

CITATION REPORT

List of articles citing

Homolateral and contralateral masking of tinnitus by noise-bands and by pure tones

DOI: 10.3109/00206097109072551

International Journal of Audiology, 1971, 10, 138-44.

Source: <https://exaly.com/paper-pdf/10776039/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
