Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2325	References. 1955 , 231-266		
2324	Analysis of the statistical distribution of stress drops occurring during earthquakes. 1980 , 69, T9-T13		3
2323	A stochastic fault model: 1. Static case. <i>Journal of Geophysical Research</i> , 1980 , 85, 3867-3877		192
2322	The Montenegro, Yugoslavia, earthquake of April 15, 1979: source orientation and strength. 1981 , 27, 133-142		31
2321	Earthquake magnitude – recent research and current trends. 1981 , 17, 315-398		98
2320	Regional relationships among earthquake magnitude scales. 1981 , 19, 649		31
2319	Volcanism and aseismic slip in subduction zones. <i>Journal of Geophysical Research</i> , 1981 , 86, 335		15
2318	Seismic energy release of the Moon. <i>Journal of Geophysical Research</i> , 1981 , 86, 378		51
2317	An interpretation of episodic slip on the Calaveras Fault near Hollister, California. <i>Journal of Geophysical Research</i> , 1981 , 86, 4941-4948		18
2316	Quantitative relations of seismic source parameters and a classification of earthquakes. 1982 , 84, 57-128		89
2315	The Oroville Earthquakes: A study of source characteristics and site effects. <i>Journal of Geophysical Research</i> , 1982 , 87, 4585-4594		31
2314	A comparison between the tectonic stress measured in situ and stress parameters from induced seismicity at Monticello Reservoir, South Carolina. <i>Journal of Geophysical Research</i> , 1982 , 87, 6931-6944		54
2313	Microearthquakes in the Black Smoker Hydrothermal Field, East Pacific Rise at 21°N. <i>Journal of Geophysical Research</i> , 1982 , 87, 10613-10623		57
2312	Optimal estimation of scalar seismic moment. 1982 , 70, 755-787		104
2311	Continental fault structure and the shallow earthquake source. 1983 , 140, 741-767		414
2310	Magnitude scale and quantification of earthquakes. 1983 , 93, 185-199		212
2309	Empirical magnitude and spectral scaling relations for mid-plate and plate-margin earthquakes. 1983 , 93, 207-223		25

2308	Accurate source depths and focal mechanisms of shallow earthquakes in western South America and in the New Hebrides Island Arc. 1983 , 2, 529-563	149
2307	An explanation for contradictory geodetic strain and fault plane solution data in western North America. 1983 , 10, 177-180	14
2306	Strong-motion seismology. 1983 , 21, 1308	12
2305	Seismicity, fault plane solutions, depth of faulting, and active tectonics of the Andes of Peru, Ecuador, and southern Colombia. <i>Journal of Geophysical Research</i> , 1983 , 88, 10403-10428	178
2304	Total-moment spectra of fourteen large earthquakes. <i>Journal of Geophysical Research</i> , 1983 , 88, 3273	100
2303	The 1979 Homestead Valley Earthquake Sequence, California: Control of aftershocks and postseismic deformation. <i>Journal of Geophysical Research</i> , 1983 , 88, 6477	202
2302	Earthquake frequency distribution and the mechanics of faulting. <i>Journal of Geophysical Research</i> , 1983 , 88, 9331-9340	130
2301	The 1984 morgan hill, california, earthquake. 1984 , 225, 288-91	41
2300	Utilization of geophysical information in Bayesian seismic hazard model. 1984 , 3, 103-111	7
2299	Simulations of strong ground motion for earthquakes in the Mexicali--Imperial Valley region. 1984 , 79, 747-771	21
2298	Scaling of ground motion parameters, state of stress, and focal depth. <i>Journal of Geophysical Research</i> , 1984 , 89, 6969-6979	109
2297	Regional deformation of the earth model for the Los Angeles region, California. 1984 , 107, 279-314	7
2296	Moment-magnitude relations in theory and practice. <i>Journal of Geophysical Research</i> , 1984 , 89, 6229-6235	151
2295	"Probabilities of occurrence of large plate rupturing earthquakes for the San Andreas, San Jacinto, and Imperial faults, California, 1983-2003". <i>Journal of Geophysical Research</i> , 1984 , 89, 5905-5927	133
2294	Planar high-angle faulting in the basin and range: Geodetic analysis of the 1983 Borah Peak, Idaho, earthquake. <i>Journal of Geophysical Research</i> , 1985 , 90, 11355	141
2293	RMS acceleration hazard for San Francisco. 1985 , 4, 106-123	5
2292	A renormalization group approach to the stick-slip behavior of faults. <i>Journal of Geophysical Research</i> , 1985 , 90, 1894	139
2291	Teleseismic estimates of the energy radiated by shallow earthquakes. <i>Journal of Geophysical Research</i> , 1986 , 91, 2095	132

