

# Spread Spectrum Access in Two-Hop CATV Data Network

IEEE Journal on Selected Areas in Communications

3, 312-322

DOI: [10.1109/jsac.1985.1146203](https://doi.org/10.1109/jsac.1985.1146203)

Citation Report

#	ARTICLE	IF	CITATIONS
1	Overview of metropolitan area networks. , 1986, 24, 9-15.		40
2	Performance analysis of spread spectrum packet radio network with channel load sensing. IEEE Journal on Selected Areas in Communications, 1989, 7, 161-166.	14.0	76
3	TVNet II: A cable TV based metropolitan area network using the KEDS protocol. Microprocessing and Microprogramming, 1990, 30, 627-635.	0.2	1
4	Computer networking on cable TV plants. IEEE Network, 1992, 6, 32-40.	6.9	5
5	A CATV based metropolitan area network using distributed switching. Microprocessing and Microprogramming, 1993, 37, 197-200.	0.2	1
6	DS/SS indoor wireless communications with near-perfect multi-packet capture. , 0, , .		3
7	On implementing computer networking on existing cable TV plants: Some interesting proposals. Microprocessing and Microprogramming, 1994, 40, 355-373.	0.2	0
