

Design, Synthesis, Molecular Docking and Biological Evaluation of
Antiproliferative Agents

Letters in Organic Chemistry

16, 837-845

DOI: 10.2174/1570178616666190408101233

Citation Report

| # | ARTICLE | IF | CITATIONS |
|---|---|-----|-----------|
| 1 | Design and Metal-Free Synthesis and Cytotoxicity Evaluation of 5Hchromeno[4,3-b]pyridine Derivatives as Anti-Proliferative Agents. Letters in Organic Chemistry, 2023, 20, 137-142. | 0.2 | 1 |
