

LANDSAT-4 MSS And Thematic Mapper Data Quality Analysis

IEEE Transactions on Geoscience and Remote Sensing
GE-22, 222-236

DOI: [10.1109/tgrs.1984.350595](https://doi.org/10.1109/tgrs.1984.350595)

Citation Report

#	ARTICLE	IF	CITATIONS
1	Cumulative impact assessment in environmental planning. Environmental Impact Assessment Review, 1985, 5, 37-64.	9.2	36
2	Landsat image data quality studies. Advances in Space Research, 1985, 5, 1-11.	2.6	7
3	Effect of Landsat thematic mapper sensor parameters on land cover classification. Remote Sensing of Environment, 1985, 17, 129-140.	11.0	42
4	The Landsat Sensors' Spatial Responses. IEEE Transactions on Geoscience and Remote Sensing, 1985, GE-23, 864-875.	6.3	69
5	Thematic mapper analysis of coniferous forest structure and composition. International Journal of Remote Sensing, 1986, 7, 1287-1301.	2.9	166
6	Performance of LANDSAT-5 TM data in land-cover classification. International Journal of Remote Sensing, 1986, 7, 1715-1728.	2.9	13
7	Spectral separation of moorland vegetation in airborne Thematic Mapper data. International Journal of Remote Sensing, 1987, 8, 43-55.	2.9	19
8	Gaussian Maximum Likelihood and Contextual Classification Algorithms for Multicrop Classification. IEEE Transactions on Geoscience and Remote Sensing, 1987, GE-25, 805-814.	6.3	61
9	Gaussian Maximum Likelihood and Contextual Classification Algorithms for Multicrop Classification Experiments Using Thematic Mapper and Multispectral Scanner Sensor Data. IEEE Transactions on Geoscience and Remote Sensing, 1987, GE-25, 815-824.	6.3	15
10	An assessment of landsat MSS and TM data for urban and near-urban land-cover digital classification. Remote Sensing of Environment, 1987, 21, 201-213.	11.0	104
11	Look-up tables to convert Landsat TM thermal IR data to water surface temperatures. Geocarto International, 1988, 3, 61-67.	3.5	14
12	Volcano monitoring using short wavelength infrared data from satellites. Journal of Geophysical Research, 1988, 93, 7993-8008.	3.3	271
13	Atmospheric effects on Landsat TM thermal IR data. IEEE Transactions on Geoscience and Remote Sensing, 1988, 26, 171-176.	6.3	30
14	Observation of the adjacency effect in thematic Mapper imagery. Geocarto International, 1989, 4, 3-10.	3.5	0
15	A re-interpretation of Landsat TM data on Chernobyl. International Journal of Remote Sensing, 1989, 10, 1423-1427.	2.9	9
