data Research Network. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2014 , 21, 587-90	8.6	48
83	Characterising the effect of interoperability on healthcare work: a novel framework. <i>Theoretical Issues in Ergonomics Science</i> , 2014 , 15, 578-594	2.2	2
82	The patient-centered medical home, electronic health records, and quality of care. <i>Annals of Internal Medicine</i> , 2014 , 160, 741-9	8	51
81	How is the electronic health record being used? Use of EHR data to assess physician-level variability in technology use. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2014 , 21, 1001-8	8.6	56
80	Sociotechnical challenges to developing technologies for patient access to health information exchange data. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2014 , 21, 664-70	8.6	36
79	People with epilepsy who use multiple hospitals; prevalence and associated factors assessed via a health information exchange. <i>Epilepsia</i> , 2014 , 55, 734-745	6.4	17
78	Expert panel evaluation of health information technology effects on adverse events. <i>Journal of Evaluation in Clinical Practice</i> , 2014 , 20, 375-82	2.5	4
77	A statewide assessment of electronic health record adoption and health information exchange among nursing homes. <i>Health Services Research</i> , 2014 , 49, 361-72	3.4	45
76	Measuring the impact of "meaningful use" on quality of care. <i>JAMA Internal Medicine</i> , 2014 , 174, 998-9	11.5	4
75	Applications of health information exchange information to public health practice 2014 , 2014, 795-804	0.7	6
74	Adoption of clinical data exchange in community settings: a comparison of two approaches 2014 , 2014, 359-65	0.7	1
73	Health information exchange and the frequency of repeat medical imaging. <i>American Journal of Managed Care</i> , 2014 , 20, eSP16-24	2.1	20

72	Electronic health records and ambulatory quality of care. <i>Journal of General Internal Medicine</i> , 2013 , 28, 496-503	4	89
71	Health information exchange system usage patterns in three communities: practice sites, users, patients, and data. <i>International Journal of Medical Informatics</i> , 2013 , 82, 810-20	5.3	43
70	Consumer experience with and attitudes toward health information technology: a nationwide survey. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2013 , 20, 152-6	8.6	55
69	A system dynamics evaluation model: implementation of health information exchange for public health reporting. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2013 , 20, e131-8	8.6	30
68	A long-term follow-up evaluation of electronic health record prescribing safety. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2013 , 20, e52-8	8.6	21
67	Accuracy of electronically reported "meaningful use" clinical quality measures: a cross-sectional study. <i>Annals of Internal Medicine</i> , 2013 , 158, 77-83	8	62
66	Characterizing Levels of Health IT System Interoperability based on How it Affects the Work of the Users. <i>Proceedings of the International Symposium of Human Factors and Ergonomics in Healthcare</i> , 2013 , 2, 6-6	0.5	
65	The effects of electronic prescribing by community-based providers on ambulatory medication safety. <i>Joint Commission Journal on Quality and Patient Safety</i> , 2013 , 39, 545-52	1.4	8
64	The impact of interoperability of electronic health records on ambulatory physician practices: a discrete-event simulation study. <i>Informatics in Primary Care</i> , 2013 , 21, 21-9		19
63	Using a health information exchange system for imaging information: patterns and predictors 2013 , 2013, 1402-11	0.7	4
62	Patient encounters and care transitions in one community supported by automated query-based health information exchange 2013 , 2013, 175-84	0.7	11
61	Potential value of health information exchange for people with epilepsy: crossover patterns and missing clinical data 2013 , 2013, 527-36	0.7	6
60	Patient experience over time in patient-centered medical homes. <i>American Journal of Managed Care</i> , 2013 , 19, 403-10	2.1	19
59	Electronic health record adoption and health information exchange among hospitals in New York State. <i>Journal of Evaluation in Clinical Practice</i> , 2012 , 18, 1156-62	2.5	19
58	Satisfaction after the transition between electronic health record systems at six ambulatory practices. <i>Journal of Evaluation in Clinical Practice</i> , 2012 , 18, 1133-9	2.5	19
