#	ARTICLE	IF	CITATIONS
1	Component-resolved microarray analysis of IgE sensitization profiles to <i>Culicoides</i> recombinant allergens in horses with insect bite hypersensitivity. <i>Allergy: European Journal of Allergy and Clinical Immunology</i> , 2021, 76, 1147-1157.	5.7	20
2	Comparison of recombinant <i>Culicoides</i> allergens produced in different expression systems for IgE serology of insect bite hypersensitivity in horses of different origins. <i>Veterinary Immunology and Immunopathology</i> , 2021, 238, 110289.	1.2	4
3	First clinical expression of equine insect bite hypersensitivity is associated with co-sensitization to multiple <i>Culicoides</i> allergens. <i>PLoS ONE</i> , 2021, 16, e0257819.	2.5	5
4	Immunopathogenesis and immunotherapy of <i>Culicoides</i> hypersensitivity in horses: an update. <i>Veterinary Dermatology</i> , 2021, 32, 579.	1.2	1
5	Interleukin 31 in insect bite hypersensitivity – Alleviating clinical symptoms by active vaccination against itch. <i>Allergy: European Journal of Allergy and Clinical Immunology</i> , 2020, 75, 862-871.	5.7	34
6	Safety Profile of a Virus-Like Particle-Based Vaccine Targeting Self-Protein Interleukin-5 in Horses. <i>Vaccines</i> , 2020, 8, 213.	4.4	12
7	New Strategies for Prevention and Treatment of Insect Bite Hypersensitivity in Horses. <i>Current Dermatology Reports</i> , 2019, 8, 303-312.	2.1	15
8	Longitudinal analysis of allergen-specific IgE and IgG subclasses as potential predictors of insect bite hypersensitivity following first exposure to <i>Culicoides</i> in Icelandic horses. <i>Veterinary Dermatology</i> , 2018, 29, 51.	1.2	18
9	A prospective study on insect bite hypersensitivity in horses exported from Iceland into Switzerland. <i>Acta Veterinaria Scandinavica</i> , 2018, 60, 69.	1.6	16
10	Barley produced <i>Culicoides</i> allergens are suitable for monitoring the immune response of horses immunized with <i>E. coli</i> expressed allergens. <i>Veterinary Immunology and Immunopathology</i> , 2018, 201, 32-37.	1.2	14
11	A preventive immunization approach against insect bite hypersensitivity: Intralymphatic injection with recombinant allergens in Alum or Alum and monophosphoryl lipid A. <i>Veterinary Immunology and Immunopathology</i> , 2016, 172, 14-20.	1.2	28
12	Developing a preventive immunization approach against insect bite hypersensitivity using recombinant allergens: A pilot study. <i>Veterinary Immunology and Immunopathology</i> , 2015, 166, 8-21.	1.2	29
13	Generation of equine TSLP-specific antibodies and their use for detection of TSLP produced by equine keratinocytes and leukocytes. <i>Veterinary Immunology and Immunopathology</i> , 2012, 147, 180-186.	1.2	8
