

CITATION REPORT

List of articles citing

Weight/height¹ compared to weight/height² for assessing adiposity in childhood: influence of age and bone age on p during puberty

DOI: 10.1080/03014468600008621

Annals of Human Biology, 1986, 13, 433-51.

Version: 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
