Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

2222	Effect of calmidazolium and phorbol ester on catecholamine secretion from adrenal chromaffin cells. 1984 , 805, 37-43	34
2221	The role of phosphatidylinositol 4,5 biphosphate breakdown in cell-surface receptor activation. 1984 , 4, 489-504	28
2220	Priming of neutrophils for enhanced release of oxygen metabolites by bacterial lipopolysaccharide. Evidence for increased activity of the superoxide-producing enzyme. 1984 , 160, 1656-71	549
2219	Effect of the phorbol ester TPA on PTH secretion. Evidence for a role for protein kinase C in the control of PTH release. 1984 , 175, 72-5	38
2218	A phorbol ester and A23187 act synergistically to release acetylcholine from the guinea pig ileum. 1984 , 175, 165-9	65
2217	Synergism between phorbol ester and A23187 in superoxide production by neutrophils. 1984 , 175, 170-2	42
2216	12-O-Tetradecanoylphorbol 13-acetate stimulates inositol lipid phosphorylation in intact human platelets. 1984 , 173, 389-93	90
2215	TMB-8 inhibits secretion evoked by phorbol ester at basal cytoplasmic free calcium in quin2-loaded platelets much more effectively than it inhibits thrombin-induced calcium mobilisation. 1984 , 176, 139-43	46
2214	Lack of a direct role for cyclic AMP in parathyrin action on phosphate reabsorption by the kidney. 1984 , 176, 220-2	3

2213	Reduction of epidermal growth factor receptor affinity by heterologous ligands: evidence for a mechanism involving the breakdown of phosphoinositides and the activation of protein kinase C. 1984 , 123, 377-84	189
2212	Adrenocortical cytochrome P-450 responsible for cholesterol side chain cleavage (P-450 _{scc}) is phosphorylated by the calcium-activated, phospholipid-sensitive protein kinase (protein kinase C). 1984 , 125, 554-61	61
2211	Long-chain unsaturated diacylglycerols cause a perturbation in the structure of phospholipid bilayers rendering them susceptible to phospholipase attack. 1984 , 125, 836-42	156
2210	Fc-receptor mediated protein phosphorylation in murine peritoneal macrophages. 1984 , 124, 197-202	10
2209	Protein kinase C phosphorylates the synthetic peptide Arg-Arg-Lys-Ala-Ser-Gly-Pro-Pro-Val in the presence of phospholipid plus either Ca ²⁺ or a phorbol ester tumor promoter. 1984 , 124, 296-302	83
2208	Reduction by N-(6-aminohexyl)-5-chloro-1-naphthalenesulfonamide (W-7), a calmodulin antagonist, in the number of phorbol ester receptors in mouse skin. 1984 , 124, 726-30	4
2207	Cyclic AMP-dependent protein kinase stimulates the phosphorylation of phosphatidylinositol to phosphatidylinositol-4-monophosphate in a plasma membrane preparation from pig granulocytes. 1984 , 124, 871-6	11
2206	Stimulation of hepatic glycogenolysis by 12-O-tetradecanoylphorbol-13-acetate (TPA) via a calcium requiring process. 1984 , 122, 1057-64	22
2205	Protein kinase C: rapid enzyme purification and substrate-dependence of the diacylglycerol effect. 1984 , 122, 1268-75	69
2204	Ca ²⁺ -dependent and phorbol ester activating phosphorylation of a 36K-dalton protein of rat basophilic leukemia cell membranes and immunoprecipitation of the phosphorylated protein with IgE-anti IgE system. 1984 , 125, 867-74	18
2203	Phorbol ester-induced contraction of arterial smooth muscle and inhibition of alpha-adrenergic response. 1984 , 125, 1103-9	200
2202	Diacylglycerol causes major structural transitions in phospholipid bilayer membranes. 1984 , 124, 491-6	111
2201	Phorbol myristate acetate stimulates formation of phosphatidyl inositol 4-phosphate and phosphatidyl inositol 4,5-bisphosphate in human platelets. 1984 , 124, 507-13	103
2200	Neurotensin stimulates inositol phospholipid hydrolysis in rat brain slices. 1984 , 323, 193-7	109
2199	Forskolin perturbs cGMP as well as cAMP levels in human thyroid cells. 1984 , 107, 225-9	11
2198	Phorbol 12-myristate 13-acetate, ionomycin or ouabain, and raised extracellular magnesium induce proliferation of chicken heart mesenchymal cells. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1984 , 81, 6418-21	11.5 16
2197	Phorbol ester, serum, and rous sarcoma virus transforming gene product induce similar phosphorylations of ribosomal protein S6. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1984 , 81, 6408-12	11.5 73
2196	Phorbol Diesters and Cellular Differentiation5. 1984 ,	1

