

Ventilation skills of emergency medical technicians: A t medicine

Annals of Emergency Medicine

15, 1187-1192

DOI: [10.1016/s0196-0644\(86\)80863-0](https://doi.org/10.1016/s0196-0644(86)80863-0)

Citation Report

#	ARTICLE	IF	CITATIONS
1	A comparison of infant ventilation methods performed by prehospital personnel. <i>Annals of Emergency Medicine</i> , 1989, 18, 607-611.	0.6	37
2	Comparison of ventilation performance: Standard resuscitation bag and the resuscitation bag controller. <i>Journal of Emergency Medicine</i> , 1990, 8, 121-125.	0.7	4
3	Preliminary evaluation of a prototype tube-valve-mask ventilator for emergency artificial ventilation. <i>Annals of Emergency Medicine</i> , 1991, 20, 262-266.	0.6	6
4	Efficacy of tracheal insufflation of oxygen during oleic acid-induced pulmonary edema. <i>Annals of Emergency Medicine</i> , 1991, 20, 1188-1192.	0.6	5
5	A NEW TECHNIQUE FOR TWO-HAND BAG VALVE MASK VENTILATION. <i>British Journal of Anaesthesia</i> , 1992, 69, 397-398.	3.4	12
6	Adult Advanced Cardiac Life Support. <i>JAMA - Journal of the American Medical Association</i> , 1992, 268, 2199.	7.4	138
7	Oxygenation and Ventilation during Cardiopulmonary Resuscitation Utilizing Continuous Oxygen Delivery via a Modified Pharyngeal-Tracheal Lumened Airway. <i>Chest</i> , 1992, 101, 522-529.	0.8	13
8	Reluctance of Internists and Medical Nurses to Perform Mouth-to-Mouth Resuscitation. <i>Archives of Internal Medicine</i> , 1993, 153, 1763.	3.8	89
9	Teaching Basic EMTs Endotracheal Intubation: Can Basic EMTs Discriminate between Endotracheal and Esophageal Intubation?. <i>Prehospital and Disaster Medicine</i> , 1994, 9, 234-237.	1.3	8
10	Ventilatory effects of active compression-decompression in dogs. <i>Annals of Emergency Medicine</i> , 1994, 24, 890-894.	0.6	31
11	Willingness of male homosexuals to perform mouth-to-mouth resuscitation. <i>Resuscitation</i> , 1994, 27, 23-30.	3.0	17
12	The reluctance of house staff to perform mouth-to-mouth resuscitation in the inpatient setting: what are the considerations?. <i>Resuscitation</i> , 1994, 28, 185-193.	3.0	72
13	In vitro Comparison of Bag-Valve-Mask and the Manually Triggered Oxygen-powered Breathing Device. <i>Academic Emergency Medicine</i> , 1994, 1, 29-33.	1.8	23
14	Lower Esophageal Sphincter Pressure During Prolonged Cardiac Arrest and Resuscitation. <i>Annals of Emergency Medicine</i> , 1995, 26, 216-219.	0.6	387
15	011. Bellows or Bag? A Test of 10 Ventilators. <i>Prehospital and Disaster Medicine</i> , 1995, 10, S22-S22.	1.3	2
16	Response to cardiac arrests in a hospital setting: delays in ventilation. <i>Resuscitation</i> , 1996, 31, 17-23.	3.0	34
17	Comparison of the reluctance of house staff of metropolitan and suburban hospitals to perform mouth-to-mouth resuscitation. <i>Resuscitation</i> , 1996, 32, 5-12.	3.0	48
18	The ptl, combitube, laryngeal mask, and oral airway: A randomized prehospital comparative study of ventilatory device effectiveness and cost-effectiveness in 470 cases of cardiorespiratory arrest. <i>Prehospital Emergency Care</i> , 1997, 1, 1-10.	1.8	216
