

# Unusual XX/XY chimerism

Annals of Human Genetics

43, 89-96

DOI: [10.1111/j.1469-1809.1979.tb02000.x](https://doi.org/10.1111/j.1469-1809.1979.tb02000.x)

Citation Report

#	ARTICLE	IF	CITATIONS
1	Blood group A and B transferase levels in serum and red cells of human chimaeras. <i>Revue Française De Transfusion Et Immunohématologie</i> , 1980, 23, 531-544.	0.1	8
2	A study of immuno-genetic tracers in a pair of discordant twins with blood chimera. <i>Revue Française De Transfusion Et Immunohématologie</i> , 1981, 24, 9-17.	0.1	2
3	Blood Group Chimeras: A Review. <i>Vox Sanguinis</i> , 1983, 44, 333-359.	0.7	56
4	46,XX/46,XY chimerism in a phenotypically normal man. <i>Human Genetics</i> , 1983, 64, 86-89.	1.8	37
5	Blood Group Chimeras. <i>Vox Sanguinis</i> , 1983, 44, 333-359.	0.7	73
6	Discordant sex in one of three monozygotic triplets.. <i>Journal of Medical Genetics</i> , 1985, 22, 6-11.	1.5	58
7	Unravelling the biochemical basis of blood group ABO and Lewis antigenic specificity. , 2000, 17, 501-530.		73
8	Genetic epidemiology of glioma. <i>British Journal of Cancer</i> , 2001, 84, 429-434.	2.9	75
9	Embryogenesis of chimeras, twins and anterior midline asymmetries. <i>Human Reproduction</i> , 2006, 21, 579-591.	0.4	53
10	Traces of embryogenesis are the same in monozygotic and dizygotic twins: not compatible with double ovulation. <i>Human Reproduction</i> , 2009, 24, 1255-1266.	0.4	27
11	A review of the biology and classification of human chimeras. <i>Transfusion</i> , 2018, 58, 2054-2067.	0.8	4