2290	Patterns of seismicity associated with asperities in the Central New Hebrides Island Arc. <i>Journal of Geophysical Research</i> , 1986 , 91, 12497-12519	12
2289	Earthquake processes in the Rainbow Mountain-Fairview Peak-Dixie Valley, Nevada, region 1954-1959. <i>Journal of Geophysical Research</i> , 1986 , 91, 12572-12586	81
2288	Earthquakes, quaternary faults, and seismic hazard in California. <i>Journal of Geophysical Research</i> , 1986 , 91, 12587-12631	182
2287	Readjustment of leveling networks to account for vertical coseismic motions. 1986 , 130, 195-212	4
2286	An index for measuring the effects of topography on seismic ground motion intensity. 1986 , 14, 719-731	4
2285	Development of differential response spectra for lifeline seismic analysis. 1986 , 1, 208-218	14
2284	Estimating ground motions using recorded accelerograms. 1986 , 8, 25-83	91
2283	The March 2, 1987, earthquake near Edgecumbe, North Island, New Zealand. 1987 , 68, 1162	16
2282	Modeling the Pnl waveforms of the Fairview Peak-Dixie Valley, Nevada, U.S.A. earthquake sequence (1954-1959). 1987 , 48, 64-72	13
2281	The digital array at Anza, California: Processing and initial interpretation of source parameters. <i>Journal of Geophysical Research</i> , 1987 , 92, 369	33
2280	Magnitude-frequency relation for small earthquakes: A clue to the origin of the β max of large earthquakes. <i>Journal of Geophysical Research</i> , 1987 , 92, 1349	126
2279	Earthquake deformation cycle on the San Andreas Fault near Parkfield, California. <i>Journal of Geophysical Research</i> , 1987 , 92, 10511-10525	105
2278	The Ancash, Peru, earthquake of 1946 November 10: evidence for low-angle normal faulting in the high Andes of northern Peru. 1987 , 91, 57-71	38
2277	Analytical approach to calculation of response spectra from seismological models of ground motion. 1988 , 16, 121-134	13
2276	A simple model for strong ground motions and response spectra. 1988 , 16, 203-215	4
2275	Engineering seismology: Part II. 1988 , 17, 51-105	34
2274	Earthquake magnitude or seismic moment in seismic hazard evaluation?. 1988 , 127, 21-31	1
2273	Seismic source mechanisms and ground motion models. 1988 , 3, 64-74	11

- 2272 Geodetic evidence of the seismic potential at Parkfield, California. **1988**, 15, 820-823 9
- 2271 Slip distribution of the 1985 Central Chile earthquake. **1988**, 145, 225-241 45
- 2270 Frequency distribution and quantification of deep earthquakes. *Journal of Geophysical Research*, **1988**, 93, 2095 36
- 2269 Seismic constraints on the morphology of deep slabs. *Journal of Geophysical Research*, **1988**, 93, 4773-4783 64

