|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Evaluation of the National Electronic Injury Surveillance System â€“ All injury programâ€™s self-directed violence data, United States, 2018. <i>Journal of Safety Research</i> , 2021, 76, 327-331.                                                                                                  | 1.7 | 3         |
| 2  | Trends in US Emergency Department Visits for Mental Health, Overdose, and Violence Outcomes Before and During the COVID-19 Pandemic. <i>JAMA Psychiatry</i> , 2021, 78, 372.                                                                                                                          | 6.0 | 391       |
| 3  | Emergency Department Visits for Suspected Suicide Attempts Among Persons Aged 12â€“25 Years Before and During the COVID-19 Pandemic â€” United States, January 2019â€“May 2021. <i>Morbidity and Mortality Weekly Report</i> , 2021, 70, 888-894.                                                     | 9.0 | 356       |
| 4  | Association of Online Risk Factors With Subsequent Youth Suicide-Related Behaviors in the US. <i>JAMA Network Open</i> , 2021, 4, e2125860.                                                                                                                                                           | 2.8 | 7         |
| 5  | Zambia field epidemiology training program: strengthening health security through workforce development. <i>Pan African Medical Journal</i> , 2020, 36, 323.                                                                                                                                          | 0.3 | 4         |
| 6  | Risk Factors for Epidemic Cholera in Lusaka, Zambiaâ€™2017. <i>American Journal of Tropical Medicine and Hygiene</i> , 2020, 103, 646-651.                                                                                                                                                            | 0.6 | 3         |
| 7  | Risk and Protective Factors for Cholera Deaths during an Urban Outbreakâ€™Lusaka, Zambia, 2017â€“2018. <i>American Journal of Tropical Medicine and Hygiene</i> , 2020, 102, 534-540.                                                                                                                 | 0.6 | 3         |
| 8  | Description of a Mass Poisoning in a Rural District in Mozambique: The First Documented Bongkreikic Acid Poisoning in Africa. <i>Clinical Infectious Diseases</i> , 2018, 66, 1400-1406.                                                                                                              | 2.9 | 22        |
| 9  | Cholera Epidemic â€” Lusaka, Zambia, October 2017â€“May 2018. <i>Morbidity and Mortality Weekly Report</i> , 2018, 67, 556-559.                                                                                                                                                                       | 9.0 | 31        |
| 10 | A foodborne disease outbreak investigation experience in a College in Lusaka, Zambia, 2017. <i>Pan African Medical Journal</i> , 2018, 29, .                                                                                                                                                          | 0.3 | 2         |
| 11 | A Multisectoral Emergency Response Approach to a Cholera Outbreak in Zambia: October 2017â€“February 2018. <i>Journal of Infectious Diseases</i> , 2018, 218, S181-S183.                                                                                                                              | 1.9 | 11        |
| 12 | Evaluation of the efficacy, acceptability and palatability of calcium montmorillonite clay used to reduce aflatoxin B1 dietary exposure in a crossover study in Kenya. <i>Food Additives and Contaminants - Part A Chemistry, Analysis, Control, Exposure and Risk Assessment</i> , 2017, 34, 93-102. | 1.1 | 33        |
| 13 | Impact of the 2012 extreme drought conditions on private well owners in the United States, a qualitative analysis. <i>BMC Public Health</i> , 2016, 16, 430.                                                                                                                                          | 1.2 | 15        |
| 14 | Blood Lead Levels Among Children Aged &lt;6 Years â€” Flint, Michigan, 2013â€“2016. <i>Morbidity and Mortality Weekly Report</i> , 2016, 65, 650-654.                                                                                                                                                 | 9.0 | 62        |
| 15 | Metals Exposures of Residents Living Near the Akaki River in Addis Ababa, Ethiopia: A Cross-Sectional Study. <i>Journal of Environmental and Public Health</i> , 2015, 2015, 1-8.                                                                                                                     | 0.4 | 13        |
| 16 | Household Emergency Preparedness by Housing Type from a Community Assessment for Public Health Emergency Response (CASPER), Michigan. <i>Disaster Medicine and Public Health Preparedness</i> , 2014, 8, 12-19.                                                                                       | 0.7 | 15        |
