Version: 2024-04-09

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
4	Readiness to remember: predicting variability in episodic memory. <i>Trends in Cognitive Sciences</i> , 2022, 26, 707-723	14	0
3	Baseline pupil diameter does not correlate with fluid intelligence.		0
2	Testing locus coeruleus-norepinephrine accounts of working memory, attention control, and fluid intelligence.		0
1	Pupillometric evidence for a temporal expectations-based account of persistence under temporal uncertainty.		0