- 2267 Measurements of coseismic deformation in southern California: 1972-1982. *Journal of Geophysical Research*, **1988**, 93, 7923 49
- 2266 Dynamics of liquefaction during the 1987 superstition hills, california, earthquake. **1989**, 244, 56-9 145
- 2265 Earthquake faulting as a structural process. **1989**, 11, 1-14 358
- 2264 Response of base-isolated buildings to random excitations described by the Clough-Penzien spectral model. **1989**, 18, 49-62 32
- 2263 Analysis of exceptionally large tremors in two gold mining districts of South Africa. **1989**, 129, 295-307 31
- 2262 Subduction and back-arc activity at the Hikurangi convergent Margin, New Zealand. **1989**, 129, 203-231 66
- 2261 Assessment of earthquake hazard in Panama based on seismotectonic regionalization. **1989**, 2, 115-131 2
- 2260 Three recent larger earthquakes offshore Norway. **1989**, 1, 284-295 30
- 2259 Seismological and field observations of the 1984 Lazio-Abruzzo earthquakes: implications for the active tectonics of Italy. **1989**, 98, 489-514 71
- 2258 Strong ground motion in normal-faulting earthquakes. **1989**, 96, 529-559 20
- 2257 Holocene paleoseismicity in the fold and thrust belt of the Hikurangi subduction zone, eastern North Island, New Zealand. **1989**, 163, 185-195 102
- 2256 The Seismicity of "Stable Continental Interiors" **1989**, 299-327 64
- 2255 A fractal approach to probabilistic seismic hazard assessment. **1989**, 167, 171-177 43

2254	Probabilistic assessment of earthquake hazard in Israel. 1989 , 167, 223-233	14
2253	Scaling law and its applications to earthquake statistical relations. 1989 , 166, 53-72	31
2252	Normal faulting through subducted oceanic crust: the 19 July 1985 earthquake of Hawke's Bay, New Zealand. 1989 , 162, 303-313	11
2251	Source parameters of selected earthquakes on the central and western margin of Afar. 1989 , 170, 243-257	6
2250	Seismic and volcanic activities and aseismic movements as plate motion components in the Aegean area. 1989 , 167, 31-39	21
2249	Quantitative Ground-Motion Estimates. 1989 , 558, 81-94	2
2248	Dislocation modelling of the 1987 Edgecumbe earthquake, New Zealand. 1989 , 32, 115-122	22
2247	Extensional tectonics in northern Utah-southern Idaho, U.S.A., and the 1934 Hansel Valley sequence. 1989 , 54, 120-134	10
2246	Quantification of the fracturing of the slab using a fractal approach. 1989 , 94, 97-108	8
2245	The Irpinia (Italy) 1980 earthquake: Detailed analysis of a complex normal faulting. <i>Journal of Geophysical Research</i> , 1989 , 94, 1631	167
2244	Deformation of the Long Valley Caldera, eastern California from mid-1983 to mid-1988: Measurements using a two-color geodimeter. <i>Journal of Geophysical Research</i> , 1989 , 94, 3833-3849	39
2243	Evidence for the variation of stress drop between normal and thrust faulting earthquakes in Italy. <i>Journal of Geophysical Research</i> , 1989 , 94, 9399	45
2242	A cross section of the Los Angeles Area: Seismically active fold and thrust belt, The 1987 Whittier Narrows earthquake, and earthquake hazard. <i>Journal of Geophysical Research</i> , 1989 , 94, 9644	115
2241	Seismic strain rates in regions of distributed continental deformation. <i>Journal of Geophysical Research</i> , 1989 , 94, 10231-10257	156
2240	Derivation of the complete Gutenberg-Richter magnitude-frequency relation using the principle of scale invariance. <i>Journal of Geophysical Research</i> , 1989 , 94, 12337	128
2239	An analytical model for far-field response spectra with soil amplification effects. 1990 , 12, 263-268	11
2238	Uniform magnitude re-evaluation of European earthquakes associated with strong-motion records. 1990 , 19, 1-20	45
2237	Non-stationary structural response with evolutionary spectra using seismological input model. 1990 , 19, 275-288	34

