Global analysis of timely COVID-19 vaccinations: improving governance to reinforce response policies for pandemic crises

DOI: 10.1108/ijhg-07-2021-0072

International Journal of Health Governance, 2022, ahead-of-print, .

Source: <https://exaly.com/paper-pdf/146165912/citation-report.pdf>

Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
29	Improving preparedness for next pandemics: Max level of COVID-19 vaccinations without social impositions to design effective health policy and avoid flawed democracies. <i>Environmental Research</i> , 2022 , 113566	7.9	4
