

# CITATION REPORT

List of articles citing

## Multimorbidity

DOI: 10.1038/s41572-022-00376-4

Nature Reviews Disease Primers, 2022, 8, .

**Source:** <https://exaly.com/paper-pdf/149117510/citation-report.pdf>

**Version:** 2024-04-03

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
38	NeuroImmune Interactions in Severe COVID-19 Infection. <b>2022</b> , 11, 1256		1
37	Objectively measured physical activity levels and adherence to physical activity guidelines in people with multimorbidity: A systematic review and meta-analysis. <b>2022</b> , 17, e0274846		1
36	Age, sex, and socioeconomic differences in multimorbidity measured in four ways: UK primary care cross-sectional analysis. BJGP.2022.0405		0
35	Persistent pain and long-term physical and mental conditions and their association with psychological well-being; data from 10,744 individuals from the Lolland-Falster health study. <b>2022</b> , 12, 263355652211287		0
34	Association between household air pollution from solid fuel use and risk of chronic diseases and their multimorbidity among Chinese adults. <b>2022</b> , 107635		0
33	Editorial: Multimorbidity in the context of neurodegenerative disorders. 16,		0
32	Assessment of The Level of Illness Perception Regarding General Health And Severity Of Disease Among Patients With Chronic Obstructive Pulmonary Disease. 41-45		0
31	Personalised exercise therapy and self-management support for people with multimorbidity: Development of the MOBILIZE intervention. <b>2022</b> , 8,		1
30	EXPLORING HUMAN BIOLOGY WITH N-OF-1 CLINICAL TRIALS. 1-33		0
29	Personalised exercise therapy and self-management support for people with multimorbidity: feasibility of the MOBILIZE intervention. <b>2023</b> , 9,		1
28	How much disease-risk is due to old age and established risk factors?.		0
27	Multi-response Mendelian randomization: Identification of shared and distinct exposures for multimorbidity and multiple related disease outcomes.		0
26	Integrated care for older multimorbid heart failure patients: protocol for the ESCAPE randomized trial and cohort study.		0
25	Interventions and management on multimorbidity: An overview of systematic reviews. <b>2023</b> , 87, 101901		0
24	Rationale and study design of the GOREISAN for heart failure (GOREISAN-HF) trial: A randomized clinical trial. <b>2023</b> , 260, 18-25		0
23	Study protocol for a multicenter randomized controlled trial of personalized exercise therapy and self-management support for people with multimorbidity: The MOBILIZE study. <b>2023</b> , 13, 263355652311544		0
22	Multifactorial glial responses and their contributions to Alzheimer's disease continuum.		0
