**Version:** 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
3	Performance characteristics of a waste-heat recovery water-source heat pump system designed for data centers and residential area in the heating dominated region. <b>2022</b> , 62, 105416		1
2	Multicomponent numerical model for heat pump control with low-temperature heat storage: A benchmark in the conditions of Central Europe. <b>2023</b> , 66, 105829		0
1	A method for sizing air source heat pump considering the joint effect of outdoor air temperature and relative humidity. <b>2023</b> , 65, 105815		0
