Athanassios Kolivras

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/9765381/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	A clinicopathological description of <scp>COVID</scp> â€19â€induced chilblains (<scp>COVID</scp> â€toes) correlated with a published literature review. Journal of Cutaneous Pathology, 2022, 49, 17-28.	1.3	16
2	Cutaneous lymphocytic thrombophilic (macular) arteritis. Clinics in Dermatology, 2021, 39, 278-282.	1.6	2
3	Epidermal thickness is useful in distinguishing lichen planopilaris from neutrophilâ€poor/lymphocyteâ€predominant folliculitis decalvans. Journal of Cutaneous Pathology, 2021, 48, 816-818.	1.3	3
4	Histologic Patterns and Clues to Autoinflammatory Diseases in Children: What a Cutaneous Biopsy Can Tell Us. Dermatopathology (Basel, Switzerland), 2021, 8, 202-220.	1.5	4
5	Reply to Pernio during the COVID-19 pandemic and review of inflammation patterns and mechanisms of hypercoagulability. JAAD Case Reports, 2020, 6, 954-955.	0.8	0
6	Coronavirus (COVID-19) infection–induced chilblains: A case report with histopathologic findings. JAAD Case Reports, 2020, 6, 489-492.	0.8	215
7	Bullous Lupus Under Nivolumab Treatment for Lung Cancer: A Case Report With Systematic Literature Review. Anticancer Research, 2019, 39, 3003-3008.	1.1	14
8	Local and systemic adverse skin reactions following the use of herbal products believed to contain <scp><i>Nigella sativa</i></scp> seeds and oil. Contact Dermatitis, 2019, 80, 176-177.	1.4	8
9	Reply to: "Lack of specificity of cytokeratin-15 loss in scarring alopecias― Journal of the American Academy of Dermatology, 2017, 76, e137-e138.	1.2	0
10	Reply to: "Plasmacytoid dendritic cell content, clustering, and distribution pattern are useful parameters in differentiating lupus alopecia from lichen planopilaris― Journal of the American Academy of Dermatology, 2017, 76, e65.	1.2	0
11	Primary scalp alopecia: new histopathological tools, new concepts and a practical guide to diagnosis. Journal of Cutaneous Pathology, 2017, 44, 53-69.	1.3	15
12	Chronic cutaneous lupus erythematosus revealed by unilateral eyelid oedema. European Journal of Dermatology, 2017, 27, 557-559.	0.6	1
13	Shwachman–Diamond syndrome presenting with early ichthyosis, associated dermal and epidermal intracellular lipid droplets, hypoglycemia, and later distinctive clinical SDS phenotype. American Journal of Medical Genetics, Part A, 2016, 170, 1799-1805.	1.2	4
14	Pseudoangiomatous xanthelasmoid mastocytosis: two case reports showing the hypervascularity of this rare variant of cutaneous mastocytosis. Journal of Cutaneous Pathology, 2016, 43, 388-393.	1.3	4
15	Clusters of CD123+ plasmacytoid dendritic cells help distinguish lupus alopecia from lichen planopilaris. Journal of the American Academy of Dermatology, 2016, 74, 1267-1269.	1.2	20
16	Loss of cytokeratin-15 (CK15) expression is not specific for lichen planopilaris (LPP). Journal of the American Academy of Dermatology, 2016, 75, 428-429.	1.2	8
17	Distinguishing diffuse alopecia areata (AA) from pattern hair loss (PHL) using CD3+ TÂcells. Journal of the American Academy of Dermatology, 2016, 74, 937-944.	1.2	18
18	Macular arteritis associated with concurrent <scp>HIV</scp> and hepatitis B infections: a case report and evidence for a disease spectrum association with cutaneous polyarteritis nodosa. Journal of Cutaneous Pathology, 2015, 42, 416-419.	1.3	13

#	Article	IF	CITATIONS
19	Erysipelasâ€like erythema of familial Mediterranean fever syndrome: a case report with emphasis on histopathologic diagnostic clues. Journal of Cutaneous Pathology, 2013, 40, 585-590.	1.3	13
20	Eruptive tumors of the follicular infundibulum presenting as hypopigmented macules on the buttocks of two Black African males. Journal of Cutaneous Pathology, 2012, 39, 444-448.	1.3	11
21	Cryopyrin-associated periodic syndrome: an autoinflammatory disease manifested as neutrophilic urticarial dermatosis with additional perieccrine involvement. Journal of Cutaneous Pathology, 2011, 38, 202-208.	1.3	58
22	Cutaneous histopathological findings of Aicardi–GoutiÔres syndrome, overlap with chilblain lupus. Journal of Cutaneous Pathology, 2008, 35, 774-778.	1.3	47
23	Gianotti rosti Syndrome Following Hepatitis A Vaccination. Pediatric Dermatology, 2008, 25, 650-650.	0.9	22
24	Cutaneous <i>Mycobacterium chelonae</i> Infection Extending Distally in a Hemodialysed Patient. Dermatology, 2002, 204, 341-343.	2.1	8
