

CITATION REPORT

List of articles citing

Simple methods for estimating the numbers of
synonymous and nonsynonymous nucleotide substitutions

DOI: 10.1093/oxfordjournals.molbev.a040410
Molecular Biology and Evolution, 1986, 3, 418-26.

Version: 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2184	Nucleotide sequence and evolution of the orangutan epsilon globin gene region and surrounding Alu repeats. <i>Journal of Molecular Evolution</i> , 1986 , 24, 94-102	3.1	57
2183	Nucleotide sequence and molecular evolution of mouse retrovirus-like IAP elements. 1987 , 56, 1-12		23
2182	Primary structure of the glycoprotein E2 of coronavirus MHV-A59 and identification of the trypsin cleavage site. 1987 , 161, 479-87		158
2181	The nucleotide sequence of the peplomer gene of porcine transmissible gastroenteritis virus (TGEV): comparison with the sequence of the peplomer protein of feline infectious peritonitis virus (FIPV). 1987 , 8, 363-71		58
2180	An evaluation of the molecular clock hypothesis using mammalian DNA sequences. <i>Journal of Molecular Evolution</i> , 1987 , 25, 330-42	3.1	373
2179	Molecular evolutionary rates of oncogenes. <i>Journal of Molecular Evolution</i> , 1987 , 26, 148-56	3.1	23
2178	Embryonic epsilon and gamma globin genes of a prosimian primate (<i>Galago crassicaudatus</i>). Nucleotide and amino acid sequences, developmental regulation and phylogenetic footprints. 1988 , 203, 439-55		321
2177	Evolutionary and developmental aspects of two hemoglobin beta-chain genes (epsilon M and beta M) of opossum. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1988 , 85, 3893-7	11.5	47
2176	Human glyceraldehyde-3-phosphate dehydrogenase pseudogenes: molecular evolution and a possible mechanism for amplification. 1989 , 27, 439-50		13
2175	Evolution of nested genes with special reference to cuticle proteins in <i>Drosophila melanogaster</i> . <i>Journal of Molecular Evolution</i> , 1989 , 28, 391-7	3.1	5
2174	Comparison of sequences from the malB regions of <i>Salmonella typhimurium</i> and <i>Enterobacter aerogenes</i> with <i>Escherichia coli</i> K12: a potential new regulatory site in the interoperonic region. 1989 , 218, 199-207		62
2173	Shared class II MHC polymorphisms between humans and chimpanzees. 1989 , 26, 107-21		117
2172	Conservation of an immunoglobulin variable-region gene family indicates a specific, noncoding function. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1989 , 86, 7460-4	11.5	80
2171	Host-independent evolution and a genetic classification of the hepadnavirus family based on nucleotide sequences. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1989 , 86, 7059-62	11.5	181
2170	Nucleotide substitution at major histocompatibility complex class II loci: evidence for overdominant selection. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1989 , 86, 958-62	11.5	749
2169	Structure of miniature swine class II DRB genes: conservation of hypervariable amino acid residues between distantly related mammalian species. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1990 , 87, 9798-802	11.5	82
2168	Molecular clock of viral evolution, and the neutral theory. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1990 , 87, 10015-8	11.5	167

