Version: 2024-04-05

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

- 7 Significant methane undersaturation during austral summer in the Ross Sea (Southern Ocean). **2023**, 8, 305-312 ○
- 6 Dissolved Methane Transport in the Tatar Strait and the Deepest Basin of the Japan (East) Sea from Its Possible Sources. **2023**, 15, 821 ○
- 5 Effects of tidal cycle on greenhouse gases emissions from a tropical estuary. **2023**, 189, 114733 ○
- 4 Microbial methane cycling in sediments of Arctic thermokarst lagoons. **2023**, 29, 2714-2731 ○
- 3 High carbon emissions from thermokarst lakes and their determinants in the Tibet Plateau. **2023**, 29, 2732-2745 ○
- 2 Seasonality of methane and carbon dioxide emissions in tropical seagrass and unvegetated ecosystems. **2023**, 4, ○
- 1 Carbon monoxide (CO) cycling in the Fram Strait, Arctic Ocean. **2023**, 20, 1371-1379 ○
