

Farzaneh Modarresi

List of Publications by Citations

Source: <https://exaly.com/author-pdf/9937657/farzaneh-modarresi-publications-by-citations.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
10	Expression of a noncoding RNA is elevated in Alzheimers disease and drives rapid feed-forward regulation of beta-secretase. <i>Nature Medicine</i> , 2008 , 14, 723-30	50.5	1070
9	Inhibition of natural antisense transcripts in vivo results in gene-specific transcriptional upregulation. <i>Nature Biotechnology</i> , 2012 , 30, 453-9	44.5	476
8	Evidence for natural antisense transcript-mediated inhibition of microRNA function. <i>Genome Biology</i> , 2010 , 11, R56	18.3	375
7	A novel RNA transcript with antiapoptotic function is silenced in fragile X syndrome. <i>PLoS ONE</i> , 2008 , 3, e1486	3.7	145
6	Knockdown of BACE1-AS Nonprotein-Coding Transcript Modulates Beta-Amyloid-Related Hippocampal Neurogenesis. <i>International Journal of Alzheimer's Disease</i> , 2011 , 2011, 929042	3.7	97
5	Screening for Small-Molecule Modulators of Long Noncoding RNA-Protein Interactions Using AlphaScreen. <i>Journal of Biomolecular Screening</i> , 2015 , 20, 1132-41		62
4	Case reports of juvenile GM1 gangliosidosis type II caused by mutation in GLB1 gene. <i>BMC Medical Genetics</i> , 2017 , 18, 73	2.1	11
3	A case report of novel mutation in PRF1 gene, which causes familial autosomal recessive hemophagocytic lymphohistiocytosis. <i>BMC Medical Genetics</i> , 2017 , 18, 49	2.1	4
2	Splicing defect in FKBP10 gene causes autosomal recessive osteogenesis imperfecta disease: a case report. <i>BMC Medical Genetics</i> , 2018 , 19, 86	2.1	3
1	A novel knockout mouse model of the noncoding antisense () gene displays increased endogenous Bdnf protein and improved memory function following exercise. <i>Heliyon</i> , 2021 , 7, e07570	3.6
