

CITATION REPORT

List of articles citing

Investigation and analysis of effective approaches, opportunities, bottlenecks and future potential capabilities for digitalization of energy systems and sustainable development goals

DOI: 10.1016/j.epsr.2022.108251

Electric Power Systems Research, 2022, 211, 108251.

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