57	Consumer perceptions of electronic health information exchange. <i>American Journal of Preventive Medicine</i> , 2012 , 43, 76-80	6.1	67
56	Physician experiences transitioning between an older versus newer electronic health record for electronic prescribing. <i>International Journal of Medical Informatics</i> , 2012 , 81, 539-48	5.3	61
55	Computerized provider order entry and patient safety. <i>Pediatric Clinics of North America</i> , 2012 , 59, 1247-56	3.5	28

54	Consumer support for health information exchange and personal health records: a regional health information organization survey. <i>Journal of Medical Systems</i> , 2012 , 36, 1043-52	5.1	60
53	Self-reported violations during medication administration in two paediatric hospitals. <i>BMJ Quality and Safety</i> , 2012 , 21, 408-15	5.4	29
52	The Triangle Model for evaluating the effect of health information technology on healthcare quality and safety. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2012 , 19, 61-5	8.6	52
51	Transitioning between ambulatory EHRs: a study of practitioners' perspectives. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2012 , 19, 401-6	8.6	15
50	Ambulatory prescribing errors among community-based providers in two states. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2012 , 19, 644-8	8.6	26
49	Electronic prescribing within an electronic health record reduces ambulatory prescribing errors. <i>Joint Commission Journal on Quality and Patient Safety</i> , 2011 , 37, 470-8	1.4	43
48	Physicians' potential use and preferences related to health information exchange. <i>International Journal of Medical Informatics</i> , 2011 , 80, 171-80	5.3	51
47	Transitioning between electronic health records: effects on ambulatory prescribing safety. <i>Journal of General Internal Medicine</i> , 2011 , 26, 868-74	4	28
46	Healthcare consumers' attitudes towards physician and personal use of health information exchange. <i>Journal of General Internal Medicine</i> , 2011 , 26, 1019-26	4	44
45	A human factors framework and study of the effect of nursing workload on patient safety and employee quality of working life. <i>BMJ Quality and Safety</i> , 2011 , 20, 15-24	5.4	141
44	Evaluating health information technology in community-based settings: lessons learned. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2011 , 18, 749-53	8.6	13
43	Consumer attitudes toward personal health records in a beacon community. <i>American Journal of Managed Care</i> , 2011 , 17, e104-20	2.1	37
42	The comparative effectiveness of 2 electronic prescribing systems. <i>American Journal of Managed Care</i> , 2011 , 17, SP88-94	2.1	6
41	User experiences with pharmacy benefit manager data at the point of care. <i>Journal of Evaluation in Clinical Practice</i> , 2010 , 16, 1076-80	2.5	2
40	Medication errors in paediatric outpatients. <i>BMJ Quality and Safety</i> , 2010 , 19, e30	5.4	20
39	Electronic prescribing improves medication safety in community-based office practices. <i>Journal of General Internal Medicine</i> , 2010 , 25, 530-6	4	140
38	HEAL NY: Promoting interoperable health information technology in New York State. <i>Health Affairs</i> , 2009 , 28, 493-504	7	53
37	The costs and savings associated with prevention of adverse events by critical care nurses. <i>Journal of Critical Care</i> , 2009 , 24, 471.e1-7	4	13

36	Physicians Attitudes towards copy and pasting in electronic note writing. <i>Journal of General Internal Medicine</i> , 2009 , 24, 63-8	4	72
35	Quality of care for acute asthma in 63 US emergency departments. <i>Journal of Allergy and Clinical Immunology</i> , 2009 , 123, 354-61	11.5	53
34	Physicians Use of key functions in electronic health records from 2005 to 2007: a statewide survey. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2009 , 16, 465-70	8.6	48
33	Measuring the effects of health information technology on quality of care: a novel set of proposed metrics for electronic quality reporting. <i>Joint Commission Journal on Quality and Patient Safety</i> , 2009 , 35, 359-69	1.4	30
32	Imminent adopters of electronic health records in ambulatory care. <i>Journal of Innovation in Health Informatics</i> , 2009 , 17, 7-15		11
31	Electronic health records: which practices have them, and how are clinicians using them?. <i>Journal of Evaluation in Clinical Practice</i> , 2008 , 14, 43-7	2.5	57