2167	Polymorphism at the self-incompatibility locus in Solanaceae predates speciation. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1990 , 87, 9732-5	11.5	238
2166	Statistical methods for estimating sequence divergence. 1990 , 183, 531-50		25
2165	Evolution of the class II major histocompatibility complex alleles in higher primates. 1990 , 113, 65-82		44
2164	Molecular evolution of human T-cell leukemia virus. <i>Journal of Molecular Evolution</i> , 1990 , 31, 493-9	3.1	37
2163	DNA recombination and natural selection pressure sustain genetic sequence diversity of the feline MHC class I genes. 1990 , 172, 621-30		30
2162	Isolation, DNA sequence and evolution of a color visual pigment gene of the blind cave fish <i>Astyanax fasciatus</i> . 1990 , 30, 807-16		49
2161	Rapid evolution of prostatic protein PSP94 suggested by sequence divergence between rhesus monkey and human cDNAs. 1991 , 9, 775-7		26
2160	Evidence for three genes encoding class-I alcohol dehydrogenase subunits in baboon and analysis of the 5' region of the gene encoding the ADH beta subunit. 1991 , 103, 211-8		6
2159	Synonymous nucleotide substitution rates in mammalian genes: implications for the molecular clock and the relationship of mammalian orders. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1991 , 88, 5974-8	11.5	111
2158	Molecular evolution of hemagglutinin genes of H1N1 swine and human influenza A viruses. <i>Journal of Molecular Evolution</i> , 1991 , 32, 16-23	3.1	42
2157	Evolution of MHC polymorphism: extensive sharing of polymorphic sequence motifs between human and bovine DRB alleles. 1991 , 33, 188-93		62
2156	Concerted evolution in a segment of the first domain exon of polymorphic MHC class II beta loci. 1991 , 33, 235-42		19
2155	Isolation and characterization of cDNA clones for NADP-malic enzyme from leaves of <i>Flaveria</i> : transcript abundance distinguishes C3, C3-C4 and C4 photosynthetic types. 1991 , 17, 371-83		23
2154	Segmental exchange between MHC class I genes in a higher primate: recombination in the gorilla between the ancestor of a human non-functional gene and an A locus gene. 1991 , 34, 185-91		32
2153	Unusually limited nucleotide sequence variation of the expressed major histocompatibility complex class I genes of a New World primate species (<i>Saguinus oedipus</i>). 1991 , 33, 79-89		49
2152	Independent gene duplications, not concerted evolution, explain relationships among class I MHC genes of murine rodents. 1991 , 33, 367-73		38
2151	Excess nonsynonymous substitution of shared polymorphic sites among self-incompatibility alleles of Solanaceae. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1991 , 88, 9823-7	11.5	114
2150	Nucleotide polymorphism and evolution in the glyceraldehyde-3-phosphate dehydrogenase gene (<i>gapA</i>) in natural populations of <i>Salmonella</i> and <i>Escherichia coli</i> . <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1991 , 88, 6667-71	11.5	127

2149	Distinctive polymorphism at the HLA-C locus: implications for the expression of HLA-C. 1992 , 176, 937-50		156
2148	Rapid evolution of the human gene for cytochrome c oxidase subunit IV. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1992 , 89, 5266-70	11.5	28
2147	Evolution of the major histocompatibility complex: isolation of class II A cDNA clones from the cartilaginous fish. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1992 , 89, 6688-92	11.5	122
2146	Sequence analysis of the indirect flight muscle actin-encoding gene of <i>Drosophila simulans</i> . 1992 , 118, 163-70		5
2145	Evolution of a highly polymorphic human cytochrome P450 gene cluster: CYP2D6. 1992 , 14, 49-58		119
2144	The beta globin gene cluster of the prosimian primate <i>Galago crassicaudatus</i> : nucleotide sequence determination of the 41-kb cluster and comparative sequence analyses. 1992 , 13, 741-60		27
2143	Fetal recruitment of anthropoid gamma-globin genes. Findings from phylogenetic analyses involving the 5'-flanking sequences of the psi gamma 1 globin gene of spider monkey <i>Ateles geoffroyi</i> . 1992 , 224, 875-81		20
2142	Evolutionary genetics of the proline permease gene (putP) and the control region of the proline utilization operon in populations of <i>Salmonella</i> and <i>Escherichia coli</i> . 1992 , 174, 6886-95		100
2141	Biochemical and molecular genetic markers in biosystematic studies of forest trees. 1992 , 6, 125-158		35
2140	Molecular phylogenies of plastid origins and algal evolution. <i>Journal of Molecular Evolution</i> , 1992 , 35, 385-404	3.1	85
2139	Gene duplications and sequence polymorphism of bovine class II DQB genes. 1992 , 35, 205-13		42
2138	Sequence and diversity of rhesus monkey T-cell receptor beta chain genes. 1992 , 35, 75-88		43
2137	On genetic components in autoimmunity: a critical review based on evolutionarily oriented rationality. 1992 , 90, 331-41		11
2136	Mhc-DRB diversity of the chimpanzee (<i>Pan troglodytes</i>). 1992 , 37, 1-11		64
2135	A statistical examination of hypervariability in complementarity-determining regions of immunoglobulins. 1992 , 1, 305-11		15
2134	Gene conversion generates hypervariability at the variable regions of kallikreins and their inhibitors. 1992 , 1, 87-90		23
2133	Evolutionary pattern of the H 3 haemagglutinin of equine influenza viruses: multiple evolutionary lineages and frozen replication. 1992 , 123, 73-87		42
2132	Rapid sequence variation of the hypervariable region of hepatitis C virus during the course of chronic infection. 1993 , 18, 1293-1299		121

