

CITATION REPORT

List of articles citing

Increased Collagen Crosslinking in Stiff Clubfoot Tissue: Implications for the Improvement of Therapeutic Strategies

DOI: 10.3390/ijms222111903

International Journal of Molecular Sciences, 2021, 22, .

Source: <https://exaly.com/paper-pdf/120779856/citation-report.pdf>

Version: 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
4	The possible role of hypoxia in the affected tissue of relapsed clubfoot.. <i>Scientific Reports</i> , 2022 , 12, 4462.9	4.9	1
3	Screening for musculoskeletal system malformations and birth injuries in newborns: Results of a screening program in two hospitals in Shenzhen, China. <i>Pediatric Investigation</i> ,	1.3	
2	Tendon mechanical properties are enhanced via recombinant lysyl oxidase treatment. 10,		0
