

# CITATION REPORT

List of articles citing

**Characterization of oral and gut microbiome and plasma metabolomics in COVID-19 patients after 1-year follow-up**

**DOI: 10.1186/s40779-022-00387-y**  
**Military Medical Research, 2022, 9, .**

**Source:** <https://exaly.com/paper-pdf/148483708/citation-report.pdf>

**Version:** 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
4	Oropharyngeal microbiome profiled at admission is predictive of the need for respiratory support among COVID-19 patients. 13,		0
3	Roux-en-Y gastric bypass-induced perturbative changes in microbial communities and metabolic pathways in rats. 13,		0
2	Determination of global chemical patterns in exhaled breath for the discrimination of lung damage in postCOVID patients using olfactory technology. <b>2023</b> , 256, 124299		1
1	Gut microbiota in COVID-19: new insights from inside. <b>2023</b> , 15,		0
