Version: 2024-04-19

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
3	The impact of environment on genetic and epigenetic variation in <i>Trifolium pratense</i> populations from two contrasting semi-natural grasslands. <i>Royal Society Open Science</i> , 2022, 9,	3.3	0
2	Epigenetic variation: A major player in facilitating plant fitness under changing environmental conditions. 10,		0
1	Inter- and intraspecific phytochemical variation correlate with epiphytic flower and leaf bacterial communities.		0
