**Version:** 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
7	Microbial composition of egg component and its association with hatchability of laying hens. 13,		0
6	Exploring the effect of the microbiota on the production of duck striped eggs. <b>2022</b> , 102436		0
5	Effect of benzoic acid, <i>Enterococcus faecium</i> and essential oil complex on intestinal microbiota of laying hens under coccidia and <i>Clostridium perfringens</i> challenge. <b>2023</b> , 102490		0
4	Alterations in hepatic transcriptome and cecum microbiota underlying potential ways to prevent early fatty liver in laying hens. <b>2023</b> , 102, 102593		0
3	Mechanism Determination on the Interactive Effects between Host Immunity and Gut Microbiome to Resist Consecutive Hydrogen Sulfide Inhalation of Laying Hens. <b>2023</b> , 102694		0
2	Rosemary extract improves egg quality by altering gut barrier function, intestinal microbiota, and oviductal gene expressions in late-phase laying hens.		0
1	Optimizing the scale-up production of fermented astragalus and its benefits to the performance and egg quality of laying hens. 14,		0
