

CITATION REPORT

List of articles citing

Gene signatures of circulating breast cancer cell models are a source of novel molecular determinants of metastasis and improve circulating tumor cell detection in patients.

DOI: 10.1186/s13046-022-02259-8

Journal of Experimental and Clinical Cancer Research, 2022, 41, 78.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