2195	Effects of prostaglandin I ₂ and forskolin on the secretion from platelets evoked at basal concentrations of cytoplasmic free calcium by thrombin, collagen, phorbol ester and exogenous diacylglycerol. 1984 , 222, 833-6	49
2194	The role of calcium ions in the mechanism of action of alpha-adrenergic agonists in rat liver. 1984 , 223, 1-13	189
2193	The interaction of lithium with thyrotropin-releasing hormone-stimulated lipid metabolism in GH3 pituitary tumour cells. Enhancement of stimulated 1,2-diacylglycerol formation. 1984 , 224, 129-36	120
2192	Carbachol causes rapid phosphodiesteratic cleavage of phosphatidylinositol 4,5-bisphosphate and accumulation of inositol phosphates in rabbit iris smooth muscle; prazosin inhibits noradrenaline- and ionophore A23187-stimulated accumulation of inositol phosphates. 1984 , 224, 291-300	88
2191	Phorbol ester stimulation of insulin release and secretory-granule protein phosphorylation in a transplantable rat insulinoma. 1984 , 224, 483-90	46
2190	Cyclic AMP inhibition of fMet-Leu-Phe-dependent metabolic responses in human neutrophils is not due to its effects on cytosolic Ca ²⁺ . 1984 , 224, 629-35	72
2189	Mechanism of action of cholecystokinin: a not atypical brain-gut peptide. 1985 , 61, 533-40	
2188	alpha-Adrenoceptor-effector coupling: affinity states or heterogeneity of the alpha 2-adrenoceptor?. 1985 , 68 Suppl 10, 39s-42s	56
2187	Inositol lipid breakdown as a step in alpha-adrenergic stimulus-response coupling. 1985 , 68 Suppl 10, 43s-46s	9
2186	Inositol phosphate formation in fMet-Leu-Phe-stimulated human neutrophils does not require an increase in the cytosolic free Ca ²⁺ concentration. 1985 , 229, 361-7	87
2185	Inositol 1,4,5-trisphosphate-induced release of sequestered Ca ²⁺ from highly purified human platelet intracellular membranes. 1985 , 230, 247-53	121
2184	The role of C-kinase in the physiological activation of the neutrophil oxidase. Evidence from using pharmacological manipulation of C-kinase activity in intact cells. 1985 , 232, 323-7	79
2183	Tumour-promoting phorbol esters increase basal and inhibit insulin-stimulated lipogenesis in rat adipocytes without decreasing insulin binding. 1985 , 225, 523-7	70
2182	Accumulation of inositol phosphates in sympathetic ganglia. Effects of depolarization and of amine and peptide neurotransmitters. 1985 , 227, 263-9	42
2181	Effect of glucose on polyphosphoinositide metabolism in isolated rat islets of Langerhans. 1985 , 227, 483-9	66
2180	Characterization of protein kinase C and its role in catecholamine secretion from bovine adrenal-medullary cells. 1985 , 228, 35-42	74
2179	Metabolism of inositol 1,4,5-trisphosphate and inositol 1,3,4-trisphosphate in rat parotid glands. 1985 , 229, 505-11	456
2178	The inhibition of diacylglycerol-stimulated intracellular phospholipases by phospholipids with a phosphocholine-containing polar group. A possible physiological role for sphingomyelin. 1985 , 230, 61-8	44

