

CITATION REPORT

List of articles citing

The estimation of late fetal and perinatal age from limb bone length by linear and logarithmic regression

DOI: 10.1080/03014468000004301

Annals of Human Biology, 1980, 7, 257-65.

Version: 2024-04-17

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
