

Robert P Light

List of Publications by Citations

Source: <https://exaly.com/author-pdf/989405/robert-p-light-publications-by-citations.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
42	Role of home blood pressure monitoring in overcoming therapeutic inertia and improving hypertension control: a systematic review and meta-analysis. <i>Hypertension</i> , 2011 , 57, 29-38	8.5	274
41	Paricalcitol reduces albuminuria and inflammation in chronic kidney disease: a randomized double-blind pilot trial. <i>Hypertension</i> , 2008 , 52, 249-55	8.5	269
40	Dry-weight reduction in hypertensive hemodialysis patients (DRIP): a randomized, controlled trial. <i>Hypertension</i> , 2009 , 53, 500-7	8.5	249
39	Design and update of a classification system: the UCSD map of science. <i>PLoS ONE</i> , 2012 , 7, e39464	3.7	130
38	Relationships of N-terminal pro-B-natriuretic peptide and cardiac troponin T to left ventricular mass and function and mortality in asymptomatic hemodialysis patients. <i>American Journal of Kidney Diseases</i> , 2007 , 50, 1009-19	7.4	103
37	Diagnosing obesity by body mass index in chronic kidney disease: an explanation for the "obesity paradox?". <i>Hypertension</i> , 2010 , 56, 893-900	8.5	78
36	Relative plasma volume monitoring during hemodialysis AIDS the assessment of dry weight. <i>Hypertension</i> , 2010 , 55, 305-11	8.5	72
35	Intradialytic hypertension is a marker of volume excess. <i>Nephrology Dialysis Transplantation</i> , 2010 , 25, 3355-61	4.3	63
34	Diagnosing hypertension by intradialytic blood pressure recordings. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2008 , 3, 1364-72	6.9	62
33	Arterial stiffness and interdialytic weight gain influence ambulatory blood pressure patterns in hemodialysis patients. <i>American Journal of Physiology - Renal Physiology</i> , 2008 , 294, F303-8	4.3	61
32	Nocturia, nocturnal activity, and nondipping. <i>Hypertension</i> , 2009 , 54, 646-51	8.5	59
31	Short-term vitamin D receptor activation increases serum creatinine due to increased production with no effect on the glomerular filtration rate. <i>Kidney International</i> , 2011 , 80, 1073-9	9.9	57
30	Location not quantity of blood pressure measurements predicts mortality in hemodialysis patients. <i>American Journal of Nephrology</i> , 2008 , 28, 210-7	4.6	57
29	GFR, proteinuria and circadian blood pressure. <i>Nephrology Dialysis Transplantation</i> , 2009 , 24, 2400-6	4.3	56
28	Inferior vena cava diameter and left atrial diameter measure volume but not dry weight. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2011 , 6, 1066-72	6.9	56
27	Sleep and activity in chronic kidney disease: a longitudinal study. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2011 , 6, 1258-65	6.9	50
26	Home blood pressure measurements for managing hypertension in hemodialysis patients. <i>American Journal of Nephrology</i> , 2009 , 30, 126-34	4.6	49

25	The effect of measuring ambulatory blood pressure on nighttime sleep and daytime activity--implications for dipping. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2010 , 5, 281-5	6.9	47
24	Competing risk factor analysis of end-stage renal disease and mortality in chronic kidney disease. <i>American Journal of Nephrology</i> , 2008 , 28, 569-75	4.6	44
23	Global multi-level analysis of the scientific food web. <i>Scientific Reports</i> , 2013 , 3, 1167	4.9	43
22	Assessment of iothalamate plasma clearance: duration of study affects quality of GFR. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2009 , 4, 77-85	6.9	43
21	Trended cosinor change model for analyzing hemodynamic rhythm patterns in hemodialysis patients. <i>Hypertension</i> , 2007 , 50, 143-50	8.5	41
20	Chronic kidney disease as a coronary disease equivalent--a comparison with diabetes over a decade. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2011 , 6, 1385-92	6.9	34
19	Chronobiology of arterial hypertension in hemodialysis patients: implications for home blood pressure monitoring. <i>American Journal of Kidney Diseases</i> , 2009 , 54, 693-701	7.4	33
18	Toward a definition of masked hypertension and white-coat hypertension among hemodialysis patients. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2011 , 6, 2003-8	6.9	33
17	Diagnostic utility of blood volume monitoring in hemodialysis patients. <i>American Journal of Kidney Diseases</i> , 2008 , 51, 242-54	7.4	33
16	Open data and open code for big science of science studies. <i>Scientometrics</i> , 2014 , 101, 1535-1551	3	32
15	Probing dry-weight improves left ventricular mass index. <i>American Journal of Nephrology</i> , 2011 , 33, 373-80	8.6	30
14	Patterns and prognostic value of total and differential leukocyte count in chronic kidney disease. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2011 , 6, 1393-9	6.9	24
13	A longitudinal study of kidney structure and function in adults. <i>Nephrology Dialysis Transplantation</i> , 2010 , 25, 1120-6	4.3	22
12	Prognostic value of circadian blood pressure variation in chronic kidney disease. <i>American Journal of Nephrology</i> , 2009 , 30, 547-53	4.6	18
11	Physical activity and hemodynamic reactivity in chronic kidney disease. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2008 , 3, 1660-8	6.9	18
10	Determinants and prognostic significance of electrocardiographic left ventricular hypertrophy criteria in chronic kidney disease. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2011 , 6, 528-36	6.9	17
9	Median intradialytic blood pressure can track changes evoked by probing dry-weight. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2010 , 5, 897-904	6.9	15
8	Relationship between glycosylated hemoglobin and blood glucose during progression of chronic kidney disease. <i>American Journal of Nephrology</i> , 2011 , 34, 32-41	4.6	14

7	Circadian blood pressure classification scheme and the health of patients with chronic kidney disease. <i>American Journal of Nephrology</i> , 2009 , 30, 536-46	4.6	13
6	Proteinuria is a determinant of quality of life in diabetic nephropathy: modeling lagged effects with path analysis. <i>American Journal of Nephrology</i> , 2007 , 27, 488-94	4.6	11
5	Physical activity is a determinant of circadian blood pressure variation in chronic kidney disease. <i>American Journal of Nephrology</i> , 2010 , 31, 15-23	4.6	6
4	Long-term retinal, renal and cardiovascular outcomes in diabetic chronic kidney disease without proteinuria. <i>Nephrology Dialysis Transplantation</i> , 2012 , 27, 310-7	4.3	5
3	Multi-level computational methods for interdisciplinary research in the HathiTrust Digital Library. <i>PLoS ONE</i> , 2017 , 12, e0184188	3.7	1
2	Mapping the intersection of science and philosophy 2013 ,		1
1	Neurological Disorders and Publication Abstracts Follow Elements of Social Network Patterns when Indexed Using Ontology Tree-Based Key Term Search. <i>Lecture Notes in Computer Science</i> , 2014 , 278-288	0.9
