**Version:** 2024-04-17

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
12	Aroma-active compounds related to Maillard reaction during roasting in Wuyi Rock tea. <b>2023</b> , 115, 104954		0
11	Variation in Volatile Compounds of Raw Pu-Erh Tea upon Steeping Process by Gas Chromatography-Ion Mobility Spectrometry and Characterization of the Aroma-Active Compounds in Tea Infusion Using Gas Chromatography-Olfactometry/Mass Spectrometry. <b>2022</b> , 70, 13741-13753		0
10	Identification of characteristic aroma and bacteria related to aroma evolution during long-term storage of compressed white tea. 9,		0
9	Insights into Characteristic Volatiles in Wuyi Rock Teas with Different Cultivars by Chemometrics and Gas Chromatography Olfactometry/Mass Spectrometry. <b>2022</b> , 11, 4109		0
8	Comparative study of the volatile fingerprints of roasted and unroasted oolong tea by sensory profiling and HS-SPME-GC-MS. <b>2023</b> , 6, 100442		0
7	Insights into the Key Odorants in Large-Leaf Yellow Tea ( <i>Camellia sinensis</i> ) by Application of the Sensomics Approach. <b>2023</b> , 71, 690-699		1
6	Formation Mechanism of Di-N-ethyl-2-pyrrolidinone-Substituted Epigallocatechin Gallate during High-Temperature Roasting of Tea.		0
5	Combining gas chromatography-ion mobility spectrometry and olfactory analysis to reveal the effect of filled-N <sub>2</sub> anaerobic treatment duration on variation in the volatile profiles of gabaron green tea. <b>2023</b> , 179, 114630		0
4	Characterization of aroma differences on three drying treatments in Rucheng Baimao ( <i>Camellia pubescens</i> ) white tea. <b>2023</b> , 179, 114659		0
3	Effects of leaf-spreading on the volatile aroma components of green tea under red light of different intensities. <b>2023</b> , 168, 112759		0
2	Sensomics-Assisted Characterization of Key Flowery Aroma Compounds in Luñ Guapian Green Tea Infusion ( <i>Camellia sinensis</i> ).		0
1	Contribution of theanine to the temperature induced changes in aroma profile in Wuyi rock tea. <b>2023</b> , 112860		0
