

CITATION REPORT

List of articles citing

Influencing factors of carbon emissions and their trends in China and India: a machine learning method.

DOI: 10.1007/s11356-022-18711-3

Environmental Science and Pollution Research, 2022, , 1.

Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
6	The road to green development: How can carbon emission trading pilot policy contribute to carbon peak attainment and neutrality? Evidence from China. 13,		
5	Investigating global surface temperature from the perspectives of environmental, demographic, and economic indicators: current status and future temperature trend.		0
4	Development of an extended STIRPAT model to assess the driving factors of household carbon dioxide emissions in China. 2023 , 325, 116502		4
3	Prediction of Carbon Dioxide Emissions in China Using Shallow Learning with Cross Validation. 2022 , 15, 8642		2
2	Decision Tree-Based Ensemble Model for Predicting National Greenhouse Gas Emissions in Saudi Arabia. 2023 , 13, 3832		0
1	The effects of climate change on food production in India: evidence from the ARDL model.		0
