Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
4	Short- and long-term effects of chronic toluene exposure on recognition memory in adolescent and adult male Wistar rats. 2022 , 190, 116-121		0
3	Changes in statistical learning across development. 2023 , 2, 205-219		0
2	No frills: Simple regularities in language can go a long way in the development of word knowledge.		0
1	Emotional information facilitates or disrupts memory integration through distinct hippocampal processes of reactivation and connectivity.		0