| 17 | A Multisport Epidemiologic Comparison of Anterior Cruciate Ligament Injuries in High School Athletics. <i>Journal of Athletic Training</i> , 2013, 48, 810-817.                                                                                                                                       | 0.9 | 251       |
| 18 | Epidemiology of 10,000 High School Football Injuries: Patterns of Injury by Position Played. <i>Journal of Physical Activity and Health</i> , 2013, 10, 160-169.                                                                                                                                      | 1.0 | 43        |

| #  | ARTICLE                                                                                                                                                                                                   | IF  | CITATIONS |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Injury Patterns by Body Mass Index in US High School Athletes. <i>Journal of Physical Activity and Health</i> , 2011, 8, 182-191.                                                                         | 1.0 | 44        |
| 20 | Football-Related Injuries Among 6- to 17-Year-Olds Treated in US Emergency Departments, 1990-2007. <i>Clinical Pediatrics</i> , 2011, 50, 200-207.                                                        | 0.4 | 32        |
| 21 | Epidemiology of US High School Sports-Related Fractures, 2005-2009. <i>Clinical Journal of Sport Medicine</i> , 2010, 20, 293-299.                                                                        | 0.9 | 58        |
| 22 | Patients With Ice Hockey Injuries Presenting to US Emergency Departments, 1990-2006. <i>Journal of Athletic Training</i> , 2010, 45, 467-474.                                                             | 0.9 | 57        |
| 23 | Heat illness among high school athletes - United States, 2005-2009. <i>Journal of Safety Research</i> , 2010, 41, 471-474.                                                                                | 1.7 | 50        |
| 24 | Shoulder Injuries in US High School Baseball and Softball Athletes, 2005-2008. <i>Pediatrics</i> , 2010, 125, 497-501.                                                                                    | 1.0 | 103       |
| 25 | Injury patterns at US and Canadian overnight summer camps: first year of the Healthy Camp study. <i>Injury Prevention</i> , 2009, 15, 413-417.                                                            | 1.2 | 17        |
| 26 | Compliance with return to play guidelines following concussion in US high school athletes, 2005-2008. <i>Brain Injury</i> , 2009, 23, 888-898.                                                            | 0.6 | 77        |
| 27 | Physical Education Class Injuries Treated in Emergency Departments in the US in 1997-2007. <i>Pediatrics</i> , 2009, 124, 918-925.                                                                        | 1.0 | 24        |
| 28 | An epidemiologic comparison of injuries presenting to a pediatric emergency department and local urgent care facilities. <i>Journal of Safety Research</i> , 2009, 40, 63-69.                             | 1.7 | 8         |
| 29 | Epidemiology of Severe Injuries among United States High School Athletes. <i>American Journal of Sports Medicine</i> , 2009, 37, 1798-1805.                                                               | 1.9 | 266       |
| 30 | Patterns of Recurrent Injuries among US High School Athletes, 2005-2008. <i>American Journal of Sports Medicine</i> , 2009, 37, 1586-1593.                                                                | 1.9 | 136       |
| 31 | Shoulder Injuries Among United States High School Athletes During the 2005-2006 and 2006-2007 School Years. <i>Journal of Athletic Training</i> , 2009, 44, 76-83.                                        | 0.9 | 83        |
| 32 | A Comparison of High School Sports Injury Surveillance Data Reporting by Certified Athletic Trainers and Coaches. <i>Journal of Athletic Training</i> , 2009, 44, 645-652.                                | 0.9 | 55        |
| 33 | A comparison of pediatric freestyle and Greco-Roman wrestling injuries sustained during a 2006 US national tournament. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2008, 18, 491-497. | 1.3 | 28        |
| 34 | The Epidemiology of United States High School Soccer Injuries, 2005-2007. <i>American Journal of Sports Medicine</i> , 2008, 36, 1930-1937.                                                               | 1.9 | 137       |
| 35 | The Epidemiology of US High School Basketball Injuries, 2005-2007. <i>American Journal of Sports Medicine</i> , 2008, 36, 2328-2335.                                                                      | 1.9 | 242       |
| 36 | Epidemiology of Knee Injuries among Boys and Girls in US High School Athletics. <i>American Journal of Sports Medicine</i> , 2008, 36, 1116-1122.                                                         | 1.9 | 146       |

| #  | ARTICLE                                                                                                                                                                                 | IF  | CITATIONS |