2177	Pancreatic amylase secretion and cytoplasmic free calcium. Effects of ionomycin, phorbol dibutyrate and diacylglycerols alone and in combination. 1985 , 230, 151-9	100
2176	The de novo phospholipid effect of insulin is associated with increases in diacylglycerol, but not inositol phosphates or cytosolic Ca ²⁺ . 1985 , 231, 269-78	143
2175	Assay of protein kinase C with an N-bromosuccinimide-cleavage fragment of histone H1. 1985 , 231, 489-92	17
2174	Dependence on Ca ²⁺ of the activities of phosphatidylinositol 4,5-bisphosphate phosphodiesterase and inositol 1,4,5-trisphosphate phosphatase in smooth muscles of the porcine coronary artery. 1985 , 231, 497-503	127
2173	Control of glycogen phosphorylase interconversion by phorbol esters, diacylglycerols, Ca ²⁺ and hormones in isolated rat hepatocytes. 1985 , 231, 511-6	42
2172	Evidence that phorbol ester interferes with stimulated Ca ²⁺ redistribution by activating Ca ²⁺ efflux in neutrophil leucocytes. 1985 , 231, 623-8	72
2171	A peptide that inhibits the mitogenic stimulation of Swiss 3T3 cells by bombesin or vasopressin. 1985 , 231, 781-4	77
2170	The effects of phorbol ester, diacylglycerol, phospholipase C and Ca ²⁺ ionophore on protein phosphorylation in human and sheep erythrocytes. 1985 , 232, 43-7	20
2169	Relationship between cytoplasmic free calcium and myosin light chain phosphorylation in intact platelets. 1985 , 232, 373-7	52
2168	Ca ²⁺ -binding proteins from bovine brain including a potent inhibitor of protein kinase C. 1985 , 232, 559-67	77
2167	Calcium ions and glycogen act synergistically as inhibitors of hepatic glycogen-synthase phosphatase. 1985 , 232, 697-704	29
2166	Inositol lipids and cell proliferation. 1985 , 13, 67-71	37

2161	Evaluation of possible mechanisms of phorbol ester stimulation of phosphatidylcholine synthesis in HeLa cells. 1985 , 63, 145-51	32
2160	Absence of phosphatidylinositol phosphodiesterase in the head of a <i>Drosophila</i> visual mutant, norpA (no receptor potential A). 1985 , 97, 1251-4	77

2159	Hormone secretion by exocytosis with emphasis on information from the chromaffin cell system. 1985 , 42, 109-96		39
2158	Fusion proteins in retroviral transformation. 1985 , 43, 205-39		8
2157	Chapter 23. Possible Roles of Protein Kinase C in Cell Function. 1985 , 227-236		3
2156	Inositol cyclic phosphates are produced by cleavage of phosphatidylinositols (polyphosphoinositides) with purified sheep seminal vesicle phospholipase C enzymes. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 4013-7	11.5	94
2155	Phorbol esters promote alpha 1-adrenergic receptor phosphorylation and receptor uncoupling from inositol phospholipid metabolism. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 5651-5	11.5	290
2154	Inhibition of gonadotropin-induced granulosa cell differentiation by activation of protein kinase C. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 8518-22	11.5	58
2153	Regulation of the transcript for a lysosomal protein: evidence for a gene program modified by platelet-derived growth factor. 1985 , 5, 2582-9		37
2152	Malignant transformation and tumor promoter treatment increase levels of a transcript for a secreted glycoprotein. 1985 , 5, 466-73		44
2151	Pertussis toxin inhibits chemotactic peptide-stimulated generation of inositol phosphates and lysosomal enzyme secretion in human leukemic (HL-60) cells. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 3277-80	11.5	170
2150	Regulation of c-myc mRNA levels in normal human lymphocytes by modulators of cell proliferation. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 4221-4	11.5	130
2149	Diacylglycerols mimic phorbol diester induction of leukemic cell differentiation. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 815-9	11.5	200
2148	Polyclonal antibodies to phospholipid/Ca ²⁺ -dependent protein kinase and immunocytochemical localization of the enzyme in rat brain. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 3030-4	11.5	165
2147	Inositol phospholipid and phosphatidic acid metabolism in response to membrane receptor activation. 1985 , 44, 167-72		3
2146	Effect of cetyltrimethylammonium bromide on the superoxide-generating system of porcine neutrophils. 1985 , 98, 355-61		3
2145	Calcium-force relationships as detected with aequorin in two different vascular smooth muscles of the ferret. 1985 , 369, 269-82		143
2144	Insufficient mobilization of calcium by early breakdown of phosphatidylinositol 4,5-bisphosphate for aggregation of human platelets by collagen. 1985 , 98, 1063-8		21
2143	The specific induction of myc protooncogene expression in normal human B cells is not a sufficient event for acquisition of competence to proliferate. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 6255-9	11.5	84
2142	A 12-O-tetradecanoylphorbol-13-acetate (TPA)-nonproliferative variant of 3T3 cells is resistant to TPA-enhanced gene amplification. 1985 , 5, 1130-5		16

