449	The Radiosensitivity of Tumor Cells In Vitro versus In Vivo. , 2016, , 103-112.		0
451	Pediatric Radiotherapy: Background and Current Paradigms. , 2017, , 1-31.		0
452	Radiolabeled Antibody Tumor Dosimetry. , 2018, , 21-31.		0
453	Phase 1b multicenter study of the safety and efficacy of stereotactic body radiation therapy for extracranial renal cell carcinoma metastases in combination with tyrosine kinase inhibitors or checkpoint inhibitors (VOLGA STUDY).. Malignant Tumours, 2019, 9, 57-64.	0.5	1
454	Pediatric Radiotherapy: Background and Current Paradigms. , 2020, , 185-208.		0
455	Less well known parameters of in vitro radiosensitivity. Journal of the National Medical Association, 1989, 81, 799-802.	0.8	1
456	The utility of short-course radiotherapy in a watch-and-wait strategy for rectal cancer “ the need to measure the interval to tumour response assessment from the radiation start. Acta OncolÃ³gica, 2022, 61, 1121-1125.	1.8	3
458	Radiation Therapy Can Be Safely Incorporated into Pretransplantation Treatment Regimens for Patients with Multiple Myeloma. Transplantation and Cellular Therapy, 2023, 29, 37.e1-37.e7.	1.2	0
459	Predicting tumour radiosensitivity to deliver precision radiotherapy. Nature Reviews Clinical Oncology, 2023, 20, 83-98.	27.6	37
460	Improving Localized Radiotherapy for Glioblastoma via Small Molecule Inhibition of KIF11. Cancers, 2023, 15, 3173.	3.7	1
461	Evaluation of in vitro intrinsic radiosensitivity and characterization of five canine high-grade glioma cell lines. Frontiers in Veterinary Science, 0, 10, .	2.2	0
462	Hypofractionated Radiotherapy for Hematologic Malignancies during the COVID-19 Pandemic and Beyond. Current Oncology, 2024, 31, 383-393.	2.2	0