2236	Lower bound earthquake magnitude for probabilistic seismic hazard evaluation. 1990 , 123, 143-153	4
2235	Forecasting damaging earthquakes in the central and eastern United States. 1990 , 249, 1412-6	14
2234	Deflection of oceanic transform motion at a continental margin as deduced from waveform inversion of the 1939 Accra, Ghana earthquake. 1990 , 172, 341-349	19
2233	A detailed analysis of the Strazhitza (Bulgaria) seismic sequences of 1986: location, focal mechanism and regional stress tensor. 1990 , 172, 121-134	7
2232	Seismicity of the Aegean and surrounding area. 1990 , 178, 287-308	174
2231	Active deformation and seismic potential in the serbomacedonian zone, northern Greece. 1990 , 179, 1-9	14
2230	The Tripoli, Libya, Earthquake of September 4, 1974: Implications for the active tectonics of the central Mediterranean. 1990 , 9, 231-248	24
2229	Seismicity and tectonic deformation rate in Soviet Armenia: Implications for local earthquake hazard and evolution of adjacent regions. 1990 , 9, 477-503	37
2228	Spectral source parameters for three earthquakes in the southern Red Sea. 1990 , 59, 288-293	1
2227	Present-day kinematics of the plate boundary zone between Africa and Europe, from the Azores to the Aegean. 1990 , 96, 393-406	91
2226	Seismic recurrence intervals and timing of aseismic subduction inferred from emerged corals and reefs of the Central Vanuatu (New Hebrides) Frontal Arc. <i>Journal of Geophysical Research</i> , 1990 , 95, 393	48
2225	Searching for slow and silent earthquakes using free oscillations. <i>Journal of Geophysical Research</i> , 1990 , 95, 2485	110
2224	Normal faulting in a back arc basin: Geological and geodetic characteristics of the 1987 Edgecumbe Earthquake, New Zealand. <i>Journal of Geophysical Research</i> , 1990 , 95, 4693	41
2223	Faulting mechanism and complexity of the November 23, 1980, Campania-Lucania Earthquake, inferred from surface observations. <i>Journal of Geophysical Research</i> , 1990 , 95, 15319	165
2222	Block rotation in western Turkey: 1. Observational evidence. <i>Journal of Geophysical Research</i> , 1990 , 95, 19857	77
2221	Comparison of ground motion from tremors and explosions in deep gold mines. <i>Journal of Geophysical Research</i> , 1990 , 95, 21777	9
2220	Source parameters of earthquakes in and around the Korean Peninsula deduced from spectral analysis. 1991 , 65, 255-266	6
2219	Source mechanism of the 1987 Vatnafjall Earthquake in south Iceland. <i>Journal of Geophysical Research</i> , 1991 , 96, 4313-4324	23

