

CITATION REPORT

List of articles citing

Performance of second-generation microbial protein used as aquaculture feed in relation to planetary boundaries

DOI: 10.1016/j.resconrec.2022.106158

Resources, Conservation and Recycling, 2022, 180, 106158.

Version: 2024-04-09

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
6	Microbial community-based production of single cell protein from soybean-processing wastewater of variable chemical composition.		0
5	Economic, technical, and environmental evaluation of retrofitting scenarios in a full-scale industrial wastewater treatment system. 2022 , 223, 118997		
4	Impact of recovered phosphorus supply on methanotrophic cultivation and microbial protein production. 2022 , 322, 115820		0
3	Short sludge age denitrification as alternative process for energy and nutrient recovery. 2022 , 366, 128184		0
2	Gas to protein: Microbial single cell protein is an alternative to fishmeal in aquaculture. 2023 , 859, 160141		1
1	Alternative sources of protein for food and feed. 2023 , 62, 101277		0
