Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2	Numerical analysis of the combination of radiative collectors and emitters to improve the performance of water-water compression heat pumps under different climates. 2023 , 266, 126445		0
1	Machine learning applications for photovoltaic system optimization in zero green energy buildings. 2023 , 9, 2787-2796		1