2218	The 1988 and 1990 upland earthquakes: Left-lateral faulting adjacent to the central transverse ranges. <i>Journal of Geophysical Research</i> , 1991 , 96, 8143	19
2217	A tilt and seismicity episode in the New Hebrides (Vanuatu) Island Arc. <i>Journal of Geophysical Research</i> , 1991 , 96, 16535	6
2216	Observations constraining near-source ground motion estimated from locally recorded seismograms. <i>Journal of Geophysical Research</i> , 1991 , 96, 16495	34
2215	Surficial offsets on the Central and Eastern Garlock Fault associated with prehistoric earthquakes. <i>Journal of Geophysical Research</i> , 1991 , 96, 21597-21621	86
2214	Source time functions of large Mexican subduction earthquakes, morphology of the Benioff Zone, age of the plate, and their tectonic implications. <i>Journal of Geophysical Research</i> , 1991 , 96, 21487-21502	57
2213	Strike-slip faulting in continental rifts: examples from Sabukia, East Africa (1928), and other regions. 1991 , 197, 213-224	20
2212	Palaeoseismology: review of the state-of-the-art. 1991 , 193, 9-32	64
2211	Faulting within the western Baikal rift as characterized by earthquake studies. 1991 , 196, 87-107	58
2210	Faulting within the eastern Baikal rift as characterized by earthquake studies. 1991 , 196, 109-139	48
2209	Strong Motion Seismology. 1991 , 29, 700-720	17
2208	Historical surface faulting in the Basin and Range province, western North America: implications for fault segmentation. 1991 , 13, 123-136	159
2207	The Wasatch fault zone, Utah—segmentation and history of Holocene earthquakes. 1991 , 13, 137-149	182
2206	Segmentation and the coseismic behavior of Basin and Range normal faults: examples from east-central Idaho and southwestern Montana, U.S.A.. 1991 , 13, 151-164	115
2205	Deep borehole log evidence for fractal distribution of fractures in crystalline rock. 1991 , 107, 615-627	76
2204	Microseismicity and structure of the Germencik area, western Turkey. 1991 , 106, 293-300	7
2203	Magnitude reassessment of New Zealand earthquakes. 1991 , 20, 577-596	17
2202	The attenuation of ground accelerations in Europe. 1991 , 20, 1179-1202	100
2201	Scale invariance for a heterogeneous fault model. 1991 , 137, 85-94	2

2200	Intermagnitude relationships and asperity statistics. 1991 , 136, 515-527	17
2199	Small earthquakes, tectonic forces. 1992 , 256, 1430-2	54
2198	Changes in state of stress on the southern san andreas fault resulting from the california earthquake sequence of april to june 1992. 1992 , 258, 1325-8	115
2197	Seismicity and geometry of a 110-km-long blind thrust fault 1. The 1985 Kettleman Hills, California, earthquake. <i>Journal of Geophysical Research</i> , 1992 , 97, 4843	89
2196	Variation of seismic slip in the Gulf of California and the possible effect on geodetic measurements of Pacific-North American Plate motion. <i>Journal of Geophysical Research</i> , 1992 , 97, 4903	3
2195	Earthquake focal mechanisms, moment tensors, and the consistency of seismic activity near plate boundaries. 1992 , 11, 279-296	119
2194	Strike-slip earthquakes on quasi-vertical transcurrent faults: Inferences for general scaling relations. 1992 , 19, 481-484	106
2193	Evidence for anomalous earthquake size distributions in regions of minimal strain. 1992 , 19, 1499-1502	4
2192	Seismic moment summation for historical earthquakes in Italy: Tectonic implications. <i>Journal of Geophysical Research</i> , 1992 , 97, 15437	114

940 Preface. **2019**, ix-xiii

939 Introduction. **2019**, 1-16

938 Engineering Seismology. **2019**, 17-56

937 Basics of Random Processes and Structural Dynamics. **2019**, 57-114

936 Seismic Response Spectra. **2019**, 115-152

935 Seismic Hazard Analysis. **2019**, 153-229

934 Ground Motions for Seismic Analysis. **2019**, 230-282

933 Modelling of Structures. **2019**, 283-327

932 Floor Response Spectra. **2019**, 328-409

931 Seismic Fragility Analysis. **2019**, 410-516

930 Seismic Probabilistic Safety Assessment. **2019**, 517-561

929 Basics of Normal and Lognormal Distributions. **2019**, 562-567

928 Digital Signal Processing. **2019**, 568-594

927 Bibliography. **2019**, 595-608

926 Index. **2019**, 609-612

925 Breakdown of Earthquake Self-Similar Scaling and Source Rupture Directivity in the 2016-2017 Central Italy Seismic Sequence. **2019**, 124, 3898-3917 8

