

CITATION REPORT

List of articles citing

Perineal proctectomy, posterior rectopexy, and postanal levator repair for the treatment of rectal prolapse

DOI: 10.1007/bf02554250

Diseases of the Colon and Rectum, 1986, 29, 547-52.

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
