Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
200	Bibliography of recent journal articles. 1983 , 4, 297-302		
199	Validity of the Mellits and Cheek method for body-fat estimation in relation to menstrual cycle status in athletes and non-athletes below 22 per cent fat. <i>Annals of Human Biology</i> , 1984 , 11, 389-96	1.7	6
198	The relationships of calculated percent body fat, sports participation, age, and place of residence on menstrual patterns in healthy adolescent girls at an independent New England high school. 1984 , 5, 248-53		23
197	Nutritional thriftiness and human reproduction: beyond the critical body composition hypothesis. 1984 , 19, 177-82		11
196	Reversibility of amenorrhea in athletes. 1984 , 310, 51-2		6
195	Characteristics of Child Distance Runners. 1985 , 13, 45-53		5
194	Hormonal Changes with Acute Exercise and with Training in Women. 1985 , 3, 55-64		14
193	Effects of Physical Activity on Reproductive Function and Development in Males. 1985 , 3, 65-80		7
192	Effect of Exercise and Physical Training on Menarche. 1985 , 3, 17-26		11
191	Depressed follicle-stimulating hormone, luteinizing hormone, and prolactin responses to the luteinizing hormone-releasing hormone, thyrotropin-releasing hormone, and metoclopramide test in endurance runners in the hard-training season. 1985 , 44, 755-9		27
190	Women and sport. 1985 , 16, 25-39		5
189	The Collaborative Lipid Research Clinics Family Study: biological and cultural determinants of familial resemblance for plasma lipids and lipoproteins. 1985 , 2, 227-54		125
188	A hypothesis on the role of pheromones on age of menarche. 1985 , 17, 39-46		8
187	Applied physiology of swimming. <i>Sports Medicine</i> , 1986 , 3, 165-89	10.6	89
186	Time-related changes in the plasma concentrations of prolactin, gonadotropins, sex hormone-binding globulin, and certain steroid hormones in female runners after a long-distance race. 1986 , 46, 1067-70		13
185	Amenorrhea in the adolescent athlete. Exploration of a growing phenomenon. 1986 , 80, 245-7, 250, 253		3
