|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Homelessness, unstable housing, and risk of HIV and hepatitis C virus acquisition among people who inject drugs: a systematic review and meta-analysis. <i>Lancet Public Health</i> , The, 2021, 6, e309-e323.                               | 4.7 | 99        |
| 2  | The health and social consequences during the initial period of the COVID-19 pandemic among current and former people who inject drugs: A rapid phone survey in Baltimore, Maryland. <i>Drug and Alcohol Dependence</i> , 2021, 221, 108584. | 1.6 | 42        |
| 3  | Incarceration and injection drug use in Baltimore, Maryland. <i>Addiction</i> , 2015, 110, 1152-1159.                                                                                                                                        | 1.7 | 41        |
| 4  | Dynamics of SEN Virus Infection among Injection Drug Users. <i>Journal of Infectious Diseases</i> , 2001, 184, 1315-1319.                                                                                                                    | 1.9 | 35        |
| 5  | Recent fentanyl use among people who inject drugs: Results from a rapid assessment in Baltimore, Maryland. <i>International Journal of Drug Policy</i> , 2019, 74, 41-46.                                                                    | 1.6 | 30        |
| 6  | Fatal overdose prevention and experience with naloxone: A cross-sectional study from a community-based cohort of people who inject drugs in Baltimore, Maryland. <i>PLoS ONE</i> , 2020, 15, e0230127.                                       | 1.1 | 23        |
| 7  | Reducing injection intensity is associated with decreased risk for invasive bacterial infection among high-frequency injection drug users. <i>Harm Reduction Journal</i> , 2019, 16, 38.                                                     | 1.3 | 20        |
| 8  | Mortality among people who inject drugs: a prospective cohort followed over three decades in Baltimore, MD, USA. <i>Addiction</i> , 2022, 117, 646-655.                                                                                      | 1.7 | 18        |
| 9  | Systemic Elevation of Proinflammatory Interleukin 18 in HIV/HCV Coinfection versus HIV or HCV Mono-infection. <i>Clinical Infectious Diseases</i> , 2017, 64, ciw771.                                                                        | 2.9 | 17        |
| 10 | Engagement in treatment for depression among people who inject drugs in Baltimore, Maryland. <i>Journal of Substance Abuse Treatment</i> , 2019, 106, 107-112.                                                                               | 1.5 | 16        |
| 11 | Increased Mortality Among Persons With Chronic Hepatitis C With Moderate or Severe Liver Disease: A Cohort Study. <i>Clinical Infectious Diseases</i> , 2017, 65, 235-243.                                                                   | 2.9 | 15        |
| 12 | Use of Hepatitis C Virus (HCV) Immunoglobulin G Antibody Avidity as a Biomarker to Estimate the Population-Level Incidence of HCV Infection. <i>Journal of Infectious Diseases</i> , 2016, 214, 344-352.                                     | 1.9 | 12        |
| 13 | Rising role of prescription drugs as a portal to injection drug use and associated mortality in Baltimore, Maryland. <i>PLoS ONE</i> , 2019, 14, e0213357.                                                                                   | 1.1 | 12        |
| 14 | Overlapping epidemics of alcohol and illicit drug use among HCV-infected persons who inject drugs. <i>Addictive Behaviors</i> , 2019, 96, 56-61.                                                                                             | 1.7 | 11        |
| 15 | Correlates of hepatitis C viral clustering among people who inject drugs in Baltimore. <i>Infection, Genetics and Evolution</i> , 2020, 77, 104078.                                                                                          | 1.0 | 11        |
| 16 | Impact of Hepatitis C Treatment Uptake on Cirrhosis and Mortality in Persons Who Inject Drugs. <i>Annals of Internal Medicine</i> , 2022, 175, 1083-1091.                                                                                    | 2.0 | 10        |
| 17 | Epigenome-wide association scan identifies methylation sites associated with HIV infection. <i>Epigenomics</i> , 2020, 12, 1917-1927.                                                                                                        | 1.0 | 7         |
| 18 | Durable HIV Suppression Among People Who Inject Drugs From a Community-Based Cohort Study in Baltimore, Maryland, 1997-2017. <i>American Journal of Epidemiology</i> , 2019, 188, 2086-2096.                                                 | 1.6 | 6         |

| #  | ARTICLE                                                                                                                                                                                                    | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Epigenome-wide association analyses of active injection drug use. <i>Drug and Alcohol Dependence</i> , 2022, 235, 109431.                                                                                  | 1.6 | 5         |
| 20 | Persistence of HIV transmission clusters among people who inject drugs. <i>Aids</i> , 2020, 34, 2037-2044.                                                                                                 | 1.0 | 4         |
| 21 | HIV/HCV Co-infection, Liver Disease Progression, and Age-Related IGF-1 Decline. <i>Pathogens and Immunity</i> , 2017, 2, 50.                                                                               | 1.4 | 4         |
| 22 | Trends in fatal and nonfatal overdose by race among people who inject drugs in Baltimore, Maryland from 1998 to 2019. <i>Drug and Alcohol Dependence</i> , 2021, 229, 109152.                              | 1.6 | 4         |
| 23 | Racial differences in $\beta$ expression on CD4+ T cells of HIV-negative men and women who inject drugs. <i>PLoS ONE</i> , 2020, 15, e0238234.                                                             | 1.1 | 3         |
| 24 | The association of $\beta$ expression with HIV acquisition and disease progression in people who inject drugs and men who have sex with men: Case control studies. <i>EBioMedicine</i> , 2020, 62, 103102. | 2.7 | 2         |
| 25 | Adverse childhood experiences and comorbidity in a cohort of people who have injected drugs. <i>BMC Public Health</i> , 2022, 22, 986.                                                                     | 1.2 | 1         |