30	Risk factors in preventable adverse drug events in pediatric outpatients. <i>Journal of Pediatrics</i> , 2008 , 152, 225-31	3.6	64
29	Unit-based clinical pharmacists' prevention of serious medication errors in pediatric inpatients. <i>American Journal of Health-System Pharmacy</i> , 2008 , 65, 1254-60	2.2	83
28	Electronic health records in ambulatory care--a national survey of physicians. <i>New England Journal of Medicine</i> , 2008 , 359, 50-60	59.2	784
27	Challenges to EHR implementation in electronic- versus paper-based office practices. <i>Journal of General Internal Medicine</i> , 2008 , 23, 755-61	4	70
26	A survey of workplace violence across 65 U.S. emergency departments. <i>Academic Emergency Medicine</i> , 2008 , 15, 1268-74	3.4	104
25	A qualitative analysis of an electronic health record (EHR) implementation in an academic ambulatory setting. <i>Journal of Innovation in Health Informatics</i> , 2008 , 16, 277-84		23
24	Adverse drug events in pediatric outpatients. <i>Academic Pediatrics</i> , 2007 , 7, 383-9		103
23	Correlates of electronic health record adoption in office practices: a statewide survey. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2007 , 14, 110-7	8.6	178
22	Prevention of pediatric medication errors by hospital pharmacists and the potential benefit of computerized physician order entry. <i>Pediatrics</i> , 2007 , 119, e77-85	7.4	102
21	To what extent do pediatricians accept computer-based dosing suggestions?. <i>Pediatrics</i> , 2007 , 119, e69-75	7.4	35
20	Nursing Workload and its Effect on Patient and Employee Safety. <i>Proceedings of the Human Factors and Ergonomics Society</i> , 2007 , 51, 760-764	0.4	3
19	Using the Technology Acceptance Model to Predict Violations in the Medication Use Process. <i>Proceedings of the Human Factors and Ergonomics Society</i> , 2007 , 51, 745-749	0.4	

18	The role of communication in paediatric drug safety. <i>Archives of Disease in Childhood</i> , 2007 , 92, 440-5	2.2	25
17	Costs of adverse events in intensive care units. <i>Critical Care Medicine</i> , 2007 , 35, 2479-83	1.4	71
16	Assessing the level of healthcare information technology adoption in the United States: a snapshot. <i>BMC Medical Informatics and Decision Making</i> , 2006 , 6, 1	3.6	178
15	Protocol Violations during Medication Administration in Pediatrics. <i>Proceedings of the Human Factors and Ergonomics Society</i> , 2006 , 50, 1019-1023	0.4	4
14	National Health Information Network Cost and Structure. <i>Annals of Internal Medicine</i> , 2006 , 144, 147	8	
13	Return on investment for a computerized physician order entry system. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2006 , 13, 261-6	8.6	188
12	Potential medication dosing errors in outpatient pediatrics. <i>Journal of Pediatrics</i> , 2005 , 147, 761-7	3.6	108
11	The Critical Care Safety Study: The incidence and nature of adverse events and serious medical errors in intensive care. <i>Critical Care Medicine</i> , 2005 , 33, 1694-700	1.4	1246
10	The costs of a national health information network. <i>Annals of Internal Medicine</i> , 2005 , 143, 165-73	8	62
9	Functional gaps in attaining a national health information network. <i>Health Affairs</i> , 2005 , 24, 1281-9	0	24
8	Pediatric medication errors: what do we know? What gaps remain?. <i>Academic Pediatrics</i> , 2004 , 4, 73-81		92
7	Effect of reducing intern work hours on serious medical errors in intensive care units. <i>New England Journal of Medicine</i> , 2004 , 351, 1838-48	59.2	1312
6	Prioritizing strategies for preventing medication errors and adverse drug events in pediatric inpatients. <i>Pediatrics</i> , 2003 , 111, 722-9	7.4	318
5	Effects of computerized physician order entry and clinical decision support systems on medication safety: a systematic review. <i>Archives of Internal Medicine</i> , 2003 , 163, 1409-16		903
4	Using chart review to screen for medication errors and adverse drug events. <i>American Journal of Health-System Pharmacy</i> , 2002 , 59, 2323-5	2.2	28
3	Medication errors and adverse drug events in pediatric inpatients. <i>JAMA - Journal of the American Medical Association</i> , 2001 , 285, 2114-20	27.4	1229
2	Identifying organ dysfunction trajectory-based subphenotypes in critically ill patients with COVID-19		2
1	The Use of Pharmacoepidemiology to Study Medication Errors		531-538
