

CITATION REPORT

List of articles citing

Enkephalins as immunomodulators

DOI: 10.1016/0192-0561(83)90020-6

International Journal of Immunopharmacology, 1983,
5, 437-41.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
159	Evidence for the activation of the endogenous opiate system in hamsters infected with human blood flukes, <i>Schistosoma mansoni</i> . <i>Life Sciences</i> , 1984 , 35, 2365-73	6.8	19
158	Duration of opiate receptor blockade determines tumorigenic response in mice with neuroblastoma: a role for endogenous opioid systems in cancer. <i>Life Sciences</i> , 1984 , 35, 409-16	6.8	72
157	Neuroimmunomodulation with enkephalins: effects on thymus and spleen weights in mice. 1984 , 32, 52-6		17
156	Neuroimmunomodulation with enkephalins: enhancement of human natural killer (NK) cell activity in vitro. 1984 , 31, 412-8		125
155	Enkephalins--enhancement of active T-cell rosettes from normal volunteers. 1984 , 31, 132-7		51
154	Met-enkephalin induced alterations of macrophage functions. 1984 , 21, 747-50		70
153	Opioid peptides have actions on the immune system. 1984 , 7, 234-235		31
152	Small cell carcinoma of the lung: macrophage-specific antigens suggest hemopoietic stem cell origin. 1984 , 225, 1034-6		92
151	Mechanisms of leu-enkephalin hydrolysis in human plasma. 1985 , 10, 1393-404		33
150	The mechanism of antibody-dependent cellular cytotoxicity stimulation by somatostatin in rat peritoneal macrophages. 1985 , 90, 217-25		32
149	Changes in brain serotonin levels affect leukocytes, lymphocytes, T-cell subpopulations and natural killer cell activity in rats. 1985 , 62, 277-82		19
148	Chemistry of immunomodulators. 1985 , 8, 171-85		2
147	Neuroendocrine peptide hormones and their receptors in the immune system. Production, processing and action. <i>Journal of Neuroimmunology</i> , 1985 , 10, 31-40	3.5	108
146	Enkephalins and endorphins: activation molecules for the immune system and natural killer activity?. 1985 , 5, 371-4		32
145	The pituitary-adrenocortical axis and the immune system. 1985 , 14, 1021-38		42
144	beta-Funaltrexamine (beta-FNA) and neural tumor response in mice. 1985 , 116, 165-9		12
143	Stereospecific modulation of tumorigenicity by opioid antagonists. 1985 , 113, 115-20		30

142	Total leukocytes, T cell subpopulation and natural killer (NK) cell activity in rats exposed to restraint stress. <i>Life Sciences</i> , 1986 , 38, 2419-27	6.8	34
141	Bidirectional effect of met-enkephalin on macrophage effector functions. 1986 , 69, 127-37		53
140	Immunostimulating property of aspartic acid. 1986 , 102, 1113-1115		
139	A review of immunomodulators and their application in veterinary medicine. 1986 , 9, 119-39		24
138	Endorphins: A Link Between Personality, Stress, Emotions, Immunity, and Disease ?. 1986 , 129-144		7
137	Effects of dynorphin on the PHA-induced lymphocyte proliferation in vitro. 1987 , 9, 467-75		6
136	Evidence for altered opioid activity in patients with cancer. 1987 , 56, 834-7		12
135	Brown adipose tissue. Its in vivo immunology and involvement in neuroimmunomodulation. 1987 , 496, 3-26		16
134	Enkephalins and immunity. I: In vivo suppression and potentiation of humoral immune response. 1987 , 496, 115-25		63
133	Enhancement of host resistance to viral and tumor challenge by treatment with methionine-enkephalin. 1987 , 496, 137-45		14
132	Concentration-dependent effect of met-enkephalin on human polymorphonuclear leukocytes. 1987 , 496, 151-7		18
131	Modulation of lymphocyte function by endorphins. 1987 , 496, 161-5		29
130	In vitro studies of immunoregulation by substance P and somatostatin. 1987 , 496, 217-25		45
129	Myelopeptides. Mediators of interaction between the immune system and the nervous system. 1987 , 496, 271-7		7
128	Modulation of the immune response by POMC-derived peptides. I. Influence on proliferation of human lymphocytes. 1987 , 1, 284-91		58
127	Modulation of human neuroblastoma transplanted into nude mice by endogenous opioid systems. <i>Life Sciences</i> , 1987 , 41, 1465-72	6.8	39
126	Effects of a single administration of morphine or footshock stress on natural killer cell cytotoxicity. 1987 , 1, 318-28		67
125	Differential effects of beta-endorphin fragments on human natural killing. 1987 , 1, 329-35		36

124	Distribution of somatostatin receptors on murine spleen and Peyer's patch T and B lymphocytes. 1987 , 1, 173-84		61
123	Opiates, Stress, and Immunity: Animal Studies. 1987 , 9, 11-15		37
122	Impaired coupling of naloxone sensitive opiate receptors to adenylate cyclase in PMNLs of aged male subjects. <i>International Journal of Immunopharmacology</i> , 1987 , 9, 651-7		22
121	Methionine-enkephalin as immunomodulator therapy in human immunodeficiency virus infections: clinical and immunological effects. 1988 , 8, 95-102		8
120	Characterization of opioid binding sites in murine neuroblastoma. <i>Brain Research</i> , 1988 , 449, 80-8	3.7	16
119	The cortex regulates the immune system and the activities of a T-cell specific immunopotentiator. 1988 , 39, 177-87		17
118	Endogenous opioids and the growth regulation of a neural tumor. <i>Life Sciences</i> , 1988 , 43, 1313-8	6.8	35
117	Regulatory peptides and amines during ontogeny and in non-endocrine cancers: occurrence and possible functional significance. 1988 , 17, 1-222		8
116	Regulation of human natural cytotoxicity by enkephalins and selective opiate agonists. 1988 , 2, 171-86		58
115	Endogenous opioid systems and neural cancer: transmission and scanning electron microscopic studies of murine neuroblastoma in tissue culture. 1988 , 21, 777-84		11
114	Neuroimmunomodulation: potentiation of delayed hypersensitivity and antibody production by chronic electrical stimulation of the rat brain. 1988 , 39, 153-64		16
113	Nervous system-immune system interactions: an overview. 1988 , 8, 589-607		40
112	The physiology of stress and its relationship to mechanisms of disease and therapeutics. 1988 , 4, 441-80		23
111	Opioid peptides modulate immune functions. A review. 1988 , 10, 265-326		65
110	Neonatal adaptation to stress of parturition and dystocia. 1988 , 4, 481-99		11
