#	ARTICLE	IF	CITATIONS
1	Cardiac Rehabilitation Availability and Density around the Globe. <i>EClinicalMedicine</i> , 2019, 13, 31-45.	7.1	124
2	Electronic cigarettes increase endothelial progenitor cells in the blood of healthy volunteers. <i>Atherosclerosis</i> , 2016, 255, 179-185.	0.8	98
3	Nature of Cardiac Rehabilitation Around the Globe. <i>EClinicalMedicine</i> , 2019, 13, 46-56.	7.1	98
4	Active interprofessional education in a patient based setting increases perceived collaborative and professional competence. <i>Medical Teacher</i> , 2009, 31, 151-157.	1.8	92
5	Effects of interprofessional education on patient perceived quality of care. <i>Medical Teacher</i> , 2011, 33, e22-e26.	1.8	67
6	Cardiac rehabilitation availability and delivery in Europe: How does it differ by region and compare with other high-income countries?. <i>European Journal of Preventive Cardiology</i> , 2019, 26, 1131-1146.	1.8	52
7	Efficacy of case method learning in general practice for secondary prevention in patients with coronary artery disease: randomised controlled study. <i>BMJ: British Medical Journal</i> , 2002, 325, 877-880.	2.3	43
8	A safe place with space for learning: Experiences from an interprofessional training ward. <i>Journal of Interprofessional Care</i> , 2016, 30, 141-148.	1.7	40
9	Longitudinal mentorship to support the development of medical students' future professional role: a qualitative study. <i>BMC Medical Education</i> , 2015, 15, 97.	2.4	34
10	Cardiac rehabilitation after acute myocardial infarction in Sweden – evaluation of programme characteristics and adherence to European guidelines: The Perfect Cardiac Rehabilitation (Perfect-CR) study. <i>European Journal of Preventive Cardiology</i> , 2020, 27, 18-27.	1.8	33
11	Case-Based Training of Evidence-Based Clinical Practice in Primary Care and Decreased Mortality in Patients With Coronary Heart Disease. <i>Annals of Family Medicine</i> , 2011, 9, 211-218.	1.9	32
12	Capability beliefs on, and use of evidence-based practice among four health professional and student groups in geriatric care: A cross sectional study. <i>PLoS ONE</i> , 2018, 13, e0192017.	2.5	32
13	Perceived cognitive function is a major determinant of health related quality of life in a non-selected population of patients with coronary artery disease ? a principal components analysis. <i>Quality of Life Research</i> , 2004, 13, 1621-1631.	3.1	23
14	Sickness certification as a complex professional and collaborative activity - a qualitative study. <i>BMC Public Health</i> , 2012, 12, 702.	2.9	21
15	Continuous mentoring of medical students provides space for reflection and awareness of their own development. <i>International Journal of Medical Education</i> , 0, 3, 236-244.	1.2	15
16	Perceived cognitive function in coronary artery disease – An unrecognised predictor of unemployment. <i>Quality of Life Research</i> , 2005, 14, 1481-1488.	3.1	14
17	Time trends of chest pain symptoms and health related quality of life in coronary artery disease. <i>Health and Quality of Life Outcomes</i> , 2007, 5, 13.	2.4	13
18	The learning environment on a student ward: an observational study. <i>Perspectives on Medical Education</i> , 2022, 8, 276-283.	3.5	13

#	ARTICLE	IF	CITATIONS
19	Students perceive healthcare as a valuable learning environment when accepted as a part of the workplace community. <i>Education for Health: Change in Learning and Practice</i> , 2014, 27, 15.	0.3	13
20	What about the supervisor? Clinical supervisorsâ€™ role in student nursesâ€™ peer learning: A phenomenographic study. <i>Medical Education</i> , 2021, 55, 713-723.	2.1	12
21	The experience of physician supervisors with clerkship students: a qualitative study. <i>International Journal of Medical Education</i> , 0, 2, 56-63.	1.2	12
22	Readmission and mortality in patients treated by interprofessional student teams at a training ward compared with patients receiving usual care: a retrospective cohort study. <i>BMJ Open</i> , 2018, 8, e022251.	1.9	11
23	Building for change: university hospital design for future clinical learning. <i>Journal of Interprofessional Care</i> , 2013, 27, 72-76.	1.7	10
24	Participatory learning: a Swedish perspective. <i>British Heart Journal</i> , 2004, 90, 113-116.	2.1	9
25	Inability to act was associated with an extended delay prior to care-seeking, in patients with an acute myocardial infarction. <i>European Journal of Cardiovascular Nursing</i> , 2019, 18, 512-520.	0.9	9
26	Cost of lipid lowering in patients with coronary artery disease by Case Method Learning. <i>International Journal of Technology Assessment in Health Care</i> , 2005, 21, 180-186.	0.5	6
27	Possibilities for interprofessional learning at a Swedish acute healthcare ward not dedicated to interprofessional education: an ethnographic study. <i>BMJ Open</i> , 2019, 9, e027590.	1.9	5
28	Quality of medical certificates issued in long-term sick leave or disability in relation to patient characteristics and delivery of health care. <i>Scandinavian Journal of Public Health</i> , 2013, 41, 412-420.	2.3	4
29	Mapping a measure of physical ability for persons with long-term musculoskeletal pain to the ICF and ICF Core Sets. <i>European Journal of Public Health</i> , 2019, 29, 286-291.	0.3	4
30	–Nursing Students Learn to Handle Stress and to Prioritize in a Complex Context During Workplace Learning in Acute Internal Medicine Care â€” An Ethnographic Study–. <i>Advances in Medical Education and Practice</i> , 2020, Volume 11, 21-30.	1.5	4
31	Cost-effectiveness of case-based training for primary care physicians in evidence-based medicine of patients with coronary heart disease. <i>European Journal of Preventive Cardiology</i> , 2016, 23, 420-427.	1.8	3
32	Cost of lipid lowering in patients with coronary artery disease by case method learning. <i>International Journal of Technology Assessment in Health Care</i> , 2005, 21, 180-6.	0.5	3
33	Reply to: â€œEndothelial progenitor cell release is usually considered a beneficial effect: Problems in interpreting the acute effects of e-cigarette useâ€. <i>Atherosclerosis</i> , 2017, 258, 164-165.	0.8	2
34	Enhanced hospital-based learning at a medical school through application of management principles â€” a case study. <i>BMC Medical Education</i> , 2017, 17, 185.	2.4	2
35	Influence of contextual factors on quality of primary care in children with asthma. <i>Journal of Evaluation in Clinical Practice</i> , 2019, 25, 521-530.	1.8	0