2141	Potential role of the src gene product in inhibition of gap-junctional communication in NIH/3T3 cells. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 5360-4	11.5	84
2140	Characterization of the activation of Na ⁺ /H ⁺ exchange in lymphocytes by phorbol esters: change in cytoplasmic pH dependence of the antiport. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 1429-33	11.5	238
2139	Role of protein kinase C in diacylglycerol-mediated induction of ornithine decarboxylase and reduction of epidermal growth factor binding. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 1941-5	11.5	92
2138	Tumor-promoting phorbol diesters cause the phosphorylation of epidermal growth factor receptors in normal human fibroblasts at threonine-654. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 1974-8	11.5	247
2137	1,2-Diacylglycerol and phorbol ester inhibit agonist-induced formation of inositol phosphates in human platelets: possible implications for negative feedback regulation of inositol phospholipid hydrolysis. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 2622-6	11.5	202
2136	Acetylcholine and phorbol esters inhibit potassium currents evoked by adenosine and cAMP in <i>Xenopus</i> oocytes. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 6001-5	11.5	58
2135	Binding of protein kinase C to neutrophil membranes in the presence of Ca ²⁺ and its activation by a Ca ²⁺ -requiring proteinase. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 6435-9	11.5	190
2134	Phorbol 12-myristate 13-acetate and insulin increase the concentration of fructose 2,6-bisphosphate and stimulate glycolysis in chicken embryo fibroblasts. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 6440-4	11.5	64
2133	Phosphorylation of ribosomal protein S6 on serine after microinjection of the Abelson murine leukemia virus tyrosine-specific protein kinase into <i>Xenopus</i> oocytes. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 272-6	11.5	71
2132	Activation of Na ⁺ /H ⁺ exchange in cultured fibroblasts: synergism and antagonism between phorbol ester, Ca ²⁺ ionophore, and growth factors. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 8053-6	11.5	65
2131	Characterization of pituitary calcium-activated, phospholipid-dependent protein kinase: redistribution by gonadotropin-releasing hormone. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 8203-7	11.5	73
2130	Epidermal growth factor regulates the expression of its own receptor. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 8374-8	11.5	218
2129	Identification and partial characterization of hepatocyte-stimulating factor from leukemia cell lines: comparison with interleukin 1. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 1443-7	11.5	79
2128	Ionic responses rapidly elicited by activation of protein kinase C in quiescent Swiss 3T3 cells. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 2384-8	11.5	92
2127	Phorbol esters induce transient internalization without degradation of unoccupied epidermal growth factor receptors. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 2774-8	11.5	179
2126	Altered beta-actin gene expression in phorbol myristate acetate-treated chondrocytes and fibroblasts. 1985 , 5, 1425-33		46
2125	Phosphatidylinositol kinase activity in virus-transformed and nontransformed cells. 1985 , 5, 2399-404		39
2124	Induction of the proto-oncogene fos by nerve growth factor. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 7330-4	11.5	325

2123	Regulation of a ribosomal protein S6 kinase activity by the Rous sarcoma virus transforming protein, serum, or phorbol ester. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 7621-5	11.5	109
2122	Activators of protein kinase C down-regulate and phosphorylate the T3/T-cell antigen receptor complex of human T lymphocytes. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1985 , 82, 8158-62	11.5	250

25 Table_1.xlsx. **2019**,

24 Activation and regulation of protein kinase C enzymes. *Journal of Bioenergetics and Biomembranes*, **1991**, 23, 43-61 3.7 61

23 Transmembrane signaling via both CD3 and CD2 human T cell surface molecules involves protein kinase-C translocation. *Research in Clinic and Laboratory*, **1989**, 19, 221-9 4

22 Phosphoinositide turnover and calcium ion mobilization in receptor activation. *Neurochemical Pathology*, **1988**, 9, 89-108 1

21 Mechanisms Causing Acantholysis in Pemphigus-Lessons from Human Skin. *Frontiers in Immunology*, **2022**, 13, 8.4 2

20 Phosphorylation of GluA1-Ser831 by CaMKII activation in the caudate and putamen is required for behavioral sensitization after challenge nicotine in rats. *International Journal of Neuropsychopharmacology*, 5.8 1

19 The overexpressed transcription factor RGPR-p117 suppresses the proliferation of normal rat kidney proximal tubular epithelial NRK-52E cells: Involvement of diverse signaling pathways. *Life Sciences*, **2022**, 306, 120795 6.8

18 Allergic Inflammatory Mediators and Bronchial Hyperresponsiveness. *Immunology and Allergy Clinics of North America*, **1990**, 10, 241-249 3.3 1