2131	Adaptive evolution in the rat olfactory receptor gene family. <i>Journal of Molecular Evolution</i> , 1993 , 36, 249-54	3.1	49
2130	Remarkably high rate of molecular evolution of ruminant placental lactogens. <i>Journal of Molecular Evolution</i> , 1993 , 37, 86-8	3.1	24
2129	The paradox of MHC-DRB exon/intron evolution: alpha-helix and beta-sheet encoding regions diverge while hypervariable intronic simple repeats coevolve with beta-sheet codons. <i>Journal of Molecular Evolution</i> , 1993 , 37, 260-72	3.1	40
2128	How the ratio of nonsynonymous to synonymous pseudogene substitutions can be less than one. 1993 , 38, 450-4		11
2127	Sequence divergence of B2m alleles of wild <i>Mus musculus</i> and <i>Mus spretus</i> implies positive selection. 1993 , 38, 106-16		22
2126	Sequence and evolution of cattle MHC class I cDNAs: concerted evolution has not taken place in cattle. 1993 , 38, 11-20		26
2125	Evidence of positive selection at the <i>Lyb-2</i> locus of the mouse. 1993 , 38, 54-6		3
2124	Evolutionary relationships of the classes of major histocompatibility complex genes. 1993 , 37, 337-46		50
2123	Evolution of hominoid mitochondrial DNA with special reference to the silent substitution rate over the genome. <i>Journal of Molecular Evolution</i> , 1993 , 36, 517-31	3.1	38
2122	Vb6 T-cell receptor elements in artiodactyls: conservation and germline polymorphisms. 1993 , 4, 504-10		10
2121	Rates of amino acid evolution in the 26- and 28-kDa glutathione S-transferases of <i>Schistosoma</i> . 1993 , 58, 43-52		12
2120	Unbiased estimation of the rates of synonymous and nonsynonymous substitution. <i>Journal of Molecular Evolution</i> , 1993 , 36, 96-9	3.1	933
2119	Multiple L1 progenitors in prosimian primates: phylogenetic evidence from ORF1 sequences. <i>Journal of Molecular Evolution</i> , 1993 , 37, 179-89	3.1	6
2118	Conservation and change in structural and 5' flanking sequences of esterase 6 in sibling <i>Drosophila</i> species. 1993 , 88, 11-28		33
2117	Structural organization and evolution of the liver isoform gene for bovine cytochrome c oxidase subunit VIIa. 1993 , 18, 527-36		16
2116	Mhc-DRB and -DQA1 nucleotide sequences of three lowland gorillas. Implications for the evolution of primate Mhc class II haplotypes. 1993 , 36, 205-18		28
2115	Lack of correlation between interspecific divergence and intraspecific polymorphism at the suppressor of forked region in <i>Drosophila melanogaster</i> and <i>Drosophila simulans</i> . <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1993 , 90, 1800-3	11.5	64
2114	Amino acid substitution at the <i>Adh</i> locus of <i>Drosophila</i> is facilitated by small population size. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1993 , 90, 4548-51	11.5	64

