Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
3	Biocontrol impacts on wheat physiology and Fusarium head blight outcomes are bacterial endophyte strain- and cultivar specific.		0
2	Composition and diversity of root-inhabiting bacterial microbiota in the perennial sweet sorghum cultivar at the maturing stage.		0
1	Legacy effects of precipitation and land use impact maize growth and microbiome assembly under drought stress.		0
