#	Article	IF	Citations
1	First Evidence of H10N8 Avian Influenza Virus Infections among Feral Dogs in Live Poultry Markets in Guangdong Province, China. Clinical Infectious Diseases, 2014, 59, 748-750.	5.8	52
2	Pathogenicity and transmission of H5N1 avian influenza viruses in different birds. Veterinary Microbiology, 2014, 168, 50-59.	1.9	43
3	Epidemiological and evolutionary characteristics of the PRRSV in Southern China from 2010 to 2013. Microbial Pathogenesis, 2014, 75, 7-15.	2.9	24
4	H7N9 Avian Influenza Virus Is Efficiently Transmissible and Induces an Antibody Response in Chickens. Frontiers in Immunology, 2018, 9, 789.	4.8	22
5	Pathogenicity and Molecular Typing of Fowl Adenovirus-Associated With Hepatitis/Hydropericardium Syndrome in Central China (2015â€“2018). Frontiers in Veterinary Science, 2020, 7, 190.	2.2	21
6	Inhibition of porcine reproductive and respiratory syndrome virus by specific siRNA targeting Nsp9 gene. Infection, Genetics and Evolution, 2014, 28, 64-70.	2.3	20
7	New reassortant H5N8 highly pathogenic avian influenza virus from waterfowl in Southern China. Frontiers in Microbiology, 2015, 6, 1170.	3.5	20
8	New Reassortant H5N6 Highly Pathogenic Avian Influenza Viruses in Southern China, 2014. Frontiers in Microbiology, 2016, 7, 754.	3.5	19
9	Pathogenicity, Transmission and Antigenic Variation of H5N1 Highly Pathogenic Avian Influenza Viruses. Frontiers in Microbiology, 2016, 7, 635.	3.5	17
10	Phylogeny and homologous recombination in Chikungunya viruses. Infection, Genetics and Evolution, 2011, 11, 1957-1963.	2.3	16
11	A swine arterivirus deubiquitinase stabilizes two major envelope proteins and promotes production of viral progeny. PLoS Pathogens, 2021, 17, e1009403.	4.7	14
12	D701N mutation in the PB2 protein contributes to the pathogenicity of H5N1 avian influenza viruses but not transmissibility in guinea pigs. Frontiers in Microbiology, 2014, 5, 642.	3.5	10
13	Characterization and utility of phages bearing peptides with affinity to porcine reproductive and respiratory syndrome virus nsp7 protein. Journal of Virological Methods, 2015, 222, 231-241.	2.1	7
14	A Novel H1N2 Influenza Virus Related to the Classical and Human Influenza Viruses from Pigs in Southern China. Frontiers in Microbiology, 2016, 7, 1068.	3.5	6
15	Phylogeny, Pathogenicity, and Transmission of H5N1 Avian Influenza Viruses in Chickens. Frontiers in Cellular and Infection Microbiology, 2017, 7, 328.	3.9	6
16	Phages bearing specific peptides with affinity for porcine reproductive and respiratory syndrome virus GP4 protein prevent cell penetration of the virus. Veterinary Microbiology, 2018, 224, 43-49.	1.9	1