924 Probabilistic seismic hazard assessment for national planning and development in Nigeria. **2019**, 126, 46-55 5

923 Seismicity-Scanning Based on Navigated Automatic Phase-Picking. **2019**, 124, 3802-3818 7

922	Evaluating the Association Between Tectonic Tremors and Earthquakes in Taiwan From 7 Years Catalogs. 2019 , 124, 3950-3965	4
921	Source Parameters and Scaling Relations of Local Earthquakes from a Strong Motion Network in Izmir, Western Turkey. 2019 , 176, 3391-3409	0
920	Earthquakes track subduction fluids from slab source to mantle wedge sink. 2019 , 5, eaav7369	37
919	Characteristics of the microseismicity resulting from the construction of a deeply-buried shaft. 2019 , 85, 114-127	9
918	Illuminating Faulting Complexity of the 2017 Yellowstone Maple Creek Earthquake Swarm. 2019 , 46, 2544-2552	13
917	Fast and accurate determination of earthquake moment, rupture length and stress release for the 2016-2017 Central Italy seismic sequence. 2019 , 217, 1425-1432	5
916	Mechanisms and Influence of Casing Shear Deformation near the Casing Shoe, Based on MFC Surveys during Multistage Fracturing in Shale Gas Wells in Canada. 2019 , 12, 372	11
915	What Do Earthquake Magnitudes Mean? Example of the Kaikōura, New Zealand, 2016 Event. 2019 , 5, 57-64	1
914	Spatial variations of rock damage production by earthquakes in southern California. 2019 , 512, 184-193	21
913	Considering the impacts of simultaneous perils. 2019 , 28, 823-837	4
912	Is bedding-plane slip a common microseismic source during hydraulic fracturing?. 2019 ,	1
911	A non-uniform dip slip formula to calculate the coseismic deformation: Case study of Tohoku Mw9.0 Earthquake. 2019 , 11, 1014-1024	0
910	Variable normal-fault rupture behavior, northern Lost River fault zone, Idaho, USA. 2019 , 15, 1869-1892	12
909	Evaluation of The Seismic Hazard in The Marmara Region (Turkey) Based on Updated Databases. 2019 , 9, 489	4
908	Probabilistic Seismic Hazard Analysis Based Zoning Map of Pakistan. 2019 , 1-36	1
907	Universality of power-law exponents by means of maximum-likelihood estimation. 2019 , 100, 062106	4
906	Simulating the near-fault large velocity pulses of the Chi-Chi (Mw7.6) earthquake with kinematic model. 2019 , 23, 25-38	8
905	Numerical Geomechanics Studies of Geological Carbon Storage (GCS). 2019 , 237-252	0

904	Surface rupture and slip distribution along the Lenglongling fault in the NE Tibetan Plateau: Implications for faulting behavior. 2019 , 172, 190-207	11
903	Attenuation of Fourier amplitude and pseudo relative velocity spectra due to local earthquakes in the national capital region of India. 2019 , 116, 593-611	0
902	Seismic Evidence of an Early Afterslip During the 2012 Sequence in Emilia (Italy). 2019 , 46, 625-635	3
901	Seismotectonics. 2019 , 278-336	
900	Earthquake prediction and hazard analysis. 2019 , 337-380	1
899	Preface to the first edition. 2019 , xi-xiv	
898	Preface to the second edition. 2019 , xv-xvi	
897	Preface to the third edition. 2019 , xvii-xviii	
896	Brittle fracture of rock. 2019 , 1-42	
895	Rock friction. 2019 , 43-96	2
894	Mechanics of earthquakes. 2019 , 166-227	1
893	The seismic cycle. 2019 , 228-277	1
892	References. 2019 , 381-486	1
891	Index. 2019 , 487-494	
890	Mechanics of faulting. 2019 , 97-165	3
889	Seismic hazard parameter estimation of the Mount Cameroon volcanic region (Cameroon) based on a combination of mixed catalogs. 2019 , 96, 369-388	2
888	Empirical evaluation of the magnitude-independence assumption. 2019 , 216, 820-839	8
887	Numerical simulation of reservoir stimulation with reference to the Newberry EGS. 2019 , 77, 327-343	25