2113	Abalone sperm lysin: unusual mode of evolution of a gamete recognition protein. 1993 , 1, 181-96		72
2112	Interaction of selection and drift in molecular evolution.. 1993 , 68, 529-537		
2111	An examination of the generation-time effect on molecular evolution. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1993 , 90, 10676-80	11.5	141
2110	Evidence for a chimeric nature of nuclear genomes: eubacterial origin of eukaryotic glyceraldehyde-3-phosphate dehydrogenase genes. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1993 , 90, 8692-6	11.5	161
2109	Multiple loci for synapse protein SNAP-25 in the tetraploid goldfish. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1993 , 90, 10598-602	11.5	61
2108	Evolution of the glutamine synthetase gene, one of the oldest existing and functioning genes. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1993 , 90, 3009-13	11.5	169
2107	Increasing antigenic and genetic diversity of the V3 variable domain of the human immunodeficiency virus envelope protein in the course of the AIDS epidemic. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1993 , 90, 9061-5	11.5	95
2106	Isolation of a shark immunoglobulin light chain cDNA clone encoding a protein resembling mammalian kappa light chains: implications for the evolution of light chains. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1993 , 90, 10603-7	11.5	59
2105	Molecular genetic basis of allelic polymorphism in malate dehydrogenase (mdh) in natural populations of <i>Escherichia coli</i> and <i>Salmonella enterica</i> . <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1994 , 91, 1280-4	11.5	133
2104	An NADH nitrate reductase gene copy appears to have been deleted in barley. 1994 , 88, 589-92		1
2103	Origin and evolutionary pathways of the H1 hemagglutinin gene of avian, swine and human influenza viruses: cocirculation of two distinct lineages of swine virus. 1994 , 134, 17-28		40
2102	Analysis of the core and E1 envelope region sequences of a novel variant of hepatitis C virus obtained in Indonesia. 1994 , 136, 53-62		22
2101	Maximum likelihood phylogenetic estimation from DNA sequences with variable rates over sites: approximate methods. <i>Journal of Molecular Evolution</i> , 1994 , 39, 306-14	3.1	2125
2100	Interspecific sequence comparison of the muscle-myosin heavy-chain genes from <i>Drosophila hydei</i> and <i>Drosophila melanogaster</i> . <i>Journal of Molecular Evolution</i> , 1994 , 39, 357-68	3.1	12
2099	On hypervariability at the reactive center of proteolytic enzymes and their inhibitors. <i>Journal of Molecular Evolution</i> , 1994 , 39, 614-9	3.1	25
2098	The evolutionary origin of red algae as deduced from the nuclear genes encoding cytosolic and chloroplast glyceraldehyde-3-phosphate dehydrogenases from <i>Chondrus crispus</i> . <i>Journal of Molecular Evolution</i> , 1994 , 38, 319-27	3.1	48
2097	The cotton-top tamarin revisited: Mhc class I polymorphism of wild tamarins, and polymorphism and allelic diversity of the class II DQA1, DQB1, and DRB loci. 1994 , 40, 167-76		36
2096	Reduction of synonymous substitutions in the core protein gene of hepatitis C virus. <i>Journal of Molecular Evolution</i> , 1994 , 38, 50-6	3.1	57

2095	Variable evolutionary rates in the molecular evolution of mammalian growth hormones. <i>Journal of Molecular Evolution</i> , 1994 , 38, 619-27	3.1	51
2094	Unbiased estimates of the number of nucleotide substitutions when substitution rate varies among different sites. <i>Journal of Molecular Evolution</i> , 1994 , 38, 295-9	3.1	36
2093	C4 gene polymorphism in primates: evolution, generation, and Chido and Rodgers antigenicity. 1994 , 40, 381-96		17
2092	Evolution of the interleukin-1 gene family in mammals. <i>Journal of Molecular Evolution</i> , 1994 , 39, 6-12	3.1	17
2091	Influence of viral quasispecies on effectiveness of interferon therapy in chronic hepatitis C patients. 1994 , 20, 1121-1130		121
2090	Simplifying genetic locus assignment of HLA-DRB genes. 1994 , 15, 58-62		38
