1	Pain is one of the crucial issues of modern medicine. The high pain prevalence causes significant material and social losses. The main scientific and practical efforts are aimed at studying the issues of pain etiology, pathogenesis and therapy. As an effective measure to solve this problem, the idea of organizing a network of centers and clinics for the pain treatment was put forward. Purpose of the work: description of the structure of the organization of multidisciplinary clinics and pain treatment center. <i>Vestnik Nevrologii, Psichiatrii i Neirohirurgii</i> , 2022, 287-303	0.1	0
